Life as We Knew it Susan Beth Pfeffer, 2008 I guess I always felt even if the world came to an end, McDonald's still would be open. High school sophomore Miranda's disbelief turns to fear in a

split second when an asteroid knocks the moon closer to Earth, like one marble hits another. The result is catastrophic. How can her family prepare for the future when worldwide tsunamis are wiping out the coasts, earthquakes are rocking the continents, and volcanic ash is blocking out the sun? As August turns dark and wintery in northeastern Pennsylvania, Miranda, her two brothers, and their mother retreat to the unexpected safe haven of their sunroom, where they subsist on stockpiled food and limited water in the warmth of a wood-burning stove. Told in a year's worth of journal entries, this heart-pounding story chronicles Miranda's struggle to hold on to the most important resource of all--hope--in an increasingly desperate and unfamiliar world. An extraordinary series debut Susan Beth Pfeffer has written several companion novels to *Life As We Knew It*, including *The Dead and the Gone*, *This World We Live In*, and *The Shade of the Moon*.

Girl Factory Karen Dietrich, 2013-10-01 It's 1985 in a small factory town near Pittsburgh. Eight-year-old Karen's parents are lifelong workers at the Anchor Glass plant, where one Saturday, an employee goes on a shooting spree, killing four supervisors, then himself. This event splits the young girl's life open, and like her mother, she begins to seek comfort in obsessive rituals and

superstitions. This beautifully evocative memoir chronicles the next fourteen years, as Karen moves through girlhood, adolescence, and young adulthood. It illuminates small-town factory life; explores a complicated mother-daughter bond; thoughtfully unfolds a smart, but insecure girl's coming of age; achingly recounts her attempts to use sex to fit in; and ultimately uncovers the buried secret from her childhood—a medical file with an unbearable report. The Girl Factory deftly travels the intersections of memory and origin. Karen's body remembers details her mind has tried to control. As the young woman mines her interior landscape for answers, certain questions persist. Where does memory live—in the body or the mind? And can you rewrite the story of your past?

In Order to Live Yeonmi Park,Maryanne Vollers,2015-09-29 “I am most grateful for two things: that I was born in North Korea, and that I escaped from North Korea.” - Yeonmi Park One of the most harrowing stories I have ever heard - and one of the most inspiring. - The Bookseller “Park's remarkable and inspiring story shines a light on a country whose inhabitants live in misery beyond comprehension. Park's important memoir showcases the strength of the human spirit and one young woman's incredible

determination to never be hungry again.” —Publishers Weekly In *In Order to Live*, Yeonmi Park shines a light not just into the darkest corners of life in North Korea, describing the deprivation and deception she endured and which millions of North Korean people continue to endure to this day, but also onto her own most painful and difficult memories. She tells with bravery and dignity for the first time the story of how she and her mother were betrayed and sold into sexual slavery in China and forced to suffer terrible psychological and physical hardship before they finally made their way to Seoul, South Korea—and to freedom. Park confronts her past with a startling resilience. In spite of everything, she has never stopped being proud of where she is from, and never stopped striving for a better life. Indeed, today she is a human rights activist working determinedly to bring attention to the oppression taking place in her home country. Park’s testimony is heartbreaking and unimaginable, but never without hope. This is the human spirit at its most indomitable.

Cy in Chains David L. Dudley, 2013 In the post-Civil War South, a 17-year-old African American boy, accused of a crime, is living in a labor camp where brutality, near starvation, humiliation and rape are commonplace.

The Duck Hunter Ed Beckley,2001 In 1939, John Steinbeck began his research for his novel *the Grapes of Wrath* at a farm labor camp outside Gridley, California. Fast forward to 1952. A beautiful young girl from this camp is found brutally murdered in a canal near Gridley. She is the daughter of the Coffey family who work the crops during the harvest season. They are unable to afford a decent burial for their daughter. The community shows little emotion or outrage over the death of Clara Coffey, except to place probable blame for her death on an African American man who had recently moved to the area with his family. Only a young Deputy Sheriff named Marlin Webster takes her murder seriously enough to pursue the few clues available as to her killer. Clara becomes almost an obsession with Webster that results in conflict with his love interest, Roxanne Travers, Sheriff Sam Cross and others who stand in his way to finding her murderer and bringing some dignity to her life. The story focuses on Webster's investigation and the people and events he encounters, but also on a people and community where long held beliefs and prejudices that come into conflict with changing times die hard.

When Doctors Don't Listen Dr. Leana Wen, Dr. Joshua Kosowsky, 2013-01-15 Discusses how to avoid harmful medical mistakes, offering advice on such topics as working with a busy doctor, communicating the full story of an illness, evaluating test risks, and obtaining a working diagnosis.

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’

experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to

enrich that most rewarding of relationships.

And will their relationship be able to take off once you factor in Kitanna, his argumentative and unbalanced baby mama? Myeisha Jordan and DeAndre' Charles want each other in the worse way, but neither of them want to be the first to admit it. When Myeisha unexpectedly finds herself attracted to a new guy on the scene, she begins to question her feelings for DeAndre'.
