PAYMENTS AND BANKING IN AUSTRALIA Nikesh Lalchandani,2020-09-11 This book will: · Challenge the assumption that banks will continue to control payments and the flow of money. · Point to the chinks in their armour and where the opportunities lie. · Examine the technologies and approaches that have begun to disrupt and transform the current model. · Arm you with the knowledge you need to make sense of and navigate this critical industry, as it transforms in innovative and valuable ways. Told as a story, this is an inspiring and captivating treatise on how Australia’s systems work and where the future lies.

BASIC KNOWLEDGE ON FINTECH TABF Editorial Board,Hank C.C Huang,2020-04-01 As the field of FinTech continues its progress, financial institutions must not only enhance their digitization, but also make serious efforts to understand the resulting new opportunities it creates. In line with these developments, TABF has published the book Basic Knowledge on FinTech, which was designed by us as a reference for the FinTech Knowledge Test. Co-authored by TABF staff and other experts, it features balanced and credible analysis, avoiding trivia and overly complex concepts while emphasizing readability. The content structure is based on the World Economic Forum (WEF)’s roadmap for FinTech development, adding in TABF’s research findings plus other domestic and international trends and practices. Not only is Basic Knowledge on FinTech suitable for financial proficiency testing, but it can also be used as a textbook in university courses, supplementing theoretical knowledge with up-to-date practical knowledge in this rapidly changing field.

UNDERSTANDING UNJUST ENRICHMENT Jason W. Neyers,Mitchell McInnes,Stephen G.A. Pitel,2004-04-20 This book is a collection of articles based on Understanding Unjust Enrichment, a symposium held at the University of Western Ontario in January 2003. The articles, written from the perspective of English, Australian, Canadian, German and Jewish law, deal with numerous theoretical and practical issues that surround restitution and unjust enrichment. The articles outline recent developments across the Commonwealth, explain the unjust enrichment principle and its component parts, and address discrete issues such as tracing, choice of law, disgorgement damages for breach of contract, and the use of unjust enrichment in the cohabitation context. The contributors are Kit Barker, Peter Benson, Jeffrey Berryman, Michael Bryan, Andrew Burrows, Robert Chambers, Gerald Fridman, Peter Jaffey, Dennis Klimchuk, Thomas Krebs, John McCamus, Mitchell McInnes, Stephen Pitel, Stephen Waddams and Ernest Weinrib.

THE AUSTRALIAN BANKER , 1999

THE LAW OF SECURITY AND TITLE-BASED FINANCING Hugh Beale,Michael Bridge,Louise Gullifer,Eva Lomnicka,2012-03-22 Personal property security is an important subject in commercial practice, as it is the key to much of the law of banking and sale. This second edition has been fully updated and expanded to cover all important issues and changes within this highly complex area of law. It explains traditional methods of securing debts (such as mortgages, charges, and pledges) on property other than land, describing how these are created, how they must be registered (or otherwise ‘perfected’) if they are to be valid, the rights and duties of the parties, and how the security is enforced if the debt is not paid. The new edition includes an expanded section on priorities in which it explains how ‘priority’ disputes between competing interests over the same property are resolved. In addition the book covers the law governing other transactions that perform a similar economic function (such as finance leases, retention of title clauses, and sales of a company’s book debts). These are not currently treated by the law as security and are therefore subject to different rules on perfection, priority, and enforcement. There is much expansion of the discussion relating to enforcement including the issue of ‘right of use’ following Lehman, more analysis on administration and all forms of non-possessory security and quasi-security, and a new chapter on enforcement of security addressing the right of appropriation under FC/FCAR and the Cukurova case. The conflict of laws section includes developments under the Rome I Regulation affecting assignment issues, the UNIDROIT Convention 2009 in relation to tiered holdings and the Cape Town Convention’s extensions made to coverage of asset-backed security over equipment. It also addresses the changes brought about by the abolition of Slavenburg registration. This edition contains relevant points from the Banking Act 2009 concerning its impact on security, such as the power to protect certain interests on a transfer of property, and also considers amendments regarding liquidators’ expenses under the Insolvency Rules. The authors additionally deal with the role of step-in rights and why they are part of the statutory definition of project finance in the Enterprise Act. Previously published as The Law of Personal Property Security, this new edition brings together all of the law on this complex area, providing guidance in the context of commercial practice, especially with increased coverage of conflict of laws, priority, insolvency, and enforcement.
