**Across the Line** Barry Jacobs,2022-11-01 In the 1960s, college sports required more than athletic prowess from its African American players. For many pioneering basketball players on 18 teams in the Atlantic and Southeastern conference, playing ball meant braving sometimes menacing crowds during the tumultuous era of civil rights. Perry Wallace feared he would be shot when he first stepped onto a court in his Vanderbilt uniform. During one road game, Georgia's Ronnie Hogue fended off a hostile crowd with a chair. Craig Mobley had to flee the Clemson campus, along with other black students. C.B. Claiborne couldn't attend the Duke team banquet when it was held at an all-white country club. Wendell Hudson's mother cried with heartache when her son decided to play at the University of Alabama, and Al Heartley locked himself in a campus dorm at North Carolina State for safety the night Martin Luther King, Jr., was assassinated. Grounded in the civil rights struggles on campuses throughout the south, the voices of players, coaches, opponents and fans reveal the long-neglected story of race, sports and social history. Barry Jacobs has covered college basketball as well as news and other sports since 1976 for numerous publications, among them the New York Times, Washington Post, GQ, People, Oceans, the Saturday Evening Post and the Sporting News. He is the author of four books, including Coach K's Little Blue Book, The World According to Dean, and Three Paths to Glory. For 14 years he wrote the Fan's Guide to ACC Basketball. He also served as an elected county commissioner for 20 years and supervises Moorefields, an historic site near Hillsborough, NC.

*Sports* John R. Gerdy,2010-10-12 John R. Gerdy knows sports inside-out. He has been an All-American basketball player whose college jersey was retired. He was briefly a professional player. Later he served as an associate commissioner in the NCAA's Southeastern Conference and as a legislative and ethical advisor to the NCAA and the Knight Commission. Currently he teaches courses on sports administration. Now, in *Sports: The All-American Addiction*, he brings his insights and observations together in a radical, critical evaluation of the impact of sports on American life. This book argues that our society's huge investment in organized sports is unjustified. Ardent boosters say that sports embody the "American Way," developing winners by teaching lessons in sportsmanship, teamwork, and discipline. In fact, Gerdy writes, modern sports are eroding American life and undermining traditional American values essential to the well-being of the nation and its people. Like a drug, this obsession allows Americans to escape problems and ignore issues. Gerdy asks tough questions. Have sports lost their relevance? Is it just mindless entertainment? Is our enormous investment in sports as educational tools appropriate for a nation that needs graduates to compete in the information-based, global economy of the twenty-first century? Do organized sports continue to promote positive ideals? Or, do sports, in the age of television, corporate sky boxes, and sneaker deals, represent something far different? Boldly making his case, Gerdy detects five causes for alarm. A violent, win-at-all-cost mentality exists. A greater number of spectators are idly watching the few elite athletes. An athletic culture that is anti-intellectual systematically creates "dumb jocks." While bridges, inner-cities, and schools are crumbling, tremendous sums of tax dollars vanish to wealthy owners, millionaire players, and to college athletic programs. Studies show that sports are no more effective in promoting equality than any other American institution. Can organized sports be restructured? The author concludes with a series of daring suggestions for change.

*March 1939* Terry Frei,2014-02-06 In 1939, the Oregon Webfoots, coached by the visionary Howard Hobson, stormed through the first NCAA

basketball tournament, which was viewed as a risky coast-to-coast undertaking and perhaps only a one-year experiment. Seventy-five years later, following the tournament's evolution into a national obsession, the first champions are still celebrated as "The Tall Firs." They indeed had astounding height along the front line, but with a pair of racehorse guards who had grown up across the street from each other in a historic Oregon fishing town, they also played a revolutionarily fast-paced game. Author Terry Frei's track record as a narrative historian in such books as the acclaimed *Horns*, *Hogs*, and *Nixon Coming*, plus a personal connection as an Oregon native whose father coached football at the University of Oregon for seventeen seasons, makes him uniquely qualified to tell this story of the first tournament and the first champions, in the context of their times. Plus, Frei long has been a fan of Clair Bee, the Long Island University coach who later in life wrote the Chip Hilton Sports Series books, mesmerizing young readers who didn't know the backstory told here. In 1939, the Bee-coached LIU Blackbirds won the NCAA tournament's rival, the national invitation tournament in New York—then in only its second year, and still under the conflict-of-interest sponsorship of the Metropolitan Basketball Writers Association. Frei assesses both tournaments and, given the myths advanced for many years, his conclusions in many cases are surprising. Both events unfolded in a turbulent month when it was becoming increasingly apparent that Hitler's belligerence would draw Europe and perhaps the world into another war . . . soon. Amid heated debates over the extent to which America should become involved in Europe's affairs this time, the men playing in both tournaments wondered if they might be called on to serve and fight. Of course, as some of the Webfoots would demonstrate in especially notable fashion, the answer was yes. It was a March before the Madness.

Air Ball John R. Gerdy, 2009-09-18 John R. Gerdy has seen nearly every side of athletics. He is the son of a high school football coach; he was an All-American and professional basketball player and a legislative assistant for the National Collegiate Athletic Association; and he served as an associate commissioner for the Southeastern Conference. In *Air Ball: American Education's Failed Experiment with Elite Athletics*, Gerdy brings all of those perspectives to argue that the American system of school and community athletics is broken. But he is no mere naysayer. He offers a bold, progressive blueprint for reforming athletics to meet our country's educational and public health needs. Given higher education's historic role of providing leadership in our society, the initiative to restore a more sensible balance between athletics and education must begin with the reform of big-time college athletics. Despite widespread public skepticism regarding higher education's ability to change the system, Gerdy argues that the opportunity for reform has never been better. Using a provocative mix of research and thoughtful observation, he argues that, for the first time in the history of American higher education, the critical mass of people, organizations, and outside pressures necessary to drive and sustain progressive, systemic reform of the college athletic enterprise are in place.
