High Performance Vision Donald S. Teig, Dr., 2021-07-12 Beyond physical superiority, mental stamina, and smart play, most of the world's best athletes possess another specific advantage that gives them an edge. We're not talking about performance-enhancing drugs or blood doping, but something a lot more natural—good vision. Being able to follow a fastball as it flies over home plate, judge the shooting distance to a basketball hoop, or leap in the air to catch that spiraling football at just the right moment all depend on good eyesight. And maximizing one's vision can make all the difference between a good player and a great one. While wearing corrective lenses is certainly one way to sharpen visual acuity, it isn't the only one. In his new book, High Performance Vision, sports-vision specialist Dr. Donald Teig, shares his highly successful approach to visual enhancement. During his work with professional athletes over the past forty years, Dr. Teig developed a series of visual and visual-motor performance tests to determine the strengths and weaknesses of their eyesight. After establishing an initial baseline of test results, the athletes were given specific exercises designed to improve their visual skills. He then tested them again and measured the results against the baseline. With each succession of exercises, their sight and motor coordination improved, as did their performance on the playing field. In High Performance Vision, Dr. Teig details his unique approach and offers his highly effective exercise regimen for improving your own vision. If you've been looking for safe, natural way to improve your game, High Performance Vision offers the perfect solution. In a clear and reader-friendly style, it shows you how to gain the edge that many pros have used for years.

Concentration Mechanism of Tennis, Golf, Soccer, Baseball, and Skiing Benjamin J. An, DDS, 2015-10-27 Benjamin An has discovered the human hand structure, which explains why humans are born to hit with an implement and to throw with a trajectory release. Hitting and throwing became the most powerful actions in the animal kingdom. These actions became the primary tools for humans to survive historically. Survival skills become sports actions in the modern, civilized world. Different sports were invented with modification of the sports actions. Dr. An has looked into these actions seriously in terms of human nature—intellectually, biomechanically, psychologically, physically, and mentally—in order to help athletes perform these actions without confusion. Many performance problems occur just because these actions are parts of human nature and humans know too much about these actions. For example, for every action, a human knows the results of this action. It is very hard for a human to concentrate on the actions only and ignore the results of these actions. Thinking about the results has become one of the most serious interferences of that action itself. Dr. An calls these intellectual interferences. Human physical actions are complicated by human mental thoughts and intellectual understandings. Sports actions are not just physical actions. Sports actions have to be modified if it is necessary and executed with specific mental thoughts in order to fit in any specific sport. The author has specifically emphasized on these points in his book.

Tennis Through the Eyes of an “Old Pro” Bob Kurlander, 2013-06-18 TURNING TENNIS PRO: I was a very young Tennis Pro in the late 1940's with jobs at the Mountain Ridge Country Club, NJ and the Mayfair Inn, Stanford, FL. I was not satisfied with my income. I was offered a lucrative job with the Gilman Paper Company, New York City, NY that required my moving to Montgomery, AL to promote and sell a packaging machine that filled chemicals into multi-wall kraft bags, manufactured by Gilman. I had a lot of success with this marketing venture and was moved back to the New York office. A career with Gilman looked good with an excellent pension for my old age. BUT, my love for TENNIS changed everything! My brother, Jack convinced Playboy Hotels International that his Great Gorge Ski Area was a great place to build a hotel that they were planning. He suggested I renew my Tennis Life by accepting the Director of Tennis with Playboy. My Tennis Career was back on track - which my book deals with.
