**How to make Consistent Profits in the Stock Market** G. Scuti, As a brand new investor and trader with zero knowledge of the business you are at a loss as to what information you actually do and do not need and you tend to make the same mistakes as everyone else trying to do this business. Newbie stock traders tend to do what everyone else is doing and study what everyone else is studying thus they have the same results and failures as everyone else, don't be that trader! The market is not a big secret and all of the information you need to make a trading

decision is right out in the open. If you know where to find the information and know what to look for you can and will make some money every day in the market provided you are looking at the right information and utilizing the best trading techniques. How to make Consistent Profits in the Stock Market can help you keep it simple and filter the huge amount of information out there down to only what you need to know right away and then can work towards adding more information and studies as you go. My philosophy is to start small and build on success have limited exposure while you hone your skills, then progress as you become more competent and build up your account. All traders who have made it and make money consistently in the market are making it from the beginner traders who have visions of grandeur and dollar signs rolling around in their eyes like some old cartoon. If you want to make it in this business, I would listen to the advice in How to make Consistent Profits in the Stock Market very carefully, I am going to share with you information that professional real money traders don't want you to know about.
