The Tracker Hive Academy Avery Song,2019-08-06 The presence of approaching death always leaves you in a contemplating space. Reliving those exact moments pushes me to find the very culprit who changed my life. It also makes sitting in a classroom a pain in the ass. Having survived my first year at Tracker Hive Academy, I'm left with wondering what's next for me, the eight elements, Junior Tracker with no professional filter. We have to face the culprit who is clearly out to get me, but there has to be more to this, especially with certain allies involved.Things only get complicated when my sexy Troubled Four start having imbalance problems, making it difficult for the rest of the world to know who is who - except me, of course. My Shadow only wants to add to the chaos by attacking the very students we're attempting to protect.My life is definitely a shit storm, and when Alaric himself goes missing during an assignment, all bets are off.I am a Queen in my element and won't be told how to get what belongs to me. With Zeke, Zion, Zackery, and Zeus on my side, there's nothing I need to fear - and with Calvin as our joker card. We're a dangerous threat together, and this Hive goes by one thing: Breaking all the rules. Game On.

The Natures of Maps Denis Wood,John Fels,2008 The authors demonstrate that maps of the natural, physical world are just as culturally and socially constructed as any map of property or territory.

The Purple Storm Eunice Wilkie, This second book in the Aletheia Adventure Series returns to the city of Bible Truth - Aletheia - and goes deep into the mysterious fortress that is the Academy of Soldiers-of-the-Cross. Four children are granted the privilege of spending a week with the Rescuers of Aletheia at the Academy. But during that week something unexpected happens: an unprecedented storm appears on the horizon and suddenly the children are in the middle of an emergency rescue mission. They find themselves in an adventure quite unlike any they could have imagined, right in the very heart of the terrifying purple storm. In the storm the children face false, frightening creatures that would claim their allegiance. They must decide if they will place their trust in the creatures of the storm, or in the God of the Bible. Who will they choose to be their refuge in the midst of the purple storm? Through the adventure, the book explores Bible Truth. This book can be enjoyed on its own - without reading the rest of the series.

Predicting, Monitoring, and Assessing Forest Fire Dangers and Risks Baranovskiy, Nikolay Viktorovich,2019-12-27 To understand the catastrophic processes of forest fire danger, different deterministic, probabilistic, and empiric models must be used. Simulating various surface and crown forest fires using predictive information technology could lead to the improvement of existing systems and the examination of the ecological and economic effects of forest fires in other countries. Predicting, Monitoring, and Assessing Forest Fire Dangers and Risks provides innovative insights into forestry management and fire statistics. The content within this publication examines climate change, thermal radiation, and remote sensing. It is designed for fire investigators, forestry technicians, emergency managers, fire and rescue specialists, professionals, researchers, meteorologists, computer engineers, academicians, and students invested in topics centered around providing conjugate information on forest fire danger and risk.

Scanning the Skies Marlene Bradford,2001 Tornadoes, nature's most violent and unpredictable storms, descend from the clouds nearly one thousand times yearly and have claimed eighteen thousand American lives since 1880. However, the U.S. Weather Bureau--fearing public panic and believing tornadoes were too fleeting for meteorologists to predict--forbade the use of the word tornado in forecasts until 1938. Scanning the Skies traces the history of today's tornado warning system, a unique program that integrates federal, state, and local governments, privately controlled broadcast media, and individuals. Bradford examines the ways in which the tornado warning system has grown from meager beginnings into a program that protects millions of Americans each year. Although no tornado forecasting program existed before WWII, the needs of the military prompted the development of a severe weather warning system in tornado prone areas. Bradford traces the post-war creation of the Air Force centralized tornado forecasting program and its civilian counterpart at the Weather Bureau. Improvements in communication, especially the increasing popularity of television, allowed the Bureau to expand its warning system further. This book highlights the modern tornado watch system and explains how advancements during the latter half of the twentieth-century--such as computerized data collection and processing systems, Doppler radar, state-of-the-art television weather centers, and an extensive public education program--have resulted in the drastic reduction of tornado fatalities.

