

# Star Trek Peril Of Planet

Gene Roddenberry

**Captain's Peril** William Shatner, 2012-09-25 The Dominion War is over. The Federation is at peace. What better time for two legendary starship captains to set aside the demands of duty and simply take some well-deserved time off. But when James T. Kirk and Jean-Luc Picard arrive on Bajor to dive among the ruins of an ancient sunken city, they find themselves in far from relaxing circumstances. The small group of scientists the captains have joined suddenly discover their equipment sabotaged -- isolating them from Deep Space Nine and from any hope of rescue -- as a murderer stalks them, one by one. Cut off from the people and the technology on which they have always depended, Kirk and Picard must rely more than ever on their own skills and resources -- as well as on their growing friendship -- to solve the mysterious killings and, at the same time, save one of Bajor's greatest living treasures. With time running out and Picard missing after a diving disaster, Kirk must search his memories of the past for the solution, plunging him into a harrowing personal journey that reveals the beginning of his path from young Starfleet officer to legendary galactic hero. From the shores of Bajor's Inland Sea to the welcoming arms of a seductive and deadly alien commander

intent on making Kirk her own, *The Captain's Peril* is Captain Kirk's most personal, and his most extreme, adventure yet.

**Star Trek: How Much for Just the Planet? ,**

*Captain's Peril* William Shatner, 2004 The Dominion War is over. The Federation is at peace. What better time for two legendary starship captains to set aside the demands of duty and simply take some well-deserved time off. But when James T. Kirk and Jean-Luc Picard arrive on Bajor to dive among the ruins of an ancient sunken city, they find themselves in far from relaxing circumstances. The small group of scientists the captains have joined suddenly discover their equipment sabotaged -- isolating them from Deep Space Nine and from any hope of rescue -- as a murderer stalks them, one by one. Cut off from the people and the technology on which they have always depended, Kirk and Picard must rely more than ever on their own skills and resources -- as well as on their growing friendship -- to solve the mysterious killings and, at the same time, save one of Bajor's greatest living treasures. With time running out and Picard missing after a diving disaster, Kirk must search his memories of the past for the solution, plunging him into a harrowing personal journey that reveals the beginning of his path from young Starfleet officer to

legendary galactic hero. From the shores of Bajor's Inland Sea to the welcoming arms of a seductive and deadly alien commander intent on making Kirk her own, *The Captain's Peril* is Captain Kirk's most personal, and his most extreme, adventure yet.

**Star Trek** Gene Roddenberry, 2004 The original full-colour Star Trek comics reprinted in paperback at last! Star Trek comics debuted in 1967, the same year as the original television series and outlasted the TV version by ten years. This volume collects the first eight issues and features the original Enterprise crew in adventures to be found nowhere else.

*Star Trek Captains Peril* William Shatner, 2001-01-01 From the New York Times bestselling author and pop culture icon comes an action-packed Captain Kirk novel by the man who knew him best.

Prime Directive Judith Reeves-Stevens, 2002-10-02 Following in the bestselling tradition of *Spock's World* and *The Lost Years*, this is a white-knuckled Star Trek tale of mystery and wonder that spans the galaxy in a vivid race against time. Starfleet's most sacred commandment has been violated. Its most honored captain is in disgrace, its most celebrated starship in pieces, and the crew of that ship scattered among the thousand worlds of the Federation. Thus begins the epic tale *Prime Directive*. Journey with

Spock, McCoy, and the rest of the former crew of the Starship Enterprise to the planet where their careers ended. A world once teeming with life that now lies ruined, its cities turned to ashes, its surface devastated by a radioactive firestorm—all because of their actions. There, they must find out how and why this tragedy occurred and discover what has become of their captain.

Star Trek, the Worlds of the Federation ,1989 Based on the Star Trek adventures (including Star Trek: The Next Generation) this book uses hundreds of star charts, line drawings and color illustrations to outline the history of the worlds visited by the Starship Enterprise.

*The Star Trek: Enterprise: The Expanse* J.M.

Dillard,2003-10-01 With the mindless destruction of over seven million people, Starfleet and the crew of the Enterprise must face the fact that someone is willing to destroy the Earth and all of her people. High above the planet Earth, an alien probe appears and in an unspeakably horrific instant, releases a deadly blast that strafes the planet's surface, leaving a miles-wide, smoldering crater of destruction in its wake. Millions die in Florida, Cuba, and Venezuela, their lives blotted out in a blazing millisecond. Just as swiftly, the probe implodes and crashes on the planet surface, but

