The Acquirer's Multiple Tobias E. Carlisle, 2017-10-16 The Acquirer's Multiple: How the Billionaire Contrarians of Deep Value Beat the Market is an easy-to-read account of deep value investing. The book shows how investors Warren Buffett, Carl Icahn, David Einhorn and Dan Loeb got started and how they do it. Carlisle combines engaging stories with research and data to show how you can do it too. Written by an active value investor, The Acquirer's Multiple provides an insider's view on deep value investing. The Acquirer's Multiple covers: How the billionaire contrarians invest How Warren Buffett got started The history of activist hedge funds How to Beat the Little Book That Beats the Market A simple way to value stocks: The Acquirer's Multiple The secret to beating the market How Carl Icahn got started How David Einhorn and Dan Loeb got started The 9 rules of deep value The Acquirer's Multiple: How the Billionaire Contrarians of Deep Value Beat the Market provides a simple summary of the way deep value investors find stocks that beat the market.

Screening the Market Gerstein, 2002-10-01

The Value Connection Marc H. Gerstein, 2003-10-07 A market beating method for finding success in trading stocks Value is a concept that frequently

eludes investors -- especially when it comes to stocks. In many cases, successfully identifying value can make the difference between picking a winner and getting burned. The Value Connection offers a systematic and doable method investors can use to take advantage of value in the stock market. Based on author Marc Gerstein's Value Connection method, this book will show investors how to find potentially attractive value connections, analyze specific situations to see if the value connection is sound, buy the best value connected opportunities, and sell stocks for which the value connection has weakened. The proven four-step method outlined -- which allows investors to understand the relationship between a company and its stock -- will help any investor screen the stock market for the best values out there. Real world examples make understanding this revolutionary investing method easy. Marc H. Gerstein (New York, NY) is the Director of Investment Research at Multex. Prior to that, he was in the research and editorial department at Value Line. Over the course of two decades he analyzed stocks across a wide variety of industries and sectors, including household products, specialty retail, restaurants, mining, energy, hotel/gaming, homebuilding, airlines, railroads, and media. Gerstein appears periodically on CNNfn, Bloomberg TV, and is often quoted in USA Today, CBS MarketWatch, The Wall Street Journal, The New York Daily News, and Money Online. He is also the author of Screening the Market (0-471-21559-7).

Growth Stock Investing Harry Domash, 2011-06-02 If you liked this Short, you

might also like *Fire Your Stock Analyst!: Analyzing Stocks On Your Own*, 2nd Edition (9780137010233) by Harry Domash. Available in print and digital formats. Don't waste time researching bad ideas. Concise, but comprehensive, *Growth Stock Investing* shows you how to pinpoint worthwhile growth stock candidates, pick the best prospects from that list, and equally important, when to sell. Learn how to use free stock screening programs to find the qualified growth stock candidates, how to qualify those candidates, and most important, when to sell.

Quantitative Momentum Wesley R. Gray, Jack R. Vogel, 2016-10-03 The individual investor's comprehensive guide to momentum investing *Quantitative Momentum* brings momentum investing out of Wall Street and into the hands of individual investors. In his last book, *Quantitative Value*, author Wes Gray brought systematic value strategy from the hedge funds to the masses; in this book, he does the same for momentum investing, the system that has been shown to beat the market and regularly enriches the coffers of Wall Street's most sophisticated investors. First, you'll learn what momentum investing is not: it's not 'growth' investing, nor is it an esoteric academic concept. You may have seen it used for asset allocation, but this book details the ways in which momentum stands on its own as a stock selection strategy, and gives you the expert insight you need to make it work for you. You'll dig into its behavioral psychology roots, and discover the key tactics that are bringing both institutional and individual investors flocking into the momentum fold.

