Yearbook of the United Nations 2014 United Nations,2019-10-28
With its comprehensive coverage of political and security matters,
human rights issues, economic and social questions, legal issues, and
administrative and budgetary matters, the Yearbook of the United
Nations stands as the authoritative reference work on the annual
activities and concerns of the Organization. Fully indexed, the
Yearbook includes all major General Assembly, Security Council and
Economic and Social Council resolutions and decisions, uniquely
placing them in a narrative context of United Nations consideration,
deliberation and action. This sixty-eighth volume presents the work
of the United Nations in dealing with recurring conflicts with severe
humanitarian consequences including in the Syrian Arab Republic,
where more than 12 million people were in need of basic food,
clothing and shelter. The volume also highlights the Organization's
rapid response to an escalatory global health emergency—the Ebola
virus disease outbreak across West Africa. It documents the
Organization's coordination of policy discussions to finalize a global
sustainable development agenda, with the security of future
generations as the core concern; and its efforts to rebuild societies
emerging from conflict while keeping the fragile peace in other
places. It further details the entry into force of the landmark Arms
Trade Treaty, the missile downing of a passenger airliner in the midst
of a geopolitical crisis in eastern Ukraine, and securing international
human rights and humanitarian law and prosecuting abusers.

Nuclear Disengagement in Europe Stockholm International Peace Research Institute, 2020-11-19 In the early 1980s there had been an upsurge of public concern over the nuclear threat to Europe. Already saturated with nuclear weapons, Europe faced controversial new deployments and there was alarm over military strategies for nuclear war in the region. It is in this context that the idea of nuclear weapon-free zones had captured the popular imagination and became a political issue in Europe. Not only would such zones build confidence and raise the nuclear threshold, but they would be first steps towards a more comprehensive elimination of nuclear weapons. Originally published in 1983 *Nuclear Disengagement in Europe* probes the question of nuclear weapon-free zones in the region. Pugwash and SIPRI arranged a meeting at which an international team of lawyers, scientists, politicians and military experts gave background information and provided an appraisal of problems regarding the zone initiatives as well as benefits that would accrue. Possible elements in a European zone arrangement were elaborated on and procedures towards the establishment of such a zone were suggested.

Unwelcome Americans Ruth Wallis Herndon, 2001 Selected by *Choice* magazine as an Outstanding Academic Title In eighteenth-century America, no centralized system of welfare existed to assist people who found themselves without food, medical care, or shelter. Any poor relief available was provided through local taxes, and these

funds were quickly exhausted. By the end of the century, state and national taxes levied to help pay for the Revolutionary War further strained municipal budgets. In order to control homelessness, vagrancy, and poverty, New England towns relied heavily on the warning out system inherited from English law. This was a process in which community leaders determined the legitimate hometown of unwanted persons or families in order to force them to leave, ostensibly to return to where they could receive care. The warning-out system alleviated the expense and responsibility for the general welfare of the poor in any community, and placed the burden on each town to look after its own. But homelessness and poverty were problems as onerous in early America as they are today, and the system of warning out did little to address the fundamental causes of social disorder. Ultimately the warning-out system gave way to the establishment of general poorhouses and other charities. But the documents that recorded details about the lives of those who were warned out provide an extraordinary--and until now forgotten--history of people on the margin. Unwelcome Americans puts a human face on poverty in early America by recovering the stories of forty New Englanders who were forced to leave various communities in Rhode Island. Rhode Island towns kept better and more complete warning-out records than other areas in New England, and because the official records include those who had migrated to Rhode Island from other places, these documents can be relied upon to describe the experiences of poor people across the region. The stories are organized from birth to death, beginning with the lives of poor children and young adults, followed by families and single adults, and ending with the testimonies of the elderly and dying. Through meticulous research of historical records, Herndon has managed to recover voices

that have not been heard for more than two hundred years, in the process painting a dramatically different picture of family and community life in early New England. These life stories tell us that those who were warned out were predominantly unmarried women with or without children, Native Americans, African Americans, and destitute families. Through this remarkable reconstruction, Herndon provides a corrective to the narratives of the privileged that have dominated the conversation in this crucial period of American history, and the lives she chronicles give greater depth and a richer dimension to our understanding of the growth of American social responsibility.

Africans to Spanish America Sherwin K. Bryant, Rachel Sarah O'Toole, Ben Vinson, 2012-02-15 Africans to Spanish America expands the diaspora framework to include Mexico, Peru, Ecuador, and Cuba, exploring the connections and disjunctures between colonial Latin America and the African diaspora in the Spanish empires. Analysis of the regions of Mexico and the Andes opens up new questions of community formation that incorporated Spanish legal strategies in secular and ecclesiastical institutions as well as articulations of multiple African identities. The volume is arranged around three sub-themes: identity construction in the Americas; the struggle by enslaved and free people to present themselves as civilized, Christian, and resistant to slavery; and issues of cultural exclusion and inclusion. Contributors are Joan Cameron Bristol, Nancy E. van Deusen, Leo Garafalo, Herbert S. Klein, Charles Beatty Medina, Karen Y. Morrison, Rachel Sarah O'Toole, Frank Trey Proctor, and Michele B. Reid.

Race and Nation in the Age of Emancipations Whitney Nell Stewart,John Garrison Marks,2018 With these essays, historians contend that emancipation was not something that simply happened to enslaved peoples but rather something in which they actively participated. Their examination uncovers the various techniques employed by people of African descent across the Atlantic World, allowing a broader picture of their paths to freedom.

A more equal society? Hills, John,Stewart, Kitty,2005-01-12 This major new book provides, for the first time, a detailed evaluation of policies on poverty and social exclusion since 1997, and their effects. Bringing together leading experts in the field, it considers the challenges the government has faced, the policies chosen and the targets set in order to assess results. Drawing on research from the Centre for Analysis of Social Exclusion, and on external evaluations, the book asks how children, older people, poor neighbourhoods, ethnic minorities and other vulnerable groups have fared under New Labour and seeks to assess the government both on its own terms - in

meeting its own targets - and according to alternative views of social exclusion.

Parish and Belonging K. D. M. Snell, 2006-11-16 What role did the parish play in people's lives in England and Wales between 1700 and the mid-twentieth century? By comparison with globalisation and its dislocating effects, the book stresses how important parochial belonging once was. Professor Snell discusses themes such as settlement law and practice, marriage patterns, cultures of local xenophobia, the continuance of out-door relief in people's own parishes under the new poor law, the many new parishes of the period and their effects upon people's local attachments. The book highlights the continuing vitality of the parish as a unit in people's lives, and the administration associated with it. It employs a variety of historical methods, and makes important contributions to the history of welfare, community identity and belonging. It is highly relevant to the modern themes of globalisation, de-localisation, and the decline of community, helping to set such changes and their consequences into local historical perspective.
