Racing the Street Robert J. Topinka, 2020-08-18 **Racing the Street** traces the history of how race was used as a technology for gathering, assembling, and networking the early cosmopolitan city. Drawing on an archive that ranges from engineering blueprints and parliamentary committee reports to sensationalistic pamphlets and periodical press accounts, Robert J. Topinka conducts an original genealogy of the nineteenth-century London street, demonstrating how race as a technology gathers, sorts, and assembles the teeming particularities of the street into a manageable network. This interdisciplinary study offers a novel approach to the intersections of race, rhetoric, media, technology, and urban government.

Street Therapists Ana Y. Ramos-Zayas, 2012-04-09 Drawing from almost a decade of ethnographic research in largely Brazilian and Puerto Rican neighborhoods in Newark, New Jersey, Ana Y. Ramos-Zayas, in *Street Therapists*, examines how affect, emotion, and sentiment serve as waypoints for the navigation of interracial relationships among US-born Latinos, Latin American migrants, blacks, and white ethnics. Tackling a rarely studied dynamic approach to affect, Ramos-Zayas offers a thorough—and sometimes paradoxical—new articulation of race, space, and neoliberalism in US urban communities. After looking at the historical, political, and economic contexts in which an intensified connection between affect and race has emerged in Newark, New Jersey, *Street Therapists* engages in detailed examinations of various community sites—including high schools, workplaces, beauty salons, and funeral homes, among others—and secondary sites in Belo Horizonte, Brazil and San Juan to uncover the ways US-born Latinos and Latin American migrants interpret and analyze

everyday racial encounters through a language of psychology and emotions. As Ramos-Zayas notes, this emotive approach to race resurrects Latin American and Caribbean ideologies of “racial democracy” in an urban US context—and often leads to new psychological stereotypes and forms of social exclusion.

Extensively researched and thoughtfully argued, *Street Therapists* theorizes the conflictive connection between race, affect, and urban neoliberalism.

Snake Eyes - A Street Racing Urban Fantasy Pippa

DaCosta, 2021-04-27 Unlucky people die around Jaz Archer. Like her sister, killed in an illegal street race two years ago. That’s how the press told it. But Jaz knows the truth. Able to manipulate luck, Jaz took too much, and killed her sister to save herself. Haunted by her sister’s screams, Jaz abandoned Davin Carino and his street-racing crew, and made a new life for herself managing a casino far away from the buzz of fast cars and the enigmatic Davin. But you can’t outrun luck, and when a freak accident at the casino claims another life, Jaz is to blame once again. Reeling from guilt and more alone than ever, the timely arrival of a mysterious woman throws Jaz’s world into chaos. The woman tells Jaz magic is real, and it can bring back her sister. All Jaz has to

do is win an ancient relic disguised as a superbike in a street-race. The offer seems too good to be true, but if there's a catch, Jaz doesn't care. She'll do anything to get her sister back. Including returning to Davin Carino and the crew she walked away from. If there's a magical bike ripping up the street-racing scene, Davin will know. It's time to go back to the street, time to race. Time to win. No matter the cost... The Fast & The Furious with magic, Snake Eyes is a heart-pounding, street racing urban fantasy. Previously published as Run of Luck, Snake Eyes has been substantially extended, improved and updated, including new characters, emerging battle couple, more heat, and an entirely new ending. So buckle up, hold on tight, and enjoy the ride into the magically enhanced LA street-racing scene.

The Address Book Deirdre Mask, 2020-04-14 Finalist for the 2020 Kirkus Prize for Nonfiction | One of Time Magazine's 100 Must-Read Books of 2020 | Longlisted for the 2020 Porchlight Business Book Awards An entertaining quest to trace the origins and implications of the names of the roads on which we reside. —Sarah Vowell, The New York Times Book Review When most people think about street addresses, if they think of them at all, it is in their capacity to ensure that the postman can deliver mail or a

traveler won't get lost. But street addresses were not invented to help you find your way; they were created to find you. In many parts of the world, your address can reveal your race and class. In this wide-ranging and remarkable book, Deirdre Mask looks at the fate of streets named after Martin Luther King Jr., the wayfinding means of ancient Romans, and how Nazis haunt the streets of modern Germany. The flipside of having an address is not having one, and we also see what that means for millions of people today, including those who live in the slums of Kolkata and on the streets of London. Filled with fascinating people and histories, *The Address Book* illuminates the complex and sometimes hidden stories behind street names and their power to name, to hide, to decide who counts, who doesn't—and why.

