The Star Clock Chronicles E.J. Kitchens, 2021-01-14 In a world where sun and moon are myths, dawn is coming. No sun ever rose, no moon ever waxed or waned, no stars ever danced a rhythmic pattern across the night sky. Only faerie crystals brightening and dimming according to one man's will signaled dawn and dusk, month and season. Long ago, the faerie queen Morgan Unseelie cast a veil between heaven and earth, obscuring all heaven's lights, for the pleasure and power of a mortal man, who then fashioned himself the Rí Am, the Time King. From all other mortals, she took away knowledge of time and direction and skill of navigation. Man was dependent on the Rí Am's automaton navigators for travel and trade and thought the sun a myth and the faerie queen a benevolent goddess. Those few who kept the true faith-belief in the celestial lights and their Maker-called themselves Sky Keepers and refused to pay homage to the queen and her time king, often at great cost. But when airship captain Marianna Bowditch and Sky Keeper Bertram Orren stumble upon ancient books on navigation while trapped in an abandoned faerie court, everything starts to change. THE STAR CLOCK CHRONICLES is a collection of five novelette- to novella-length tales of adventure and clean romance in steampunk world and tells of the defeat of the Time King and the coming of dawn. This is the complete collection and includes Dawn Bringer, Star Veil, Sky Keeper, Moon Song, and Dusk Crier.

Timekeeper Tara Sim, 2016-11-08 "I was in an accident. I got out. I'm safe now." An alternate Victorian world controlled by clock towers, where a damaged clock can fracture time-and a destroyed one can stop it completely. A prodigy mechanic who can repair not only clockwork, but time itself, determined to rescue his father from a Stopped town. A series of mysterious bombings that could jeopardize all of England. A romance that will shake the very foundations of time. The first book in a dazzling new steampunk-fantasy trilogy, Timekeeper introduces a magical world of mythology and innovation that readers will never want to leave.

World Clock Journals (The Complete Trilogy)

Angela Roquet, 2021-09-29 The complete World Clock Journals trilogy, a dystopian steampunk romance. Late Boston is a city held hostage by time. It has been five years since inventor Ezra Huxley's wife mysteriously disappeared through a portal in the time machine he was building. When he finally gives up hope and uses the same technology to craft a perpetual motion clock in the Custom House Tower, everything goes horribly wrong—at his daughter's wedding, no less. Time is shattered, and the citizens in its wake suffer an hourly reminder of the day they lost their sanity. And their freedom. The city is on lockdown to prevent the spread of time sickness, and now the clock is ticking. If they cannot find a way to fix the broken time machine plaguing Late Boston, the governor is prepared to take matters into his own hands and declare them a casualty of the war raging across the Atlantic. If you enjoy time travel romance, clockwork fantasy, and alternate history, this series is for you!
