Henry M. Miller, Travis G. Parno

St. Marys Dennis McGeehan,2006-06-14 Located in Elk County atop the Allegheny Mountains, Sancta Marienstadt (St. Marys) was founded in 1842 on the feast day of Mary. Establishing St. Marys as a refuge to preserve their German Catholic roots, the hardy pioneers of the area eventually embraced a multiethnic, progressive cityscape. Early settlers farmed and developed natural resources. When the extractive industries of timber, coal, and clay were exhausted, the town could have withered away. Instead, the industrious people turned to the new technologies of carbon and powdered metal. St. Marys flourished, becoming a leader in the world in these fields, and was labeled the "Carbon City." St. Marys recounts the success of this experiment through photographs from the St. Marys and Benzinger Township Historical Society, illustrating the many paths taken by the people of St. Marys to realize the faith of their founders.

St. Mary's County Linda Davis Reno,2004 St. Mary's County, the Mother County of Maryland, was founded in 1634 by a hand full of colonists who journeyed across the stormy Atlantic, landing at present-day St. Clement's Island. Although the organizers of the Maryland venture were Catholic, the majority of the settlers were Protestants, many of them arriving as indentured servants. Settlers, regardless of religious affiliation, aided in the establishment of the colony and participated fully in the new government. In 1649, Maryland officially became the birthplace of religious freedom in the New World when the Religious Toleration Act was passed at St. Mary's City. From the colonization of the county, to life throughout the 20th century, this volume explores the people, places, and events that have made St. Mary's County such a unique and integral part of the history of Maryland and this nation.

Catholic Families of Southern Maryland ,1985 St. Mary's residents played a key role in the development of the Catholic Church throughout the whole of America, providing the spearhead of the westward expansion of Catholicism. In 1785, for example, the first of many Catholic families from St. Mary's crossed the mountains to find land in Kentucky, while a few years later, driven by economic necessity, others migrated to Georgia, Missouri, Louisiana, and Texas. Mr. O'Rourke has collected many of the earliest surviving records of the Catholic families of St. Mary's County, Maryland. The most significant portion of the work contains the marriages and baptisms from the Jesuit parishes of St. Francis Xavier and St. Inigoes, which, in the case of baptisms (1767-1794), give the names of children, parents, and godparents, and the date of baptism; and in the case of marriages (1767-1784), the names of the married partners and the date of marriage.

St. Mary's County Karen L. Grubber,2015-06-01 For nearly four centuries, St. Mary's County has been called the

land of pleasant living. The county's fertile fields and pristine waters invite visitors and natives alike to revel, relax, and renew. As the Mother County of Maryland, St. Mary's has a rich written history dating from 1634, when George and Leonard Calvert established the first American settlement founded on the principle of religious tolerance. After surviving British raids during the War of 1812 and divided loyalties in the Civil War, the county leapt into the modern era when the US Navy established Naval Air Station Patuxent River, the Navy's premier flight test center and test pilot school. Today, millions of Americans trace their roots to Southern Maryland and are welcomed home as Sons and Daughters of Old St. Mary's.

St. Mary Parish Juliana M. Senette, 2012 Along the bayous of south Louisiana, with its majestic oak trees draped in Spanish moss, open prairies teeming with wildlife, and lush primeval forest, the Chitimacha lived long before the first white settlers arrived in the Attakapas District around 1746. The newcomers would travel by oxcart and boat along waterways lined in flowering magnolias, pecan trees, and grapevines to establish new homesteads. In April 1811, a territorial act that divided Attakapas County created St. Mary Parish. Sugarcane plantations with idyllic names such as Idlewild and Shady Side were established, and timber, trapping, fishing, and agriculture prospered. Later, oil and gas with its many support industries became part of the rich heritage of south Louisiana. The first settlers endured many hardships: floods, storms, outbreaks of yellow fever, and the challenges of the Civil War. St. Mary Parish has seen its share of changes over the centuries, but the tenacity, resourcefulness, and pride of the people remain as constant and endless as the slowly flowing waters of the bayous to the Gulf of Mexico.

St. Mary's Hall and Doane Academy Jack H. Newman, 2012 On May 1, 1837, Episcopal bishop George Washington Doane welcomed 52 young women from eight states to his new school, St. Mary's Hall, in Burlington, New Jersey. Bishop Doane's radical innovation of giving young women the same mental training as young men motivated people from far and wide to send their daughters to this new school. Doane's visionary efforts soon turned many heads and changed many hearts, and the school grew accordingly. Today, as a coeducational school known as Doane Academy, the institution carries forward Bishop Doane's passion to push the boundaries of education. Located along the banks of the Delaware River, Doane Academy builds and instills character and a sense of duty into its students and prepares and guides them as they move Right Onward to change the world.

Unearthing St. Mary's City Henry M. Miller, Travis G. Parno, 2021-05-04 This volume summarizes the remarkably diverse archaeological discoveries made during the past half century of investigations at the site of St. Mary's City, the first capital of Maryland and one of the earliest European settlements in America. Founded in 1634, the city had disappeared by 1750, yet the archaeology documented in Unearthing St. Mary's City reveals its untold

history. Contributors to this volume review new research approaches and methods developed recently at Historic St. Mary's City. They study the archaeology, architecture, and people of the lively seventeenth-century colonial hub. They also explore the landscapes of agriculture, enslavement, and remembrance that developed at the site in the centuries after the capital's relocation to Annapolis. In their chapters, contributors delve into subjects such as soil analysis, ceramics, diet, forts, burials, plantations, state houses, tenants, tobacco pipes, gaming, and the education of women. The lands along the Chesapeake Bay have witnessed a vast range of human experiences, and this book highlights the lives of peoples of European, Native American, and African origins who lived on this site over a span of four centuries. Their stories illuminate the multilayered nature of this important place and the broader Chesapeake region and serve as a testament to the potential and power of historical archaeology.
