Sport as Symbol Mari Womack, 2003-01-01 Upon first consideration, sport and art seem to occupy separate, even opposing, realms--sport, associated with physical prowess, and art, with the highest reaches of the human mind. But because sport is such a powerful metaphor for so many human experiences, it has found its way into artistic traditions all over the world. Part One of this book provides a basic understanding of sport as symbol. Part Two gives attention to animals as adversaries and traces the origins of sporting art back to the hunt. Part Three considers humans competing against humans in combat sports, ball games, stick-and-ball games, and racquet sports, as well as in warfare. Part Four concentrates on contesting with oneself in races and sports of grace and beauty such as gymnastics, figure skating and ice dancing. The book concludes with a discussion of the athlete's relationships to society.

Metro Detroit Boxing Lindy Lindell, 2001 Boxing seemed to spring up in Detroit as early as 1900: heavyweight champ Jim Jeffries and future heavyweight champ Tommy Burns fought that year. With the emergence of Joe Louis in the 1930s and Thomas Mearns in the late 1970s, Motown enjoyed surges of interest in the sport. At the dawn of a new millennium, the presence of three casinos has given the sport another revival of interest in the city. Metro Detroit Boxing showcases over 180 photographs that reveal not only the personalities who have enlivened the sport in the Detroit area, but also the places in which boxers, trainers, managers, and promoters fought, trained, lived, worked, and recreated. Photographs include where Joe Louis went to school, trained, and fought. Various boxing celebrities, including Muhammad Ali, are caught for the camera, socializing with eminent politicians and other figures of the day.

Hofstra Athletics strings together a pictorial history of the school's well-known coaches and athletes, championship teams, and players who made it on the professional level.

Hockey in Syracuse Jim Mancuso, 2005 Hockey in Syracuse retraces the history of the eight professional teams that have taken the ice in Syracuse in six different leagues since 1930. Each team has its own colorful story, beginning with the Syracuse Stars of the International Hockey League. The "Twinklers" have the distinction of capturing the first Calder Cup ever awarded. Other teams included the Warriors (1951–1954), the Braves (1962–1963), the Blazers (1967–1977), the Eagles (1974–1975), the Firebirds (1979–1980), and the Hornets (1980–1981). The present-day Crunch brought hockey back in 1994 and have provided Syracuse fans with thrills on the ice ever since. Salt City teams have won four playoff championships and have set several all-time professional hockey records that still stand today. Hockey Hall of Famers from these teams include Keith "Bingo" Allen, Gord Drillon, Phil Esposito, Syd Howe, and Dave "Sweeney" Schirmer. Syracuse truly has a rich hockey heritage.

Beyond the Finish Line Jonathan Finn, 2020-09-23 In the 1880s photographers and sports enthusiasts confidently declared the end of dead heats in sporting competition. Reflecting a broader

social belief in technology, proponents of the camera stressed that the device could provide definitive proof of who won and who lost. Yet despite this remedy for the inadequate human eye, competitive races between horses, boats, and bicycles ended too close to call a sole champion. More than a century later, when cameras can subdivide the second into ten-thousandths and beyond, athletes continue to cross the finish line in ties. In this fascinating journey through the history of the photo-finish in sports, Jonathan Finn shows how innovation was animated by a drive for ever more precise tools and a quest for perfect measurement. As he traces the technological developments inspired by this crusade - from the evolution of the still camera to movie cameras, ultimately leading to complex contemporary photo-finish systems - Finn uncovers the social implications of adopting and contesting the photograph as evidence in sport. At every turn empirical obsession intersects with the unpredictability of sports, creating a paradox wherein the precision offered by photo-finish technology far exceeds the realities of human performance and its measurement. Separating athletes by the hundredth, thousandth, or ten-thousandth of a second is often a fiction that comes with significant material and cultural implications. A lively biography of a critical technology, *Beyond the Finish Line* illuminates the cultural role of the photo-finish in win-at-all-costs culture and warn that in our pursuit for precision we may threaten the human element of sport that galvanizes mere spectators into fans.

Nebraska Cornhusker Football Mark Fricke,2005 When Matt Davison made a diving catch on the famous flea-flicker play against Missouri in 1997, securing Nebraska's perfect season, the Husker faithful were in football nirvana. And that memorable play was preceded by over a century of Nebraska Football greatness. The team was winning conference championships back in the 1890s, and was an established national powerhouse by the time they joined the Big Eight (later Big Twelve) in 1928. Even the mediocre years brought excitement, such as the stunning 25-21 upset of the unbeatable Sooners in 1959. Five National Championships (1970, '71, '94, '95, and '97) under the coaching of Bob Devaney and Tom Osborne, when the Huskers won at least 9 games per season for over 30 straight years, is an accomplishment of which most collegiate football programs can only dream.

Keepers of the Flame Travis Vogan,2014-03-15 NFL Films changed the way Americans view football. *Keepers of the Flame: NFL Films and the Rise of Sports Media* traces the subsidiary's development from a small independent film production company to the marketing machine that Sports

Illustrated named perhaps the most effective propaganda organ in the history of corporate America. Drawing on research at the NFL Films Archive and the Pro Football Hall of Fame and interviews with media pioneer Steve Sabol and others, Travis Vogan shows how NFL Films has constructed a consistent, romanticized, and remarkably visible mythology for the National Football League. The company packages football as a visceral and dramatic sequence of violent, beautiful, graceful, and heroic gridiron battles. Historically proven formulas for presentation--such as the dramatic voiceovers once provided by John Facenda's baritone, the soaring scores of Sam Spence's rousing background music, and the epic poetry found in Steve Sabol's scripts--are still used today. From the Vincent Price-narrated *Strange but True Football Stories* to the currently running series *Hard Knocks*, NFL Films distinguishes the NFL from other sports organizations and from other media and entertainment. Vogan tells the larger story of the company's relationship with and vast influence on our culture's representations of sport, the expansion of sports television beyond live game broadcasts, and the emergence of cable television and Internet sports media. *Keepers of the Flame: NFL Films and the Rise of Sports Media* presents sports media as an integral facet of American popular culture and NFL Films as key to the transformation of professional football into the national obsession commonly known as America's Game.
