Catch Me If You Can Frank W. Abagnale, Stan

Redding, 2002-11-19 The uproarious, bestselling true story of the world's most sought-after con man, immortalized by Leonardo DiCaprio in DreamWorks' feature film of the same name, from the author of Scam Me If You Can. Frank W. Abagnale, alias Frank Williams, Robert Conrad, Frank Adams, and Robert Monjo, was one of the most daring con men, forgers, imposters, and escape artists in history. In his brief but notorious criminal career, Abagnale donned a pilot's uniform and copiloted a Pan Am jet, masqueraded as the supervising resident of a hospital, practiced law without a license, passed himself off as a college sociology professor, and cashed over \$2.5 million in forged checks, all before he was twenty-one. Known by the police of twenty-six foreign countries and all fifty states as The Skywayman, Abagnale lived a sumptuous life on the lam—until the law caught up with him. Now recognized as the nation's leading authority on financial foul play, Abagnale is a charming rogue whose hilarious, stranger-than-fiction international escapades, and ingenious escapes—including one from an airplane—make *Catch Me If You Can* an irresistible tale of deceit.

Scam Me If You Can Frank Abagnale, 2019-08-27 Are

you at risk of being scammed? Former con artist and bestselling author of *Catch Me If You Can* Frank Abagnale shows you how to stop scammers in their tracks. Maybe you're wondering how to make the scam phone calls stop. Perhaps someone has stolen your credit card number. Or you've been a victim of identity theft. Even if you haven't yet been the target of a crime, con artists are always out there, waiting for the right moment to steal your information, your money, and your life. As one of the world's most respected authorities on the subjects of fraud,

forgery, and cyber security, Frank Abagnale knows how scammers work. In *Scam Me If You Can*, he reveals the latest tricks that today's scammers, hackers, and con artists use to steal your money and personal information--often online and over the phone. Using plain language and vivid examples, Abagnale reveals hundreds of tips, including: The best way to protect your phone from being hacked The only time you should ever use a debit card The one type of photo you should never post on social media The only conditions under which you should use WiFi networks at the airport The safest way to use an ATM With his simple but counterintuitive rules, Abagnale also makes use of his insider intel to paint a picture of cybercrimes that haven't become widespread yet.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled *The Last Lecture*. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—*Really Achieving Your Childhood Dreams*—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . .

and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Just Watch Me Jeff Lindsay, 2019-12-03 A masterful thief plots an impossible crime—stealing the Iranian Crown Jewels. From the author of the wildly successful Dexter series comes a new, mesmerizing bad guy we can root for: Riley Wolfe. He's a master thief, expert at disguise, and not averse to violence when it's needed. It's no accident, though, that Riley targets the wealthiest 0.1 percent and is willing to kill them when they're in his way: he despises the degenerate and immoral rich and loves stealing their undeserved and unearned valuables. In this series launch, Riley aims for an extraordinary target in a heist that will make history. Riley will try to steal the Crown Jewels of Iran. Yes, these jewels are worth billions, but the true attraction for grabbing them comes down to one simple fact: it can't be done. Stealing these jewels is absolutely impossible. The collection is guarded by space-age electronics and two teams of heavily armed mercenaries. No one could even think of getting past the airtight security and hope to get

away alive, let alone with even a single diamond from the Imperial Collection. No one but Riley Wolfe. He's always liked a challenge. But this challenge may be more than even he can handle. Aside from the impenetrable security, Riley is also pursued by a brilliant and relentless cop who is barely a step behind him. With the aid of his sometime ally, a beautiful woman who is a master art forger, Riley Wolfe goes for the prize that will either make him a legend—or, more likely, leave him dead.

Sent to Watch David J. Lebenstein, 2021-04-14 Sent to

Watch By: David J. Lebenstein “Sent to watch, but not to affect”—such is the Noninterference Protocol that binds all of the agents in the Interplanetary Intelligence Service whose mission is to infiltrate leading nations on primitive planets to help the Confederation of Civilized Planets determine when a world is ready to be formally contacted and offered membership in the Confederation. Unni Vlaytork and her two fellow agents, Ori Svavapass and Urelt Sraymlat, are assigned to a faction on “Earth 48” known as the British Empire during the Regency of Prince George. They find themselves at odds with their agency’s Noninterference Protocol when a cruel and aggressive starfaring empire is discovered in another part of the galaxy. The agents conceive a plan to accelerate the technical development of the planet, hoping to have Earth 48 admitted to the Confederation before the invaders arrive. Two of the agents are to marry, have a son, and groom him to be a future prime minister who would carry out the necessary reforms. The success of the plan hinges on hiding this apparent violation of the Noninterference Protocol from an inflexible superior officer. But there is another complication: both Ori and Urelt are in love with Unni.
