Tourism Planning and Development in Latin America Carlos Monterrubio,Konstantinos Andriotis,Dimitrios Stylidis,2020-06-16 Despite the significance of tourism to the economic, social and environmental structures of Central and South America, little has been documented in the English literature about tourism in this sub-region, which in terms of population size, ranks fourth in the world with 652 million inhabitants. The first of its kind, this book focuses exclusively on tourism development, planning and their impacts in a wide number of Central and South American countries. It covers experiences, challenges, successful and unsuccessful stories, specific cases, and other tourism related issues of twelve countries in total. Each chapter is authored by scholars who have done extensive research on tourism in the countries covered.