Soliton Nature Sergei Eremenko,2019-12-04 Dedicated to a broad audience and scientists, this new-generation, easy-to-read, pictorial, interactive book uses beautiful photography, video channel, and computer scripts in R and Python to demonstrate existing and explore new solitons – the magnificent and versatile energy concentration phenomenon of nature. With 200 images and videos collected around the world and on magnificent Australian beaches, we describe captivating stand-alone

ocean solitons capable of travelling hundreds of miles uninterrupted. Along with scary tsunamis, the tricky solitonic bores propagating upstream narrow river channels may cause disasters for coastal cities. Sudden killer rogue waves endanger even large ships. Powerful tornadoes, surfing tubes, whirlpools and rotating galaxies are solitonic vortices. Unique videos of breathers and soliton envelope waves, with legendary 'Ninth Wave' in the middle, are commented by some legendary scientists. Beautiful photography of square grid waves confirms tendency of nature to produce multi-dimensional formations. Solitonic dislocations and defects are widespread in metal shapes around us. Solitonic energy localization effects appear in swing movements of humans perfected them in many sports and dances. We also explore new solitonic hypothesis and theories. Geosolitons may have played an important role in formation of mountain ranges and sedimentary rocks. Using solitonic functions for heart blood pressure pulses may lead to new-generation devices. Solitonic dislocation and stability effects may exist in behaviour of correlated financial markets. New class of atomic solitons can be used to describe Higgs boson ('the god particle') fields, spacetime quanta and other fundamental building blocks of nature. Readers are welcomed to subscribe and provide own videos to our dedicated video channel and website www.solitonnature.com.

The Rumour Mill Eunice Wilkie, Aletheia, the great city of Bible Truth in the land of Err, is once more under threat. It has withstood two attacks by the people and creatures of Err, but another assault is coming. This time the Meddlers will use lies and slander to undermine not only the leaders, but the Truth the city stands for, too. The centre of the Meddlers' activities is the Rumour Mill, and when the people of Aletheia discover the Meddlers' plan, they know they must try to destroy this evil place. But how can they find it? And what weapon is powerful enough to destroy it? Charlie Steady has lived in Aletheia all his life. All his family and friends expect him to become a Christian and live the life of a true Aletheian. But Charlie is fed up with high expectations and restrictions: he wants excitement and adventure away from Aletheia altogether. When Charlie learns that the wicked Meddlers are hatching a plan to destroy Aletheia, he is intrigued and sets out to find them. But he becomes infected with their poison - he imbibes their character of lies and slander; he even begins to look and sound like them. How can his friends help him? How can he understand the Truth when he is infected with lies? Characters from previous books in the series unite and set out on a two-fold mission: to discover the Rumour Mill, and to help their friend Charlie be freed from the poison of the Meddlers. Their journey takes them through the hazardous land of Err, and soon they are on the run from the guards and inspectors of Err. In a fantastic, dangerous adventure, they face capture, defeat, pain, and great sacrifice. When at last they see the horror of the Rumour Mill the results are dreadful and spectacular. In this dramatic finale of the trilogy of the Battle for Aletheia (Aletheia Adventure Series books 4, 5, and 6) what power is great enough to destroy the evil of the Meddlers and set Charlie free? Through the story, this book explores the Biblical truth of the LOVE OF GOD. This book can be enjoyed on its own - without reading the rest of the series.

Weather Matters Bernard Mergen, 2008 A kaleidoscopic book that illuminates our obsession with weather--as both physical reality and evocative metaphor--focusing on the ways in which it is perceived, feared, embraced, managed, and even marketed.

Life After War Angela White, 2010-05 Life After War is a series of books about a group of people who live through a nuclear war and come together in the awful aftermath to help rebuild. Let me introduce a few of them. Adrian Mitchel is a lifelong Marine with a huge secret, one that might have stopped the war. Full of guilt he can never be free of, Adrian is driven, obsessed with gathering enough refugee's to restart his broken country. Samantha Moore is a Stormtracker. Gifted with a predictive ability that allows her to avoid bad weather, Sam led a sheltered life before the bombs fell and her road to Adrian's camp is full of pain and horror as she struggles to adjust. Angela White is many things. Doctor, battered wife, mother, and also, a Witch. Born with 'gifts' of the mind, Angela hid them away to keep her man from using them for his own gain but the war broke the locks she used to cage her abilities and now her power is her best defense as she tries to cross a dangerous land in search of her missing son. Lt. Kenn Harrison is a soldier adrift when he joins Adrian's refugee camp, an angry man with secrets, and though months of trials at Adrian's patriotic side have begun to change him, what will happen to all the progress he's made when Angela finally comes for her son? Kindle Roberts is a famous tv star but the survival goddess wasn't prepared for the tidal wave that rolled the cruise ship she and her twin were vacationing on. Adrift on the restless ocean, Kindle will have to use all she's learned to stay alive. Come see what happens to them and the rest of America. 12/21/12. It's coming. Is this what it will look like?