Systematic investment strategies always seem to look good on paper, but many fall down in practice. Momentum investing is one of the few systematic strategies with legs, withstanding the test of time and the rigor of academic investigation. This book provides invaluable guidance on constructing your own momentum strategy from the ground up. Learn what momentum is and is not Discover how momentum can beat the market Take momentum beyond asset allocation into stock selection Access the tools that ease DIY implementation The large Wall Street hedge funds tend to portray themselves as the sophisticated elite, but momentum investing allows you to 'borrow' one of their top strategies to enrich your own portfolio. Quantitative Momentum is the individual investor's guide to boosting market success with a robust momentum strategy.

Deep Value Tobias E. Carlisle, 2014-08-18 The economic climate is ripe for another golden age of shareholder activism Deep Value: Why Activist Investors and Other Contrarians Battle for Control of Losing Corporations is a must-read exploration of deep value investment strategy, describing the evolution of the theories of valuation and shareholder activism from Graham to Icahn and beyond. The book combines engaging anecdotes with industry research to illustrate the principles and methods of this complex strategy, and explains the reasoning behind seemingly incomprehensible activist maneuvers. Written by an active value investor, Deep Value provides an insider's perspective on shareholder activist strategies in a format accessible to both professional

investors and laypeople. The Deep Value investment philosophy as described by Graham initially identified targets by their discount to liquidation value. This approach was extremely effective, but those opportunities are few and far between in the modern market, forcing activists to adapt. Current activists assess value from a much broader palate, and exploit a much wider range of tools to achieve their goals. Deep Value enumerates and expands upon the resources and strategies available to value investors today, and describes how the economic climate is allowing value investing to re-emerge. Topics include: Target identification, and determining the most advantageous ends Strategies and tactics of effective activism Unseating management and fomenting change Eyeing conditions for the next M&A boom Activist hedge funds have been quiet since the early 2000s, but economic conditions, shareholder sentiment, and available opportunities are creating a fertile environment for another golden age of activism. Deep Value: Why Activist Investors and Other Contrarians Battle for Control of Losing Corporations provides the in-depth information investors need to get up to speed before getting left behind.

Investing Online For Dummies Matthew Krantz, 2016-01-13 Building substantial online investments is a page away Anyone can invest online, but without the right guidance and know-how, a well-meaning online investment can go wrong—fast. Trade Like a Stock Market Wizard: How to Achieve Super Performance in Stocks in Any Market Mark Minervini, 2013-04-19 Minervini has run circles around most PhDs trying to design systems to beat the market. -- JACK SCHWAGER, bestselling author of Stock Market Wizards Mark's book has to be on every investor's bookshelf. It is about the most comprehensive work I have ever read on investing in growth stocks. -- DAVID RYAN, three-time U.S. Investing Champion [Minervini is] one of the most highly respected independent traders of our generation. His experience and past history of savvy market calls is legendary. -- CHARLES KIRK, The Kirk Report One of Wall Street's most remarkable success stories. -- BEN POWER, Your Trading Edge THE INVESTOR'S GUIDE TO SUPERPERFORMANCE! Dramatically increase your stock market returns with the legendary SEPA system! For the first time ever, U.S. Investing Champion Mark Minervini reveals the proven, time-tested trading system he used to achieve triple-digit returns for five consecutive years, averaging 220% per year for a 33,500% compounded total return. In Trade Like a Stock Market Wizard, Minervini unveils his trademarked stock market method SEPA, which provides outsized returns in virtually every market by combining careful risk management, self-analysis, and perseverance. He explains in

detail how to select precise entry points and preserve capital—for consistent triple-digit returns. Whether you're just getting started in the stock market or you're a seasoned pro, Minervini will show you how to achieve SUPERPERFORMANCE! You'll gain valuable knowledge as he shares lessons, trading truths, and specific tactics--all derived from his 30-year career as one of America's most successful stock traders. Trade Like a Stock Market Wizard teaches you: How to find the best stocks before they make big price gains How to avoid costly mistakes made by most investors How to manage losses and protect profits How to avoid high-risk situations Precisely when to buy and when to sell How to buy an IPO Why traditional valuation doesn't work for fast-growing Superperformers Examples of Minervini's personal trades with his comments With more than 160 chart examples and numerous case studies proving the remarkable effectiveness of Minervini's methodology, Trade Like a Stock Market Wizard puts in your hands one of the most effective and--until now--secretive stock investing systems in the world. MARK MINERVINI has a trademarked stock market method that produces outsized returns in virtually every market. It's called Specific Entry Point Analysis--SEPA--and it has been proven effective for selecting precise entry points, preserving capital and profits with even more precise exit points--and consistently producing triple-digit returns. Now, in Trade Like a Stock Market Wizard, Minervini shares--for the first time ever--his coveted methodology with investors like you!

