*How Star Wars Conquered the Universe* Chris Taylor,2015-10-06 In 1973, a young filmmaker named George Lucas scribbled some notes for a far-fetched space-fantasy epic. Some forty years and 37 billion later, Star Wars -- related products outnumber human beings, a growing stormtrooper army spans the globe, and Jediism has become a religion in its own right. Lucas's creation has grown into far more than a cinematic classic; it is, quite simply, one of the most lucrative, influential, and interactive franchises of all time. Yet incredibly, until now the complete history of Star Wars -- its influences and impact, the controversies it has spawned, its financial growth and long-term prospects -- has never been told. In How Star Wars Conquered the Universe, veteran journalist Chris Taylor traces the series from the difficult birth of the original film through its sequels, the franchise's death and rebirth, the prequels, and the preparations for a new trilogy. Providing portraits of the friends, writers, artists, producers, and marketers who labored behind the scenes to turn Lucas's idea into a

legend, Taylor also jousts with modern-day Jedi, tinkers with droid builders, and gets inside Boba Fett's helmet, all to find out how Star Wars has attracted and inspired so many fans for so long. Since the first film's release in 1977, Taylor shows, Star Wars has conquered our culture with a sense of lightness and exuberance, while remaining serious enough to influence politics in far-flung countries and spread a spirituality that appeals to religious groups and atheists alike. Controversial digital upgrades and poorly received prequels have actually made the franchise stronger than ever. Now, with a savvy new set of bosses holding the reins and Episode VII on the horizon, it looks like Star Wars is just getting started. An energetic, fast-moving account of this creative and commercial phenomenon, How Star Wars Conquered the Universe explains how a young filmmaker's fragile dream beat out a surprising number of rivals to gain a diehard, multigenerational fan base -- and why it will be galvanizing our imaginations and minting money for generations to come.

*Goodnight Darth Vader* Jeffrey Brown,2014-07-22 It's bedtime in the Star Wars galaxy, and Darth Vader's parenting skills are tested anew in this delightful follow-up to the breakout New York Times bestsellers *Darth Vader™* and *Son and Vader's™ Little Princess*. In this Episode, the Sith Lord must soothe his rambunctious twins, Luke and Leia—who are not ready to sleep and who insist on a story. As Vader reads, the book looks in on favorite creatures, droids, and characters, such as Yoda, R2-D2, Han Solo, Chewbacca, Darth Maul, Admiral Ackbar, Boba Fett, and many others as they tuck in, yawn, and settle down to dream. As ever, Jeffrey Brown's charming illustrations and humor glow throughout, playing on children's book conventions to enchant adults and kids alike. © and TM Lucasfilm Ltd. Used Under Authorization