the remnants provide no clue as to its origin. Who are the attackers, and what provoked them? Aboard the Starship Enterprise™, Captain Jonathan Archer learns of the destruction. His ship is called home; it is uncertain whether its mission of space exploration will continue. But before Enterprise reaches Earth, Archer is abruptly kidnapped from the bridge by the time-traveling enemies he has encountered before. He finds himself aboard a Suliban vessel, face-to-face with his old nemesis, Silik, a high-ranking individual in a battle known only as the Temporal Cold War. Silik leads him to his master, a mysterious humanoid from the far future. The humanoid claims that the attack on Earth was just a test; and the next attack will destroy Archer's home planet...unless he and the Enterprise crew stop it. To do so, they must enter a region of space called The Expanse - an area so dangerous that no ship has ever emerged from it unscathed. Vulcan crews were driven to bloodthirsty madness, Klingon crews were anatomically inverted, their internal organs exposed outside their bodies...while they still lived. Many vessels were lost, never to be heard from again. Archer faces the greatest crisis of his career: Should he believe Silik's time-traveling master, and expose his ship and crew to the perils of The Expanse, in hopes of saving Earth from

destruction? And can he convince Starfleet Command and the Vulcan High Council to let Enterprise go to face her biggest challenge?

To Lose the Earth Kirsten Beyer, 2020-10-13 The long-awaited follow-up to *Voyager: Architects of Infinity* from the New York Times bestselling author and cocreator of *Star Trek: Picard*! As the crew of the Full Circle fleet works to determine the fate of their lost ship, the Galen, a struggle for survival begins at the far edge of the galaxy. New revelations about Species 001, the race that built the biodomes that first drew the fleet to investigate planet DK-1116, force Admiral Kathryn Janeway to risk everything to learn the truth.

*Star Trek Gold Key Archives, Vol. 5* Arnold Drake, John David Warner, George Kashdan, Allan Moniz, 2016-06-22 Boldly goingÉ where it all started! Presenting the first comic book adventures of the U.S.S. Enterprise and her crew! Fully remastered with new colors, volume 5 collects issues #25Ð28 and #30Ð31 (#29 was a reprint of #1), including stories Dwarf Planet, The Perfect Dream, Ice Journey, The Mimicking Menace, Death of a Star, and The Final Truth.

**Star Trek: The Next Generation: Debtor's Planet W.R.** Thompson, 2000-09-22 When a Vulcan space probe reports that

the Ferengi are advancing the people of the planet Megara from a primitive agricultural state to a sophisticated technological society, Captain Jean-Luc Picard and the Starship Enterprise™ are ordered to transport an unlikely passenger to the system, a ruthless twentieth-century businessman who is now a Federation ambassador. The Ferengi have been changing Megaran culture, turning a hard working and honorable people into vicious xenophobic killers. But the Ferengi are only hired hands. They have hidden masters, with plans to use the Magaran people as a powerful weapon against the Federation. Now Picard must find a way to use the talents of this new ambassador to free the Megarans. But the ambassador is hiding a deadly secret of his own -- a secret that could unleash an unstoppable destructive force on the Federation.

*Star Trek: Ring Around the Sky* Allyn Gibson, 2004-03-29

STARFLEET CORPS OF ENGINEERS The Tellarite colony world of Kharzh'ulla is a planet of many wonders, but its greatest feature is the Ring, a massive orbital construction, serviced by a series of space elevators. During the Dominion War, the elevators were damaged by a Jem'Hadar attack. Now, a year and a half later, the elevators have weakened to the point that the entire Ring may

collapse, endangering the planet's population -- unless the crew of the U.S.S. da Vinci can save them. But Kharzh'ulla also contains several deadly secrets from Lieutenant Commander Tev's youth. In order for the S.C.E. to save the planet, Tev must face more than one demon from his past...

**Star Trek: Destiny #2: Mere Mortals** David Mack, 2008-10-28

The second novel in an epic crossover trilogy uniting characters from every corner of the Star Trek universe, revealing the shocking origin and final fate of the Federation's most dangerous enemy—the Borg. On Earth, Federation President Nanietta Bacco gathers allies and adversaries to form a desperate last line of defense against an impending Borg invasion. In deep space, Captain Jean-Luc Picard and Captain Ezri Dax join together to cut off the Collective's route to the Alpha Quadrant. Half a galaxy away, Captain William Riker and the crew of the Starship Titan have made contact with the reclusive Caeliar—survivors of a stellar cataclysm that, two hundred years ago, drove fissures through the structure of space and time, creating a loop of inevitability and consigning another captain and crew to a purgatory from which they could never escape. Now the supremely advanced Caeliar will brook no further intrusion upon their isolation, or against the sanctity of their Great Work. For the

small, finite lives of mere mortals carry little weight in the calculations of gods. But even gods may come to understand that they underestimate humans at their peril.

*Gemworld Book One* John Vornholt, 2012-10-16 Lieutenant Melora Pazlar, first seen in the Deep Space Nine episode that bears her name (Melora), is the only Elaysian in Starfleet. Stationed on board the USS Enterprise, six years after her short-lived romance with Dr Bashir, she receives a desperate call for help from her crystalline, multi-species homeworld. When subspace contact fails, Captain Picard sends the Enterprise to investigate, only to find the ship nearly torn apart by a dimensional rift and stranded, badly damaged, below the shields that protect the carefully constructed planet. With both escape and rescue impossible, Picard and crew set out to discover the cause of the rift and the strange, cancerous growth in the crystal choking the planet itself. A Federation ship attempts to reach the Enterprise but is destroyed, and when thoron radiation threatens to kill the crew, all signs on the planet point to sabotage...

