

Spots

Kelli Chipperoni,Ryan Hayes

The Spots and the Dots Helen Baugh,2021-09-07 The Spots live on one side of the hill. The Dots live on the other. Both are fearful and suspicious of the other, but are they really all that different? When a young Spot and a young Dot meet at the top of the hill, they are about to find out. Flip the book upside down and choose whether to read from the perspective of the Spots or the Dots, right up until the middle, where the two communities collide. Find the similarities in others, discover that fear is often based on ignorance, and celebrate difference in this stunning picture book with artwork from award-winning illustrator Marion Deuchars.

A Little SPOT of Feelings Diane Alber,2020-07-24 Gives coping and managing techniques to deal with ones emotions.

Whose Spots? Fiona Munro,2011 Invites young readers to identify animals with different types of spotted wings or fur and lift the flaps as the creatures are identified and comment on their lives.

Dots & Spots Kelli Chipperoni,Ryan Hayes,2020-09 Is that a unicorn apocalypse sink hole? With Dots & Spots: A Drawing Book, explore the answers to this and more of the universes biggest questions as you sketch, doodle, draw, design, and colour using a series of random black spots and dots to guide your way.

600 Black Spots David A. Carter,2009-09 A pop-up book for young and old alike, featuring 600 black spots that slip, spin, swirl and slide their way across the page.

Lots of Spots Lois Ehlert,2011-04-05 Caldecott Honor artist Lois Ehlert invokes birds and beasts from all walks of the animal kingdom in this collection of fun, clever, and witty poems. Beautifully illustrated in Lois's signature bold and bright collage style, this exploration of camouflage and adornment will both illuminate and delight.

Where's Spot? Eric Hill,2020-03-03 Join the hunt to find lovable puppy, Spot, in Eric Hill's first ever lift-the-flap tale! Lift each flap to find all sorts of funny animal surprises, before discovering where cheeky Spot has been hiding. This is the perfect first book for little ones - the playful text is a wonderful spur to read and respond together, and the hide-and-seek flaps encourage curiosity and interactivity. This is a special anniversary edition of this much-loved classic to celebrate 40 years since the first publication of *Where's Spot?*.

Blind Spots Max H. Bazerman,Ann E. Tenbrunsel,2012-12-23 When confronted with an ethical dilemma, most of us like to think we would stand up for our principles. But we are not as ethical as we think we are. In *Blind Spots*, leading business ethicists Max Bazerman and Ann Tenbrunsel examine the ways we overestimate our ability to do what is right and how we act unethically without meaning to. From the collapse of Enron and corruption in the tobacco industry, to sales of the defective Ford Pinto, the downfall of Bernard Madoff, and the Challenger space shuttle disaster, the authors investigate the nature of ethical failures in the business world and beyond, and illustrate how we can become more ethical, bridging the gap between who we are and who we want to be. Explaining why traditional approaches to ethics don't work, the book considers how blind spots like ethical fading--the removal of ethics from the decision-making process--have led to tragedies and scandals such as the Challenger space shuttle disaster, steroid use in Major League Baseball, the crash in the financial markets, and the energy crisis. The authors demonstrate how ethical standards shift, how we neglect to notice and act on the unethical behavior of others, and how compliance initiatives can actually promote unethical behavior. They argue that scandals will continue to emerge unless such approaches take into account the psychology of individuals faced with ethical dilemmas. Distinguishing our should self (the person who knows what is correct) from our want self (the person who ends up making decisions), the authors point out ethical sinkholes that create questionable actions. Suggesting innovative individual and group tactics for improving human judgment, *Blind Spots* shows us how to secure a place for ethics in our workplaces, institutions, and daily lives.

Sweet Spots Mattie-Martha Sempert,2021-12-30 Sweet Spots thinks transversally across language and body, and between text and tissue. This assemblage of essays collectively proposes that words--that is, language that lands as written text--are more-than-human material. And, these materials, composed of forces and flows and tendencies, are capable of generating text-flesh that grows into a thinking in the making. The practice of acupuncture--and its relational thinking--often makes its presence felt to twirl the text-tissue of the bodying essays. Ficto-critical thinking is threaded throughout to activate concepts from process philosophy and use the work of other thinkers (William James, Felix Guattari and Gilles Deleuze, Baruch Spinoza, and Virginia Woolf, to name a few) to forge imaginative connections. Entangled in the text-tissue are an assortment of entities, such as bickering body parts, quivering jellyfish, heart pacemaker cells, a narwhal tooth, Taoist parables, always with ubiquitous, stretchy connective tissue--from gooey interstitial fluid to thick planes of fascia--ever present to ensure that the essaying bodies become, what Alfred North Whitehead calls the one-which-includes-the-many-includes-the-one. The essaying bodies orient towards the sweetest sweet spot which is found, not in the center, but slightly askew, felt in the reverbing more-than that carries their potential. Crucially, this produces a shift in perspective away from self-enclosed bodies and experts toward a care for the connective tissue of relation.

