Multidisciplinary Perspectives on Women, Voice, and Agency Yan?kkaya, Berrin,Nairn, Angelique Margarita,2020-07-31 Across the world, it has remained a significant challenge for women to be heard within crucial components of society. Male domination has a vast history of restricting the visibility and voices of women in areas including economics and politics. In recent years, however, those longstanding barriers are beginning to crumble as feminism and women's rights have become vital areas of research. Understanding the importance of having a voice and its relation to the construction of women's empowerment, as well as existing limitations in global regions, is imperative. Multidisciplinary Perspectives on Women, Voice, and Agency is a collection of innovative research on the examination of giving voice to women's issues in the contemporary world and their increasing impact within the various pillars of society. While highlighting topics including social change, digital activism, and inclusion, this book is ideally designed for researchers, activists, policymakers, practitioners, politicians, advocates, educators, and students seeking current research on women empowerment and the interpretation of women's voices throughout the globe.

Finding Your Voice in Radio, Audio, and Podcast Production Rob Quicke,2023-12-19 This book provides a unique identity-centered approach to radio, audio, and podcast production which encourages readers to build their confidence and create audio content that matters to them. Written for those just starting out in audio production and focusing on the process of their self-development, readers will learn how to use sound to express themselves in a variety of ways and to create powerful stories in the process – all with the tools already available to them. At the centre of this approach is the author's R.E.A.L. method, referring to the creation of audio that is relatable, engaging, authentic, and liberating. Students will learn to apply this concept to each step of the production process, from planning and writing through to interviewing, broadcasting, and responding to feedback. By the end of this book readers will have developed a working knowledge of podcast, audio, and radio production alongside their own means of self-expression. Supported by exercises and interviews with audio practitioners throughout, Finding Your Voice in Radio, Audio, and Podcast Production is a key resource for anyone approaching radio, audio, or podcasting for the first time. A supporting companion website with Instructor and Student Resources is available at www.robquicke.com.

Black Popular Music in Britain Since 1945 Jon Stratton,Nabeel Zuberi,2016-04-15 Black Popular Music in Britain Since 1945 provides the first broad scholarly discussion of this music since 1990. The book critically examines key moments in the history of black British popular music from 1940s jazz to 1970s soul and reggae, 1990s Jungle and the sounds of Dubstep and Grime that have echoed through the 2000s. While the book offers a history it also discusses the ways black musics in Britain have intersected with the politics of race and class, multiculturalism, gender and sexuality, and debates about media and technology. Contributors examine the impact of the local, the ways that black music in Birmingham, Bristol, Liverpool, Manchester and London evolved differently and how black popular music in Britain has always developed in complex interaction with the dominant British popular music tradition. This tradition has its own histories located in folk music, music hall and a constant engagement, since the nineteenth century, with American popular music, itself a dynamic mixing of African-American, Latin American and other musics. The ideas that run through various chapters form connecting narratives that challenge dominant understandings of black popular music in Britain and will be essential reading for those interested in Popular Music Studies, Black British Studies and Cultural Studies.

Contesting Intersex Georgiann Davis,2015-07-10 Winner, 2017 Sex and Gender Distinguished Book Award, presented by the American Sociological Association Winner, 2016 Donald Light Award for the Applied or Public Practice of Medical Sociology, presented by the American Sociological Association A personal, compelling perspective on how medical diagnoses can profoundly hurt, or help, the lived experiences of entire communities When sociologist Georgiann Davis was a teenager, her doctors discovered that she possessed XY chromosomes, marking her as intersex. Rather than share this information with her, they withheld the diagnosis in order to “protect” the development of her gender identity; it was years before Davis would see her own medical records as an adult and learn the truth. Davis’ experience is not unusual. Many intersex people feel isolated from one another and violated by medical practices that support conventional notions of the male/female sex binary which have historically led to secrecy and shame about being intersex. Yet, the rise of intersex activism and visibility in the US has called into question the practice of classifying intersex as an abnormality, rather than as a mere biological variation. This shift in thinking has the potential to transform entrenched intersex medical treatment. In *Contesting Intersex*, Davis draws on interviews with intersex people, their parents, and medical experts to explore the oft-questioned views on intersex in medical and activist communities, as well as the evolution of thought in regards to intersex visibility and transparency. She finds that framing intersex as an abnormality is harmful and can alter the course of one's life. In fact, controversy over this framing continues, as intersex has been renamed a ‘disorder of sex development’ throughout medicine. This happened, she suggests, as a means for doctors to reassert their authority over the intersex body in the face of increasing intersex activism in the 1990s and feminist critiques of intersex medical treatment. Davis argues the renaming of ‘intersex’ as a ‘disorder of sex development’ is strong evidence that the intersex diagnosis is dubious. Within the intersex community, though, disorder of sex development terminology is hotly disputed; some prefer

not to use a term which pathologizes their bodies, while others prefer to think of intersex in scientific terms. Although terminology is currently a source of tension within the movement, Davis hopes intersex activists and their allies can come together to improve the lives of intersex people, their families, and future generations. However, for this to happen, the intersex diagnosis, as well as sex, gender, and sexuality, needs to be understood as socially constructed phenomena. A personal journey into medical and social activism, *Contesting Intersex* presents a unique perspective on how medical diagnoses can affect lives profoundly. Running with Sherman Christopher McDougall,2020-07-28 From the bestselling author of *Born to Run*, a heartwarming story about training a rescue donkey to run one of the most challenging races in America, and, in the process, discovering the life-changing power of the human-animal connection. A delight, full of heart and hijinks and humor. —John Grogan, author of *Marley & Me: Life and Love with the World's Worst Dog* When Christopher McDougall decided to adopt a donkey in dire straits, he had no idea what he was getting himself into. But with the help of his neighbors, Chris came up with a crazy idea. Burro racing, a unique type of competition in which humans and donkeys run side by side over mountains and through streams, would be exactly the challenge Sherman and Chris needed. In the course of Sherman's training, Chris would enlist Amish running clubs, high-spirited goats, the service animal community, and two Sarah Palin-loving long-distance female truckers. Sherman's heartwarming story of overcoming all odds to run one of the most unbelievable races in America shows the healing power of movement and the strength of the human-

animal connection. Look for Christopher McDougall's new book, *Born to Run 2*, coming in December!

Blogging in Beirut Sarah Jurkiewicz, 2018-01-31 Unlike previous media-analytic research, Sarah Jurkiewicz's anthropological study understands blogging as a social field and a domain of practice. This approach underlines the significance of blogging in practitioners' daily lives and for their self-understanding. In this context, the notion of publicness enables a consideration of publics not as static 'spheres' that actors merely enter, but as produced and constituted by social practices. The vibrant media landscape of Beirut serves as a selection of samples for an ethnographic exploration of blogging.
