The Digital Diet Daniel Sieberg,2011-05-03 We all know someone who needs a digital diet. Technology has overwhelmed our daily lives to the point of constant distraction. Many of us can no longer focus on a single task or face-to-face conversation without wanting to reach out—or retreat—to the virtual world every few minutes. Science and technology reporter and recovering digital addict Daniel Sieberg has devised a foolproof 4-step plan to help you regain control, focus, and true connection in your life. Step 1//Re: Think: Consider how technology has overwhelmed our society and the effect it's had on your physical, mental, and emotional health. Step 2//Re: Boot: Take stock of your digital intake using Sieberg's Virtual Weight Index and step back from the device. Step 3//Re: Connect: Focus on restoring the relationships that have been harmed by the technology in your life. Step 4//Re: Vitalize: Learn how to live with technology—the healthy way, by optimizing your time spent e-mailing, texting, on Facebook, and web surfing. This program will enable families to communicate better, employees to be more productive, and friends to stay in touch. Sieberg teaches us how to manage and use the technology in our lives to our advantage, without letting it control us.

Meme Media and Meme Market Architectures Yuzuru Tanaka,2003-07-10 This book provides an integrated view of the five kinds of enabling technologies in terms of knowledge media architectures: multimedia and hypermedia, object-oriented GUI and visual programming, reusable component software and component integration, network publishing and electronic commerce, and object-oriented and multimedia databases. Among many books on multimedia and hypermedia, few address knowledge. Of those that do, none focus on media for the editing, distribution, and management of knowledge the way this book does. It is written based on the hypothesis that knowledge media work as genes, with their network publishing repository, working as a gene pool to accelerate the evolution of knowledge shared in our societies.
