The UEFA European Football Championships Jan Andre Lee Ludvigsen, Renan Petersen-Wagner, 2022-12-12 This book explores social and political issues and trends emerging around the UEFA European Football Championships. It presents a contemporary sociology of the European Championships which, despite its significance as a mega-event, has been largely overshadowed by the Olympics and the FIFA World Cup in existing literature. At a time when both sport mega-events and Europe are undergoing dramatic transformations, this book explores a range of case studies and important topics such as changing consumption patterns, new types of sport media, social media, environmental policies and emergency politics, public opposition and co-hosting. It also situates the European Championships within wider European projects and discourses of European identities, integration and enlargement. Drawing on data from recent and historical European Championships, and looking ahead to the next tournament in Germany in 2024, this book serves to open up new debates within the sociology of sport and the study of mega-events. It is a timely and ground-breaking text which will resonate with students, academics and readers who are interested in football, the sociology of sport, megaevents, digital sociology, European politics and culture or sports business.

American English, Italian Chocolate Rick Bailey, 2017-07 American English, Italian Chocolate is a memoir in essays beginning in the American Midwest and ending in north central Italy. In sharply rendered vignettes, Rick Bailey reflects on donuts and ducks, horses and car crashes, outhouses and EKGs. He travels all night from Michigan to New Jersey to attend the funeral of a college friend. After a vertiginous climb, he staggers in clogs across the top of the Leaning Tower of Pisa. In a trattoria in the hills above the Adriatic, he ruminates on the history and glories of beans, from Pythagoras to Thoreau, from the Saginaw valley to the Province of Urbino. Bailey is a bumbling extra in a college production of Richard III. He is a college professor losing touch with a female student whose life is threatened by her husband. He is a father tasting samples of his daughter's wedding cake. He is a son witnessing his aging parents' decline. He is the husband of an Italian immigrant who takes him places he never imagined visiting, let alone making his own. At times humorous, at times bittersweet, Bailey's ultimate subject is growing and knowing, finding the surprise and the sublime in the ordinary detail of daily life.

The Eighth Wonder of the World Robert C. Trumbour, Kenneth Womack, 2018-11-01 2017 Seymour Medal from the Society for American Baseball Research 2016 Pete Delohery Award for Best Sports Book from Shelf Unbound When it opened in 1965, the Houston Astrodome, nicknamed the Eighth Wonder of the World, captured the attention of an entire nation, bringing pride to the city and enhancing its reputation nationwide. It was a Texas-sized vision of the future, an unthinkable feat of engineering with premium luxury suites, theater-style seating, and the first animated scoreboard. Yet there were memorable problems such as outfielders' inability to see fly balls and failed attempts to grow natural grass—which ultimately led to the development of AstroTurf. The Astrodome nonetheless changed the way people viewed sports, putting casual fans at the forefront of a user-experience approach that soon became the standard in all American sports. The Eighth Wonder of the World tears back the facade and details the Astrodome's role in transforming Houston as a city while also chronicling the building's storied fifty years in existence and the ongoing debate about its preservation.

The Playing Grounds of College Football Mark Pollak, 2018-11-16 College football teams today play for tens of thousands of fans in palatial stadiums that rival those of pro teams. But most started out in humbler venues, from baseball parks to fairgrounds to cow pastures. This comprehensive guide traces the long and diverse history of playing grounds for more than 1000 varsity football schools, including bowl-eligible teams, as well as those in other divisions (FCS, D2, D3, NAIA).

The Way of the Champion Paul Rabil, 2024-05-07 "Accessible and practical, Rabil's book will appeal to anyone seeking not only to understand what it takes to succeed, but also to understand the courage, discipline, and grace it takes to become a champion. . . Wise, inspired reading." — Kirkus From lacrosse legend Paul Rabil, lessons on becoming a true champion— in sports, business, and life Long before Paul Rabil had become lacrosse's most acclaimed player, the sport's first million-dollar man, and the cofounder of the Premier Lacrosse League, he always strove for greatness. The problem was he lacked a manual for how to achieve it— so, he set out to create one himself. He talked to Bill Belichick about how to prepare, Steph Curry about how to practice, Sue Bird about how to develop resilience, and Mark Cuban about how to build a career with longevity. From the wisdom of these and other legends, and through his own—often painful—trial and error, he forged himself into a true champion. And in doing so, he wrote the manual he always wanted. *The Way of The Champion* is the synthesis of everything Rabil learned on his path to becoming one of the greatest lacrosse players of all time. But this is not merely a sports book. It is a guide to embodying a champion's mindset—in sports, in business, and in relationships. According to Paul Rabil, "No one is born to be a champion. It can only be earned— through equal parts philosophy, execution, and sheer determination. I've won and lost championships, business deals, and relationships. I've learned that our best moments come after we've faced our most devastating defeats— when we choose to rise with unwavering resolve. That's the way of the champion.