*Star Trek: A Time To Harvest* Kevin Dilmore, 2012-10-16 Centuries ago a hardy band of survivors, fleeing a planetary catastrophe, took refuge in the inhospitable asteroid belt. Struggling

for years to make what had once been short-term mining settlements into suitable colonies for permanent civilization, eventually they succeeded all too well, and their thriving population is approaching critical mass. Now they must make a choice: to go on as they are on the crowded but functional asteroids or to give up all they have worked for in a desperate plan to rebuild their dead home planet. Their dilemma has brought them to the brink of civil war -- and into this volatile standoff comes the Enterprise, assigned a seemingly meaningless mission to chart this sector of space. Faced with an advanced society on the verge of self-destruction, it is up to the Enterprise, still carrying the weight of her demotion and disgrace, to find a way to lead the survivors to peace.

**Seekers: Long Shot** David Mack, 2015-07-28 The third novel in the acclaimed Original Series-era saga *Seekers*, by New York Times bestselling author David Mack! **SCIENCE GONE MAD...** Bizarre sensor readings lead the Starfleet scout ship *Sagittarius* to an alien world where efforts to harness a dangerous and unstable technology have thrown the laws of probability out of balance. Now, events that might have occurred only one time in a trillion are happening constantly—to deadly and dazzling effect. A

PLANET IN PERIL...As disasters and miracles multiply globally at an ever-increasing rate, it's up to Captain Clark Terrell and his crew to shut down the experiment-gone-wrong before its storm of chaos causes the planet's destruction. But the odds against their success—and their survival—might be too great to overcome. <sup>TM</sup>, ®, & © 2015 CBS Studios, Inc. STAR TREK and related marks are trademarks of CBS Studios, Inc. ### **The Politics and Perils of Space Exploration Linda**

Dawson, 2020-11-27 This book examines the U.S. space program's triumphs and failures in order to assess what constitutes a successful space policy. Using NASA and the space industry's complex history as a guide, it draws global lessons about space missions and the trends we can expect from different nations in the next decade and beyond. Space exploration has become increasingly dependent on cooperation between countries as well as the involvement of private enterprise. This book thus addresses issues such as: Given their tenuous history, can rival countries work together? Can private enterprise fill NASA's shoes and provide the same expertise and safety standards? Written by a former NASA Aerodynamics Officer at Houston Mission Control working on the Space Shuttle program, the second edition of this

book provides updated information on U.S. space policy, including the new strategy to return to the Moon prior to traveling to Mars. Additionally, it takes a look at the formation of the Space Force as a military unit, as well as the latest developments in private industry. Overall, it is a thought-provoking resource for both space industry professionals and space enthusiasts.

Star Trek Star Charts ,2002 For those who ever wondered just where the Klingon Homeworld is or how close it is to Earth, Star Charts provides fans with this information and more--including the routes of each of the ships featured in all the Star Trek series. Full-color photos throughout. 4 gatefolds.

### **Star Trek: Voyager: Captain Proton: Defender of the Earth**

Dean Wesley Smith,1999-11-02 Return with us now to those thrilling days of yesteryear when Real Men with ray guns and beautiful women in beguiling outfits battled hideous monsters from outer space! Return with us to the days when Captain Proton ruled the skyways! When the queen of an evil space empire kidnaps Captain Proton's faithful secretary Constance Goodheart, it's only the first step in her diabolical plan to conquer the Incorporated Planets. It soon becomes clear that there is more to her plot than meets the eye when, on the very edge of death, Captain Proton is

saved by a power Not Of This Universe. Caught in an eons-old fight between two alien races, who can Captain Proton trust? No one -- not even his sidekick, ace reporter Buster Kincaid. Can Captain Proton save the Galaxy from the forces of evil and save Constance Goodheart from the Giant Demon Squid of Greyhawk II? Extra! Dr. Chaotica plots the Death of the Patrol, Constance Goodheart must find Captain Proton before she shrinks to a size too small to be seen, and Buster Kincaid faces the Swamp of Doom!

**Star Trek: Ishtar Rising** Michael A. Martin, Andy

Mangels, 2003-08-20 Project Ishtar -- the bold endeavor to terraform Venus, the most volatile planet in the solar system -- has reached a critical juncture. The project's first phase has had unexpected consequences that could tear Venus apart -- and mean the deaths of dozens of project workers and the S.C.E.'s computer expert, the un-bonded Bynar now called Soloman. Now, with time running out, Soloman must move past the prejudice of his fellow Bynars -- who view his single status with disdain -- and find a solution before disaster strikes!

This is likewise one of the factors by obtaining the soft documents of this **Star Trek Peril Of Planet** by online. You might not require more get older to spend to go to the ebook commencement as competently as search for them.