Dr. Potts, My Pets Have Spots! Rod Hull,2019-09-01 When Mr. Betts's eight different pets develop spots, he takes them to the vet. Dr. Potts's medicine cures the spots--but gives them stripes instead! This hilarious rhyming story rollicks along from one problem to the next as Dr. Potts finally cures Mr. Betts's wacky collection of pets.

What Do You See, Spot? Eric Hill,2012 With a big mirror surprise.

Hot Spots Lynda Gratton,2007-02-19 You always know when you are in a Hot Spot. You feel energized and vibrantly alive. Your brain is buzzing with ideas, and the people around you share your joy and excitement. Things you've always known become clearer, adding value becomes more possible. Ideas and insights from others miraculously combine with your own to create new thinking and innovation. When Hot Spots arise in and between companies, they provide energy for exploiting and applying knowledge that is already known and genuinely exploring what was previously unknown. Hot Spots are marvelous creators of value for organizations and wonderful, life-enhancing phenomena for each of us. Lynda Gratton has spent more than ten years investigating Hot Spots--discovering how they emerge and how organizations can create environments where they will proliferate and thrive. She has studied dozens of companies and talked to hundreds of employees, managers, and executives in the US, Europe, and Asia. She has asked the important questions: Why and when do Hot Spots emerge? What is it about certain groups of people that

support the emergence of Hot Spots? What role do leaders play? She's discovered a host of elements that together contribute to the emergence of Hot Spots--creating energy and excitement, and supporting and channeling that energy into productive outcomes. In this groundbreaking book, Gratton describes four crucial qualities that an organizational culture must have to support the emergence of Hot Spots, looks at what leaders can do to encourage them, and offers activities and tools you can use in your own company to increase the probability of them arising. In these days when traditional organizational boundaries are becoming barriers to progress, Gratton offers advice and guidance that you can use right now to increase the probability of Hot Spots emerging in your organization.

Who's Got Spots? Linda Williams Aber, 2021-07-13 Discover Math Matters! With over 15 million books sold worldwide, this award-winning series of easy-to-read books will help young readers ages 5–8 approach math with enthusiasm. Great for fans of MathStart or Step into Reading Math. When Kip tries to forecast whether chicken pox will keep him and his friends out of the Autumn Fest, he takes a survey and organizes his data using tallies and graphs! With engaging stories that connect math to kids' everyday lives, each book in the Teachers' Choice Award-winning Math Matters series focuses on a single concept and reinforces math vocabulary and skills. Bonus activities in the back of each book feature math and reading comprehension questions, and even more free activities online add to the fun! (Math topic: Tallies and Graphs)

Truth-Spots Thomas F. Gieryn, 2018-05-22 We may not realize it, but truth and place are inextricably linked. For ancient Greeks, temples and statues clustered on the side of Mount Parnassus affirmed their belief that predictions from the oracle at Delphi were accurate. The trust we have in Thoreau's wisdom depends in part on how skillfully he made Walden Pond into a perfect place for discerning timeless truths about the universe. Courthouses and laboratories are designed and built to exacting specifications so that their architectural conditions legitimate the rendering of justice and discovery of natural fact. The on-site commemoration of the struggle for civil rights—Seneca, Selma, and Stonewall—reminds people of slow but significant political progress and of unfinished business. What do all these places have in common? Thomas F. Gieryn calls these locations “truth-spots,” places that lend credibility to beliefs and claims about natural and social reality, about the past and future, and about identity and the transcendent. In Truth-Spots, Gieryn gives readers an elegant, rigorous rendering of the provenance of ideas, uncovering the geographic location where they are found or made, a spot built up with material stuff and endowed with cultural meaning and value. These kinds of places—including botanical gardens, naturalists' field-sites, Henry Ford's open-air historical museum, and churches and chapels along the pilgrimage way to Santiago de Compostela in Spain—would seem at first to have little in common. But each is a truth-spot, a place that makes people believe. Truth may well be the daughter of time, Gieryn argues, but it is also the son of place.

