The Gathering Storm Robert Jordan, Brandon Sanderson, 2009-10-27 Tarmon Gai'don, the Last Battle, looms. And mankind is not ready. The final volume of the Wheel of Time, *A Memory of Light*, was partially written by Robert Jordan before his untimely passing in 2007. Brandon Sanderson, New York Times bestselling author of the Mistborn books, was chosen by Jordan's editor---his wife, Harriet McDougal---to complete the final book. The scope and size of the volume was such that it could not be contained in a single book, and so Tor proudly presents *The Gathering Storm* as the first of three novels that will make up *A Memory of Light*. This short sequence will complete the struggle against the Shadow, bringing to a close a journey begun almost twenty years ago and marking the conclusion of the Wheel of Time, the preeminent fantasy epic of our era. In this epic novel, Robert Jordan's international bestselling series begins its dramatic conclusion. Rand al'Thor, the Dragon Reborn, struggles to unite a fractured network of kingdoms and alliances in preparation for the Last Battle. As he attempts to halt the Seanchan encroachment northward---wishing he could form at least a temporary truce with the invaders---his allies watch in terror the shadow that seems to be growing within the heart of the Dragon Reborn himself. Egwene al'Vere, the Amyrlin Seat of the rebel Aes Sedai, is a captive of the White Tower and subject to the whims of their tyrannical leader. As days tick toward the Seanchan attack she knows is imminent, Egwene works to hold together the disparate factions of Aes Sedai while providing leadership in the face of increasing uncertainty and despair. Her fight will prove the mettle of the Aes Sedai, and her conflict will decide the future of the White Tower---and possibly the world itself. The Wheel of Time turns, and Ages come and pass. What was, what will be, and what is, may yet fall under the Shadow. At the publisher's request, this title is being sold without Digital Rights Management software (DRM) applied.

SEAL Team Six Howard E. Wasdin, Stephen Templin, 2011-05-10 The New York Times bestselling book that takes you inside SEAL Team Six - the covert squad that killed Osama Bin Laden SEAL Team Six is a secret unit tasked with counterterrorism, hostage rescue, and counterinsurgency. In this dramatic, behind-the-scenes chronicle, Howard Wasdin takes readers deep inside the world of Navy SEALs and Special Forces snipers, beginning with the grueling selection process of Basic Underwater Demolition/SEAL (BUD/S)—the toughest and longest military training in the world. After graduating, Wasdin faced new challenges. First there was combat in Operation Desert Storm as a member of SEAL Team Two. Then the Green Course: the selection process to join the legendary SEAL Team Six, with a curriculum that included practiced land warfare to unarmed combat. More than learning how to pick a lock, they learned how to blow the door off its hinges. Finally as a member of SEAL Team Six he graduated from the most storied and challenging sniper program in the country: The Marine's Scout Sniper School. Eventually, of the 18 snipers in SEAL Team Six, Wasdin became the best—which meant one of the best snipers on the planet. Less than half a year after sniper school, he was fighting for his life. The mission: capture or kill Somali warlord Mohamed Farrah Aidid. From rooftops, helicopters and alleys, Wasdin hunted Aidid and killed his men whenever possible. But everything went quickly to hell when his small band of soldiers found themselves fighting for their lives, cut off from help, and desperately trying to rescue downed comrades during a routine mission. The Battle of Mogadishu, as it became known, left 18 American soldiers dead and 73 wounded. Howard Wasdin had both of his legs nearly blown off while engaging the enemy. His dramatic combat tales combined with inside details of becoming one of the world's deadliest snipers make this one of the most explosive military memoirs in years.

Storm's Peril Amy Wilson, Mary Stone, 2021-02-11 Knowledge is power peril... In a city as large as Chicago, the wicked never sleep. When an

undocumented migrant teenager goes missing, military veteran and Special Agent Amelia Storm teams up with her partner to take down what could be the most shocking forced labor and sex trafficking ring her hometown has ever seen. The case reeks of mafia involvement, but even with an investigative reporter as an informant, there's little in the way of leads. Suspicions cast a wide web, and the stakes climb when the boy's sister and their journalist informant also disappear. Still, no one is talking, and every second counts if they hope to find them alive. As sinister secrets are unearthed, Amelia won't stop until she frees the innocent from the evil that lurks in the shadows of her beloved city. What she discovers hits a little too close to home. Was her brother involved? She needs to know, but some answers are better left unasked. From the dark minds of Mary Stone and Amy Wilson comes Storm's Peril, book two of the Amelia Storm Series, where you'll be tempted to peek through the curtains to be sure evil hasn't chosen you. Category 7 Bill Evans,Marianna Jameson,2007-07-10 A Category 4 hurricane, with winds of up to 155 miles per hour, tears roofs off buildings, smashes windows and doors, and can send floodwaters up to the second floor. Evacuation is suggested for up to six miles inland. Hurricane Katrina was a Category 4 when she made landfall. Hurricane Simone is a Category 7—the biggest, strongest storm in recorded history. When she hits New York City, skyscrapers will fall. Subways and tunnels will flood. Lower Manhattan and much of Queens and Brooklyn will disappear under more than thirty feet of water. All along the Eastern Seaboard, towns and cities are being evacuated as wind-driven rain lashes the coast and storm surges crash through seawalls. Roads are packed with fleeing motorists whose cars are jammed with every personal possession that can be crammed in, plus family members, friends, and beloved pets. A huge natural disaster is brewing in the Atlantic. Except that Simone isn't natural. She's the product of rogue weather science being wielded by billionaire Carter Thompson as part of a personal vendetta against US President Winslow Benson. Once Carter wanted to bring rain to the desert and feed the starving peoples of the planet. Now he wants to show Benson—and the rest of the world—just how powerful wind and water can be. If technology created Simone, perhaps technology can stop her. It's up to Kate Sherman, once a member of Carter's weather team; and Jake Baxter, a weatherman for the CIA, to try, using a secret US Navy weapon. The catch? It has to be deployed inside the hurricane. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Prayer Storm James W. Goll, 2011-07-28 Without a concerted storm of prayer around the clock and around the globe we cannot expect to see revival in our time. Updating the model of the Moravians in Herrnhut, Germany two centuries ago, James Goll lays out a plan for today: an Internet-based community of intercessors who commit to pray one hour per week for (1) revival in the church, (2) youth awakening, (3) Israel, and (4) major crises. God does nothing but in answer to prayer, said John Wesley. This first book in the Prayer Storm series helps to raise up a new worldwide band of fervent intercessors.
