Your Father Sends His Love: Stories Stuart Evers,2016-01-18 Your Father Sends His Love heralds the powerful American debut of a bold new literary talent. Stuart Evers writes with uncanny psychological acuity. The inventive, elegant stories in Your Father Sends His Love illuminate the precarious and electrifying connections between parents and children. Evers's unforgettable characters long to repair relationships that have faltered or that never quite began. A single father goes to jail for avenging a hate crime perpetrated against his gay son; a mother returns home to her husband and children after an affair; an aging grandfather mediates between his quarreling son and granddaughter; a man waits at the pub, frantically listing things he might say to a suffering friend. With wit, subtlety, and uncommon sensitivity, Evers captures those pivotal moments between parents and children when emotions are urgently felt yet impossible to express. In this, he explores new realms of passion and estrangement. With his precise, energetic prose, Evers crafts a group of stories that explore familial love in all of its forms.

Social Diversity within Multiliteracies Fenice B. Boyd,Cynthia H. Brock,2014-12-05 Using a multiliteracies theoretical framework highlighting social diversity and multimodality as central in the process of meaning making, this book examines literacy teaching and learning as embedded in cultural, linguistic, racial, sexual, and gendered contexts and explores ways to foster learning and achievement for diverse students in various settings. Attending simultaneously to topics around two overarching and interrelated themes—languages and language variations, and cultures, ethnicities, and

identities—the chapter authors examine the roles that multiliteracies play in students' lives in and out of classrooms. In Part I, readers are asked to examine beliefs and dispositions as related to different languages, language varieties, cultures, ethnicities, and identities. Part II engages readers in examining classroom and community practices related to different languages and language varieties, cultures, ethnicities, and identities.

Language in the Schools Kristin Denham, Anne Lobeck, 2006-04-21 *Language in the Schools: Integrating Linguistic Knowledge Into K-12 Teaching* addresses two important questions: *What aspects of linguistic knowledge are most useful for teachers to know? *What kinds of activities and projects are most effective in introducing those aspects of linguistic knowledge to K-12 students? The volume focuses on how basic linguistic knowledge can inform teachers' approaches to language issues in the multicultural, linguistically diverse classroom. The text also includes examples of practical applications of language awareness to pedagogy, assessment, and curriculum construction, which support the current goals of language arts, bilingual, and ESL education. *Language in the Schools: Integrating Linguistic Knowledge Into K-12 Teaching* contributes to the resources on linguistics and education by taking prospective teachers beyond basic linguistics to ways in which linguistics can productively inform their teaching and raise their students' awareness of language. It is intended as a text for students in teacher education programs who have a basic knowledge of linguistics.

Linguistics at School Kristin Denham, Anne Lobeck, 2010-01-07 This volume shows how linguistics can be integrated into school curricula, presenting research and practice in the field of language within education.

Affirming Students' Right to their Own Language Jerrie Cobb Scott, Dolores Y. Straker, Laurie Katz, 2009-06-02 A Co-publication of the National Council of Teachers of English and Routledge. How can teachers make sound pedagogical decisions and advocate for educational policies that best serve the needs of students in today's diverse classrooms? What is the pedagogical value of providing culturally and linguistically diverse students greater access to their own language and cultural orientations? This landmark volume responds to the call to attend to the unfinished pedagogical business of the NCTE Conference on College Composition and Communication 1974 Students' Right to Their Own Language resolution. Chronicling the interplay between legislated/litigated education policies and language and literacy teaching in diverse classrooms, it presents exemplary research-based practices that maximize students' learning by utilizing their home-based cultural, language, and literacy practices to help them meet school expectations. Pre-service teachers, practicing teachers, and teacher educators need both resources and knowledge, including global perspectives, about language variation in PreK-12 classrooms and hands-on strategies that enable teachers to promote students' use of their own language in the classroom while also addressing mandated content and performance standards. This book meets that need. Visit <http://www.ncte.org> for more information about NCTE books, membership, and other services.

The Old King Thos. Pinney, 2015-09-16 King Athan has been happy in his little kingdom, a hundred leagues north and east of the great city-states of Athens and Sparta. It was true he had stolen the kingdom of Dassaria, but it was his now, and he meant to make it a good place to live for his subjects. Blessed with a magical amulet, he has stopped aging and so believes he has all the time in the world. Athan, however, is learning that being a king is a lot harder and much more dangerous than he ever imagined. He and his men must face challenges ranging from the mundane to the desperate. His little kingdom must fight to survive against foes near and far in particular, the mighty Archimedean Empire, who are out to conquer whole region. Turning back the forces of the empire is just one of King Athan's problems. Dassaria is once again threatened by an upstart would-be tyrant, and the king must mobilize his small army and find a way to eliminate this menace. Meanwhile, Athan finds love and soon discovers the downside of his agelessness. In this fantasy novel, the third in a series, an ageless king faces threats to his kingdom, discovers true love, and learns that change is inevitable, even for the seemingly immortal.

Caught In-Between Petho Agnes Petho,2020-03-02 This collection of essays explores intermediality as a new perspective in the interpretation of the cinemas that have emerged after the collapse of the former Eastern bloc. As an aesthetic based on a productive interaction of media and highlighting cinema's relationship with the other arts, intermediality always implies a state of in-betweenness which is capable of registering tensions and ambivalences that go beyond the realm of media. The comparative analyses of films from Hungary, Romania, Poland, the Czech Republic, Bosnia and Herzegovina and Russia demonstrate that intermediality can be employed in this way as a form of introspection dealing with complex issues of art and society. Appearing in a variety of sensuous or intellectual modes, intermediality can become an effective poetic strategy to communicate how the cultures of the region are caught in-between East and West, past and present, emotional turmoil and more detached self-awareness. The diverse theoretical approaches that unravel this in-betweenness contribute to the understanding of intermedial phenomena in contemporary cinema as a whole.