Spectacular Spots Susan Stockdale, 2022-06-28 You'll be amazed to discover all the different reasons why animals have spots! What kinds of animals have spots and why do they have them? With engaging rhymes and bright, bold images, award-winning author-illustrator Susan Stockdale introduces readers to a range of spotted animals, familiar and exotic, and some of the benefits of their patterns. In addition to providing beauty and inspiration, spots can help a creature masquerade as a different, more threatening species, provide camouflage for hunting or hiding, or scare off predators. From the ladybug to the blue poison dart frog, the green anaconda to the white-tailed deer fawn, these spectacularly spotted creatures will delight and fascinate budding naturalists. This entrancing companion to Stripes of All Types (130,000 copies sold in a variety of formats) features energetic rhyming text and beautifully detailed paintings that pop off the page. An afterword tells a little bit more about each animal and where it lives, and readers can test their knowledge of animal spots with a fun matching game at the end.

White Spots–Black Spots Adam Daniel Rotfeld, Anatoly V. Torkunov, 2015-08-14 Poland and Russia have a long relationship that encompasses centuries of mutual antagonism, war, and conquest. The twentieth century has been particularly intense, including world wars, revolution, massacres, national independence, and decades of communist rule—for both countries. Since the collapse of communism, historians in both countries have struggled to come to grips with this difficult legacy. This pioneering study, prepared by the semi-official Polish-Russian Group on Difficult Matters, is a comprehensive effort to document and fully disclose the major conflicts and interrelations between the two nations from 1918 to 2008, events that have often been avoided or presented with a strong political bias. This is the English translation of this major study, which has received acclaim for its Polish and Russian editions. The chapters offer parallel histories by prominent Polish and Russian scholars who recount each country's version of the event in question. Among the topics discussed are the 1920 Polish-Russian war, the origins of World War II and the notorious Hitler-Stalin pact, the infamously shrouded Katyn massacre, the communization of Poland, Cold War relations, the Solidarity movement and martial law, and the renewed relations of contemporary Poland and Russia.

The Portland Book of Dates Eden Dawn, Ashod Simonian, 2021-01-05 This highly visual book marries style and substance to give Portland and the people who love her the guidebook they deserve: a curated and creative collection of more than 130 outings in and around Portland to inspire romance and adventure. Secret spots, beloved locales, and unexpected destinations offer endless options for date night or a weekend getaway. Finally, a stylish, cheeky, curated guidebook of cool places for Portlanders (and visitors) to go on dates/outings/field trips/adventures. These range from one-hour coffee and ice cream dates in Portland's neighborhoods to multiday expeditions to Hood River and Mount St. Helens. The authors have a bead on the obscure and fascinating, and the descriptions are motivating enough to prompt even the lazy to head out the door. The book will have serious pickup power and will become an essential resource and armchair read for Portland-area Gen X, millennial, and Gen Z couples (and singles with friends) interested in learning about off-the-beaten-path things to do, see, and taste. No more FOMO! In-the-know authors and tastemakers Eden Dawn and Ashod Simonian will reveal where the cool and quirky go, while educating readers on this beloved city.

Spots and Dots Chez Picthall, 2007 Provides images designed to stimulate development of the brain and eyesight in infants. On board pages.

The Leopard's Spots Thomas Dixon, 1908

Dead Spots Melissa F. Olson, 2012 Scarlett Bernard knows about personal space: step within ten feet of her, and any supernatural spells or demonic forces are instantly defused—vampires and werewolves become human again, and witches can't get out so much as a hocus pocus. This special skill makes her a null and very valuable to Los Angeles's three most powerful magical communities, who utilize her ability to scrub crime scenes clean of all traces of the paranormal to keep

humanity, and the LAPD, in the dark. But one night Scarlett's late arrival to a grisly murder scene reveals her agenda and ends with LAPD's Jesse Cruz tracking her down to strike a deal: he'll keep quiet about the undead underworld if she helps solve the case. Their pact doesn't sit well with Dash, the city's chief bloodsucker, who fears his whole vampire empire is at stake. And when clues start to point to Scarlett, it'll take more than her unique powers to catch the real killer and clear her name.--Publisher's website.

Whispering the Secrets of Language: An Mental Journey through **Spots**

In a digitally-driven world wherever displays reign supreme and immediate conversation drowns out the subtleties of language, the profound strategies and mental subtleties concealed within words usually get unheard. Yet, set within the pages of **Spots** a charming literary value pulsating with raw thoughts, lies an extraordinary quest waiting to be undertaken. Published by an experienced wordsmith, this marvelous opus encourages readers on an introspective trip, lightly unraveling the veiled truths and profound influence resonating within ab muscles cloth of every word. Within the psychological depths of the poignant review, we will embark upon a sincere exploration of the book is core themes, dissect its fascinating publishing design, and succumb to the strong resonance it evokes strong within the recesses of readers hearts.
