Dasgupta, Subhasish

*Girlhood on Disney Channel* Morgan Genevieve Blue,2017-03-03 Since the early 2000s, Disney Channel has been dominated by original live-action programming popular among tween girls. The shows' successes rely not only on their popularity among girl audiences, but also on the development of star personae by girl performers, such as Raven-Symoné, Miley Cyrus, and Selena Gomez. In addition, these programs and their performers have spawned lucrative media and merchandising franchises for the Walt Disney Company. This book includes analyses of this Disney Channel programming, as well as Disney corporate reports and executive statements, together with Disney Channel stars' performances, promotional appearances, media production, philanthropic efforts, and entrepreneurism. Analyzing these texts, performances, activities, and personae, it considers the ways in which they reproduce celebrity, visibility, and feminine performativity as central to successful twenty-first century girlhood.

*Selling the Silver Bullet* Avi Santo, 2015-04-15 Originating as a radio series in 1933, the Lone Ranger is a cross-media star who has appeared in comic strips, comic books, adult and juvenile novels, feature films and serials, clothing, games, toys, home furnishings, and many other consumer products. In his prime, he rivaled Mickey Mouse as one of the most successfully licensed and merchandised children's properties in the United States, while in more recent decades, the Lone Ranger has struggled to resonate with consumers, leading to efforts to rebrand the property. The Lone Ranger's eighty-year history as a lifestyle brand thus offers a perfect case study of how the fields of licensing, merchandizing, and brand management have operated within shifting industrial and sociohistorical conditions that continue to redefine how the business of entertainment functions. Deciphering how iconic characters gain and retain their status as cultural commodities, *Selling the Silver Bullet* focuses on the work done by peripheral consumer product and licensing divisions in selectively extending the characters' reach and in cultivating investment in these characters among potential stakeholders. Tracing the Lone Ranger's decades-long career as intellectual property allows Avi Santo to analyze the mechanisms that drive contemporary character licensing and entertainment brand management practices, while at the same time situating the licensing field's development within particular sociohistorical and industrial contexts. He also offers a nuanced assessment of the ways that character licensing firms and consumer product divisions have responded to changing cultural and economic conditions over the past eighty years, which will alter perceptions about the creative and managerial authority these ancillary units wield.

**Children and the Politics of Sexuality** Liza Tsaliki, 2016-08-13 This book discusses already established accounts about the sexualization of children through a theoretical and an empirical framework which bring together popular culture, consumption, sexuality, selfhood and childhood. Adopting the view that the debate about the sexualization of childhood is socially constructed, it pushes beyond the dominant preconceptions about 'the risks of childhood'. Moral judgements about children's welfare are perhaps nowhere more transient and controversial than when it comes to children's sexuality, something that has deep historical roots. However, and contrary to recurrent fears and moral panics about the loss of childhood as a result of a tidal wave of a sexualizing culture, this book theorizes the notion of children's sexualization within the social construction of myths of childhood innocence while also taking into account the extent of young people's actual engagement with media and technology in contemporary Western societies. It is within such a contextual framework that this book unfolds, bringing together a

historical contextualization of childhood, sexuality and pornography with contemporary empirical accounts regarding the 'presentation of the self' and self-management.
