Diane Carey

Star Trek: Next Generation - Ghosts Zander Cannon, 2008 Captain Picard and the crew of the Enterprise respond to a distress call and find a terribly wounded scientist aboard a marooned ship. While evaluating the planet below (and its two warring nations) for possible Federation membership, Picard discovers to his horror that the survivor of the disaster is foreseeing his death. Written by Eisner-nominated writer Zander Cannon (Top Ten).

Ghost-Walker Barbara Hambly, 1991-01 When Captain Kirk and the Enterprise arrive to aid the Midgwins, they find themselves caught up in a struggle for survival. Star Trek #53.

Ghost of a Chance Mark Garland, 2012-06-05 Badly damaged in a close encounter with a dwarf star, the VoyagerTM discovers a planet being torn apart by tremendous volcanic stresses. The planet's primitive inhabitants will surely perish unless the Voyager intervenes -- but the Prime Directive forbids them to act. And then the dilemma is increased by the arrival of another starship, a Televek vessel, whose crew offer to help both the Voyager and the people of the crumbling planet. But Janeway senses something amiss with their saviors, and she's haunted by ghostly visions warning her of a threat that make her loathe to accept anything from the Televek, even though they may be her only hope.

Ghost Walker Barbara Hambly, 1991 Captain Kirk and the Enterprise crew come to the aid of the Midgwins, a peaceful race facing a global famine due to the depletion of their natural resources, but the struggle for their survival pits Kirk and his crew in a battle against an unknown and deadly entity.

The Hunt for Vulcan Thomas Levenson, 2016-08-02

The captivating, all-but-forgotten story of Isaac Newton, Albert Einstein, and the search for a planet that never existed. For more than fifty years, the world's top scientists searched for the "missing" planet Vulcan, whose existence was mandated by Isaac Newton's theories of gravity. Countless hours were spent on the hunt for the elusive orb, and some of the era's most skilled astronomers even claimed to have found it. There was just one problem: It was never there. In *The Hunt for Vulcan*, Thomas Levenson follows the visionary scientists who inhabit the story of the phantom planet, starting with Isaac Newton, who in 1687 provided an explanation for all matter in motion throughout the universe, leading to Urbain-Jean-Joseph Le Verrier, who almost two centuries later built on Newton's theories and discovered Neptune, becoming the most famous scientist in the world. Le Verrier attempted to surpass that triumph by predicting the existence of yet another planet in our solar system, Vulcan. It took Albert Einstein to discern that the mystery of the missing planet was a problem not of measurements or math but of Newton's theory of gravity itself. Einstein's general theory of relativity proved that Vulcan did not and could not exist, and that the search for it had merely been a quirk of operating under the wrong set of assumptions about the universe. Levenson tells the previously untold tale of how the "discovery" of Vulcan in the nineteenth century set the stage for Einstein's monumental breakthrough, the greatest individual intellectual achievement of the twentieth century. A dramatic human story of an epic quest, *The Hunt for Vulcan* offers insight into how science really advances (as opposed to the way we're taught about it in school) and how the best work of the greatest scientists reveals an artist's sensibility. Opening a new window onto our world, Levenson illuminates some of our

most iconic ideas as he recounts one of the strangest episodes in the history of science. Praise for *The Hunt for Vulcan* "Delightful . . . a charming tale about an all-but-forgotten episode in science history."—*The Wall Street Journal* "Engaging . . . At heart, this is a story about how science advances, one insight at a time. But the immediacy, almost romance, of Levenson's writing makes it almost novelistic."—*The Washington Post* "A well-structured, fast-paced example of exemplary science writing."—*Kirkus Reviews* (starred review)

Ghost-Walker Barbara Hambly, 2000-09-22 Elcidar Beta Three -- a tranquil, undisturbed planet strategically located between the Federation and the Klingon Empire. Home to the Midgwins, a race of people who throughout all time have lived in peace with their planet, and themselves. But now, times are changing. Unwilling to embrace any form of technology, the Midgwins have exhausted their world's natural resources, and stand on the brink of global famine. When Captain Kirk and the Enterprise arrive to aid the Midgwins, they find themselves caught up in that race's struggle for survival...a struggle whose climactic battle pits them against a creature of darkness and shadow -- an entity who roams the Enterprise corridors as if it owned them -- an enemy who will not hesitate to kill to achieve its ultimate goal...

Ghost Surveillance Craig A Price, Jr, 2021-02-15 A radio transmission deep in space... a surveillance mission is ordered ... Daniel finally has his chance to prove himself with his first official planetary exploration mission. It isn't going to be Daniel's first time to a new planet, but it will be his first time leading an expedition from the beginning. In the past, he led missions to asteroids, and one planetary

exploration since there were no nearby captains. But this time, he is chosen to go on his first official planet exploratory mission. He is ready to prove himself a capable ship captain. What could possibly go wrong with a simple surveillance mission? Daniel is an Unwanted, surrounded by a galaxy of clones. He desires nothing more than to prove himself, but no one takes him seriously. He uses humor as a defense mechanism and stumbles his entire way through being a captain. But this is his first serious mission. He needs to make sure it succeeds at all cost. If you love Star Trek and The Orville, Science Fiction with snarky characters and humor-filled plot lines with a little bit of hard science, then you'll love Ghost Surveillance, because everyone is an explorer at heart! Star Trek, the Next Generation Zander Cannon, 2009

Ghost Ship Diane Carey, 1991-06 During the ancient times of 20th-century Earth, a mysterious creature destroyed a Russian trawler--and just as mysteriously disappeared. Four hundred years later, it discovers the U.S.S. Enterprise. Somehow, Captain Picard must find a way to communicate with it before the ship becomes an interstellar ghost ship.

