Twitter Guide: For Seniors Jacob Gleam,2015-05-21 Twitter is one of the many social media platforms that people use to communicate ideas, jokes and other types of information. The information is displayed in what are known as tweets which usually allow the twitter users a 140 character limit to share anything. Twitter is used globally and can be used for business, personal use and for group communications. The site is a fun way to interact with others and it differs from other platforms in that the user gets to read the content in a short period and decide whether he or she would like to open any links found on the tweet to read it further.

the book today! Here's what real readers are saying about TWITTER IN 30 MINUTES: I quickly set up a Twitter account and started using it within a half hour. I would recommend this book for anyone who doesn't have a Twitter account, for those who do have one but aren't actively using it, and for those who aren't quite sure how to get the most out of their account. Though I have been using Twitter for some time now, I still learned a thing or two from reading this. Clarified any issues I had or concerns and listed some excellent precautions. Perfect introduction to Twitter. Quick and easy read with lots of photos. I finally understand the #! I've been tweeting for over a year but learned a lot if helpful details I hadn't been aware of until now. Lots of easy to understand info, and good instructions with screenshots that make it easy to understand. Thanks for the help and making Twitter even more fun. Just the quick, light intro I wanted. No annoying bits of philosophy. Some careful warnings about privacy and courtesy are included. You really can skim it in 30 minutes. Easy to read and actually fun to fire up my twitter account and play along with each chapter. Everyone has 30 spare minutes spread out over a week (if not a day) to read this guide.

  Corpus Approaches to Language in Social Media Matteo Di Cristofaro,2023-08-18 This book showcases the unique possibilities of corpus linguistic methodologies in engaging with and analysing language data from social media, surveying current approaches, and offering guidelines and best practices for doing language analysis. The book provides an overview of how language in social media has been approached by linguists and non-linguists, before delving into the identification of the datasets requirements needed to pursue investigations in social media, and of the technical aspects of particular platforms that may influence the analysis, such as emoticons, retweets, and metadata. Sample Python code, along with general guidelines for using it, is provided to empower researchers to apply these techniques in their own work, supported by actual examples from three real-life case studies. Di Cristofaro highlights the full potential of using these methodologies in analysing social media language data and the ways in which they might pave the way for future applications of data analysis and processing for corpus linguistics. The book will be key reading for researchers in corpus linguistics and linguists and social scientists interested in data-driven analysis of social media.

Research Outlook,Innovations & Research Trends in Science & Technology Prof S S Rajput,Prof Dr Zeliha Selamoglu,Dr Prashant P Chaudhari, Mrs Priyanka Gupta,2020-10-25 This book is focused predominantly on academicians, research scholars belong to science and engineering, managers, scientists, technicians, and other professionals in the field of qualitative research. This book is comprehended from different sources of research in Science and Technology. On the first occasion, the task of providing researchers with a broad view of the relationship between science and technology. The second reason for writing the book was the need to fill a gap in academics and research. While many excellent books, documents, and article exist for innovative practices, we have not found a work in which we can properly understand the content that the researcher needs to understand. So, after much deliberation, we decided to collect all quality efforts in one string. At the most basic level, this book is trying to show research scholars; what science, technology, and innovations are all about. It cannot study or gain knowledge of that part and is at a level that most researchers should find clear and understandable. Our goal was to develop content that will help researchers who are beginning to use innovative practices. We hope to meet the needs of academicians, research scholars who are being encouraged to incorporate more reading and writing in the field of science and technology. In summary, this book is targeted to the needs of individuals engaged in quality research activities in science and technology. Our goal is to present the topics of creativity and innovation to this audience in a way that enables them to incorporate new skills into their daily work. We would like to thank all the contributors who have made the production of this book so fascinating and enjoyable. Their scholarship and dedicated commitment and motivation to 'getting it right' are the keys to the book's quality, and we greatly appreciate their good nature over many months in the face of our editorial demands and time limits. We are also grateful for using their texts, ideas, and critical remarks We would also like to thank Prof Dr Nilam N Ghuge, Prof Dr D Ayub Khan Dawood, Prof Dr Vilas A Pharande, all reviewers and all authors for their help in consolidating the interdisciplinary of the book. We are grateful to all the 18 institutions for their support. It will not be possible to bring out this edition.
