Sarah Fisher, Susan Shelly

Watchlist Ronnie Philips, 2018-11-09 **We are the only Stock Journal to offer tracking of emotion on each day!** The Professional's Stock Watch Journal is a labor of love with an interesting history. For twenty years, I watched my husband track his watch list, buys, sells and emotional moods on scraps of paper, napkins and business cards. While there were plenty of apps available to track these things, none of them ever gave him the options that he needed. Most were too robust, and none had any emotional tracking available. Hence, The Professional's Stock Watch Journal was born to capture the things most important to a man who trades for the love of trading, not as a full time job. The Watchlist captures the day, date and up to 20 stocks, along with Entry, Exit and Analysis space for each. It also has open space for capturing notes or thoughts. The Buys page captures the Stock, Entry, Stop and Target for each. Most importantly, each Buys page allows you to capture your emotional mood that day -Bearish, Neutral or Bullish. Use these mood ratings, along with your tracking to look back and reflect on why you made the purchases you did, and learn how your emotions can impact your stock purchases and decisions. I am confident that The Professional's Stock Watch Journal will help you in your stock market journey. As Yvan Byeajee said, Freedom from blind reactivity begins with self-awareness. Watchlist Journal Features include: 150 pages designed to track day & date, Watchlist, Notes, Buy List, Emotional Tracker for feeling Bullish, Neutral or Bearish and

Thoughts for Today. A quick and easy way to track stocks you are interested in, whether you are a seasoned trader or just learning. Great way to track stocks over a long period of time and receive introspective on your mood and impact in making good stock decisions. Take a look inside! Be Smart, Act Fast, Get Rich Charles V. Payne,2007-05-04 Praise for Be Smart, Act Fast, Get Rich Charles Payne's book is blunt, provocative, and right on the money. This book is a lot like Charles himself: insightful and to the point. If you have time to read only one book on how to make money . . . this is the book. --Dr. Bob Froehlich, Chairman, Investor Strategy Committee Deutsche Asset Management, and Vice Chairman, DWS Scudder Be Smart, Act Fast, Get Rich is a book for all investors from first-time stock buyers to seasoned investors. 'Be Smart' suggests you understand the fundamentals of the company you are purchasing. 'Act Fast' suggests that action must be taken if you are going to increase your wealth in the stock market. All too often we find interesting ideas to invest in but never have the confidence to act, only to watch the stock's price rise while others reap the benefits. This book is an easy read, and a must-read for all investors. --Tom Dorsey, President, Dorsey Wright & Associates and author, Point & Figure Charting You

should buy this book just for the super job Charles does in explaining everything you need to know about charts, graphs, and the other 'voodoo' of technical analysis that he makes so simple to understand. Charles really gives you a street fighter's education in the markets . . . I wish his book was around twenty-five years ago . . . it would have saved me millions in market mistakes I've made. --Tobin Smith, founder and Chairman, ChangeWave Research

Jim Cramer is the champion of the middle-class investor. Every night on Mad Money, he provides valuable information about stocks, steering investors away from danger zones and leading them to the investments that can turn a lackluster portfolio into a powerhouse of profit. In his new book, he shows investors how to take the advice on his TV program and put it into action. Cramer walks investors through the key decisions they have to make: understanding their tolerance for risk and defining their goals, doing the essential homework on a stock, and knowing how to buy and sell stocks the right way -- the Cramer way. This is a true nuts-and-bolts guide to investing, from Cramer's detailed discussion of the sort of homework investors must do to his own guidelines for knowing when and how to sell stocks. Cramer shows how to turn the Lightning Round into a terrific tool for

investing; it's stock-market strength training. He reveals how he can assess a stock in only seconds -- a valuable skill that every investor can acquire and put to good use. He explains what to look for in his CEO and CFO interviews, and how to use those conversations to make successful investment decisions. He reviews some of his best calls made on Mad Money, as well as some of his worst ones, to extract ten lessons from each that can profit every investor. And for the Mad Money junkies who just can't get enough, Cramer goes behind the scenes to explain everything from the reason behind his deliberate mispronunciations to his notorious chair abuse to the zany props and buttons that keep things humming. From the first Booyah to the last roar of the bull, Mad Money is every investor's favorite television program, and Jim Cramer's Mad Money is the book that can turn a TV program into a top-notch stock portfolio.

Our Stock Is Rising Gregory A. Powell, 2023-11-10 I spent the early years researching the topic. The goal was to teach them as I learned, and to stay one step ahead of my classes. I took them to see the experts at Key Bank and the Wright State University School of Business. As time went on, the experts came to us. The late Ellis Rowe (former VP, Mars, Inc.), and Theo Killion (former CEO, Zales) flew in from Jacksonville and Chicago respectively, just to share a few of their valuable hours for what they both found to be an invaluable experience. This book is written by a teacher, for teachers. Unlike other books of its kind, this one's not written by an expert in the field of investment financing. Quite frankly, I saw in this project, such a sense of urgency, that the need for it to be delivered by experts (whenever they became available), was outweighed by the need for it to be delivered in the here and now. **Our Stock Is Rising** is a metaphor that speaks not just to the disenfranchised, but to all the little kids in all the neighborhoods

outside New York's famed Financial District. It says that we are not always too young. And that the things we are allowed to be challenged by in our youth, won't be the things that deny us a place at the table, as adults.

Stock Market Trading Geary Hooper, 2003 Buy low, sell high If you have ever traded stocks in the stock market, then I am sure that you have heard of this phrase. Have you ever purchased a stock that you thought was low in price, only to see it go lower after you have purchased the stock. Well if you have, you are not alone. Because this happens to just about everyone that has invested in the stock market. The problem is, knowing when a stock is at a low price and it is time to purchase it. This is really very simple. The only time a stock is at a low price is when it goes up after you purchase it. By now you are saying to your self, I know that. Well could you have known that the stock was going up without a tip from some one? Even with that tip, could you have analyzed the stock to see for your self? If not, then this book is

for you. Its main purpose is to enable you to find, analyze, purchase, and sell stocks on your own while making a handsome profit along the way. With this book you will be able to find main events in a stock's history right up to the current time to let you know if this is a stock to purchase and when, or to leave it alone.
