Little Scrooge P.J. Escobedo,2018-11-05 To the parents, The ironic nature of this story is meant for all ages who have to deal with changing technology that affects everyday life. Explaining that going outside each day to play instead of just playing video games could be healthy. A simple break between games can help by simply getting exercise while having fun. The idea for parents is to understand that technology is becoming overwhelming due to not integrating our needs to what technology can accomplish for us so we can spend more time with our children. Make the time by putting technology down and listening to what our kids really need—their parents.

Squishy Crushy Something Kieran Frank, Jayden never expected he'd be the type to develop a squish on a boy, never mind a full-blown crush. It started with Kail, a boy with looks and popularity and all-around awesomeness. Developing a squish on Kail might've been natural for Jayden, of course, as anyone could fall for that boy. But it's now three years later, the summer before senior year, and Jayden's squish on Kail has grown into a

crush that he can no longer ignore. And this crush is leading Jayden to make decisions he knows he'll regret later. But Kail isn't the only one Jayden is having squishy crushy troubles with. He used to be friends with Ollie, but when Ollie got too deep into religion, it drove Jayden away. Now, Ollie is back and he seems much more open-minded—not to mention much more attractive—and Jayden can't help but develop a squish. But could it turn into a crush? Jayden is caught between two squishy crushes—the crush on the boy that he knows is toxic, and the potential crush that could make or break a friendship—and he doesn't know what to do. The right choice could bring him happiness, but if he makes the wrong choice he could lose everything.

Sometimes she salvages for money, but mostly she's an active historian. She wants to know about the past—to experience it firsthand. Once she's dived the ship, she'll either leave it for others to find or file a claim so that she can bring tourists to dive it as well. It's a good life for a tough loner, with more interest in artifacts than people. Then one day, Boss finds the claim of a lifetime: an enormous spacecraft, incredibly old, and apparently Earth-made. It's impossible for something so old, built in the days before Faster Than Light travel, to have journeyed this far from Earth. It shouldn't be here. It can't be here. And yet, it is. Boss's curiosity is up, and she's determined to investigate. She hires a group of divers to explore the wreck with her, the best team she can assemble. But some secrets are best kept hidden, and the past won't give up its treasures without exacting a price in blood. What Boss finds could rewrite history, cost lives, and start an intergalactic war.