The Star Trek: Enterprise: The Expanse J.M.

Dillard, 2003-10-01 With the mindless destruction of over seven million people, Starfleet and the crew of the Enterprise must face the fact that someone is willing to destroy the Earth and all of her people. High above the planet Earth, an alien probe appears and in an unspeakably horrific instant, releases a deadly blast that strafes the planet's surface, leaving a miles-wide, smoldering crater of destruction in its wake. Millions die in Florida, Cuba, and Venezuela, their lives blotted out in a blazing millisecond. Just as swiftly, the probe implodes and crashes on the planet surface, but the remnants provide no clue as to its

origin. Who are the attackers, and what provoked them? Aboard the Starship Enterprise™, Captain Jonathan Archer learns of the destruction. His ship is called home; it is uncertain whether its mission of space exploration will continue. But before Enterprise reaches Earth, Archer is abruptly kidnapped from the bridge by the time-traveling enemies he has encountered before. He finds himself aboard a Suliban vessel, face-to-face with his old nemesis, Silik, a high-ranking individual in a battle known only as the Temporal Cold War. Silik leads him to his master, a mysterious humanoid from the far future. The humanoid claims that the attack on Earth was just a test; and the next attack will destroy Archer's home planet...unless he and the Enterprise crew stop it. To do so, they must enter a region of space called The Expanse - an area so dangerous that no ship has ever emerged from it unscathed. Vulcan crews were driven to bloodthirsty madness, Klingon crews were anatomically inverted, their internal organs exposed outside their bodies...while they still lived. Many vessels were lost, never to be heard from again. Archer faces the greatest crisis of his career: Should he believe Silik's time-traveling master, and expose his ship and crew to the perils of The Expanse, in hopes of saving Earth from destruction? And can he convince Starfleet Command and the Vulcan High Council to let Enterprise go to face her biggest challenge?

Saviour - After Earth: Ghost Stories (Short Story)

Michael Jan Friedman, 2013-02-21 On a distant planet called Nova Prime, the United Ranger Corps defends the galaxy's remaining humans from an alien race known as the Skrel and their genetically engineered predators, the Ursa—and one Ranger will learn just how high the cost of victory can be. "Ghost Stories: Saviour" is the fifth of six eBook short stories that lead up to the events of After

Earth, the epic science fiction adventure film directed by M. Night Shyamalan and starring Jaden Smith and Will Smith. Ranger Jon Blackburn wakes up from voluntary brain surgery, dazed and confused. He is a hero . . . or at least he will be one, if the delicate operation to remove his sense of fear was successful. Blackburn consented to take part in the experimental initiative to increase the Rangers' reserve of "Ghosts," soldiers whose lack of fear renders them invisible to the deadly Ursa. All indications are that it's a spectacular success—but Blackburn doesn't feel special; he doesn't feel honored when Cypher Raige, the Original Ghost, personally thanks him. In fact, he doesn't really feel much of anything. Doctors say that his fear is gone, but something else is missing, too; something Blackburn may not be able to get back, unless he can piece together this twisted jigsaw puzzle and find a way to become whole again.

The Greatest Cult Television Shows of All Time
Christopher J. Olson, CarrieLynn D. Reinhard, 2020-05-29 Reaching back to the beginnings of television, The Greatest

Cult Television Shows offers readers a fun and accessible look at the 100 most significant cult television series of all time, compiled in a single resource that includes valuable information on the shows and their creators. While they generally lack mainstream appeal, cult television shows develop devout followings over time and exert some sort of impact on a given community, society, culture, or even media industry. Cult television shows have been around since at least the 1960s, with *Star Trek* perhaps the most famous of that era. However, the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s, and now, with the plethora of streaming options available, more shows can be added to this categorization. Reaching back to the beginnings of television, the book includes such groundbreaking series as *The Twilight Zone* and *The Prisoner* alongside more contemporary examples like *Crazy Ex-Girlfriend* and *Hannibal*. The authors provide production history for each series and discuss their relevance to global pop culture. To provide a more global approach to the topic, the authors also consider several non-American cult TV series, including British, Canadian, and Japanese shows. Thus, *Monty Python's Flying Circus* appears alongside *Sailor Moon* and *Degrassi Junior High*. Additionally, to move beyond the conception of "cult" as a primarily white, heteronormative, fanboy obsession, the book contains shows that speak to a variety of cult audiences and experiences, such as *Queer as Folk* and *Charmed*. With detailed arguments for why these shows deserve to be considered the greatest of all time, Olson and Reinhard provide ideas for discussion and debate on cult television. Each entry in this book demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them.

The Ferengi have been changing Megaran culture, turning a hard working and honorable people into vicious xenophobic killers. But the Ferengi are only hired hands. They have hidden masters, with plans to use the Megaran people as a powerful weapon against the Federation. Now Picard must find a way to use the talents of this new ambassador to free the Megarans.