The Unusual Billionaires Saurabh Mukherjea, 2016-08-17 What makes a company truly outstanding? What is the secret sauce of delivering successful results over multiple decades? What is common to Asian Paints, HDFC Bank, Axis Bank, Marico, Berger Paints, Page Industries and Astral Poly? They are Unusual Companies, built by Unusual Billionaires. This book tells the story of these seven companies, handpicked out of 5000 listed on the stock exchange. Built by visionary business leaders, they have delivered outstanding results for a decade and more. How did these companies do it? Why couldn't this be replicated by other companies? What are they doing differently? Saurabh Mukherjea, bestselling author of *Gurus of Chaos*, delivers an exceptional book with lessons to learn from these seven businesses. Mukherjea tells you why focusing on the core business is central to corporate success and how a promoter giving up control to the top management could be a boon. He also explains how investors can generate market-beating investment returns from identifying companies such as these using a simple set of metrics. Packed with these learnings are riveting corporate stories of how Hindustan Unilever made an aggressive bid to buy Harsh Mariwala's business, but had to sell a business to him in a few years, or how Page Industries found an innovative way to stop unionization at their manufacturing units. Other stories include the turnaround of Axis Bank and the boardroom coup that led to its chairman's exit and how Vijay Mallya sold Berger Paints to the Dhingra brothers. This book is mandatory reading for anyone who wants to understand how business is

done successfully in India.

High Returns from Low Risk Pim van Vliet, Jan de Koning, 2017-01-17 Believing high-risk equals high-reward is holding your portfolio hostage High Returns from Low Risk proves that low-volatility, low-risk portfolios beat high-volatility portfolios hands down, and shows you how to take advantage of this paradox to dramatically improve your returns. Investors traditionally view low-risk stocks as safe but unprofitable, but this old canard is based on a flawed premise; it fails to see beyond the monthly horizon, and ignores compounding returns. This book updates the thinking and brings reality to modelling to show how low-risk stocks actually outperform high-risk stocks by an order of magnitude. Easy to read and easy to implement, the plan presented here will help you construct a portfolio that delivers higher returns per unit of risk, and explains how to achieve excellent investment results over the long term. Do you still believe that investors are rewarded for bearing risk, and that the higher the risk, the greater the reward? That old axiom is holding you back, and it is time to start seeing the whole picture. This book shows you, through deep historical simulation, how to reap the rewards of smarter investing. Learn how and why low-risk, low-volatility stocks beat the market Discover the formula that outperforms Greenblatt's Construct your own low-risk portfolio Select the right ETF or low-risk fund to manage your money Great returns and lower risk sound like a winning combination – what happens once everyone is doing it? The beauty of the low-risk strategy is that it

continues to work even after the paradox is widely known; long-term investment success is possible for anyone who can shake off the entrenched wisdom and go low-risk. High Returns from Low Risk provides the proof, model and strategy to reign in your exposure while raking in the profit.

Stock Screener Introduction

In today's digital age, the availability of Stock Screener books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the

advantages of Stock Screener books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Stock Screener books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Stock Screener versions, you eliminate the need to spend money on physical copies. This not only

saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Stock Screener books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-

improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for

specific terms, making them highly practical for studying or referencing. When it comes to accessing Stock Screener books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic

literature, making it an excellent resource for literature enthusiasts. Another popular platform for Stock Screener books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar

to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public

Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Stock Screener books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational

institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Stock Screener books and manuals for download and embark on your journey of knowledge?

FAQs About Stock Screener Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality?