Civil War on Race Street Peter B. Levy, 2003 In addition to providing valuable insights into Richardson and Agnew, this study is one of the few to examine a community in a border state. Levy demonstrates that the goals of the movement were not universal, that strategies underwent constant political and social change, and that the impact on the micro level was not as clean and immediate as historians would have us believe.--BOOK JACKET.

Street Shadows Jerald Walker, 2010-01-26 Masterfully told, marked by irony and humor as well as outrage and a barely contained sadness, Jerald Walker's *Street Shadows* is the story of a young man's descent into the "thug life" and the wake-up call that led to his finding himself again. Walker was born in a Chicago housing project and raised, along with his six brothers and sisters, by blind parents of modest means but middle-class aspirations. A boy of great promise whose parents and teachers saw success in his future, he seemed destined to fulfill their hopes. But by age

fourteen, like so many of his friends, he found himself drawn to the streets. By age seventeen he was a school dropout, a drug addict, and a gangbanger, his life spiraling toward the violent and premature end all too familiar to African American males. And then came the blast of gunfire that changed everything: His coke-dealing friend Greg was shot to death—less than an hour after Walker scored a gram from him. “Twenty-five years later, tossing the drug out the window is still the second most difficult thing I’ve ever done. The most difficult thing is still that I didn’t follow it.” So begins the story, told in alternating time frames, of the journey that Walker took to become the man he is today—a husband, father, teacher, and writer. But his struggle to escape the long shadows of the streets was not easy. There were racial stereotypes to overcome—his own as well as those of the very white world he found himself in—and a hard grappling with the meaning of race that came to an unexpected climax on a trip to Africa. An eloquent account of how the past shadows but need not determine the present, *Street Shadows* is the opposite of a victim narrative. Walker casts no blame (except upon himself), sheds no tears (except for those who have not shared his good fortune), and refuses the temptations of self-pity and self-exoneration. In the end,

what Jerald Walker has written is a stirring portrait of two Americas—one hopeless, the other inspirational—embodied within one man.

Letters, Kinship, and Social Mobility in Nigeria Olufemi

Vaughan, 2023-08-15 In 2003, Olufemi Vaughan received from his ninety-five-year-old father, Abiodun, a trove of more than three thousand letters written by four generations of his family in Ibadan, Nigeria, between 1926 and 1994. The people who wrote these letters had emerged from the religious, social, and educational institutions established by the Church Missionary Society, the preeminent Anglican mission in the Atlantic Nigerian region following the imposition of British colonial rule. Abiodun, recruited to be a civil servant in the colonial Department of Agriculture, became a leader of a prominent family in Ibadan, the dominant Yoruba city in southern Nigeria. Reading deeply in these letters, Vaughan realized he had a unique set of sources to illuminate everyday life in modern Nigeria. Letter writing was a dominant form of communication for Western-educated elites in colonial Africa, especially in Nigeria. Exposure to the modern world and a growing sense of nationalism were among the factors that led people to begin exchanging letters, particularly in their interactions with

British colonial authorities. Through careful textual analysis and broad contextualization, Vaughan reconstructs dominant storylines, including themes such as kinship, social mobility, Western education, modernity, and elite consolidation in colonial and post-colonial Nigeria. Vaughan brings his prodigious skills as an interdisciplinary scholar to bear on this wealth of information, bringing to life a portrait, at once intimate and expansive, of a community during a transformative period in African history.

Black in Place Brandi Thompson Summers, 2019-09-09 While Washington, D.C., is still often referred to as Chocolate City, it has undergone significant demographic, political, and economic change in the last decade. In D.C., no place represents this shift better than the H Street corridor. In this book, Brandi Thompson Summers documents D.C.'s shift to a post-chocolate cosmopolitan metropolis by charting H Street's economic and racial developments. In doing so, she offers a theoretical framework for understanding how blackness is aestheticized and deployed to organize landscapes and raise capital. Summers focuses on the continuing significance of blackness in a place like the nation's capital, how blackness contributes to our understanding of contemporary urbanization, and how it laid an important foundation

for how Black people have been thought to exist in cities. Summers also analyzes how blackness—as a representation of diversity—is marketed to sell a progressive, cool, and authentic experience of being in and moving through an urban center. Using a mix of participant observation, visual and media analysis, interviews, and archival research, Summers shows how blackness has become a prized and lucrative aesthetic that often excludes D.C.'s Black residents.
