**Romanesque Saints, Shrines, and Pilgrimage** John McNeill,Richard Plant,2020-02-20 The 23 chapters in this volume explore the material culture of sanctity in Latin Europe and the Mediterranean between c. 1000 and c. 1220, with a focus on the ways in which saints and relics were enshrined, celebrated, and displayed. Reliquary cults were particularly important during the Romanesque period, both as a means of affirming or promoting identity and as a conduit for the divine. This book covers the geography of sainthood, the development of spaces for reliquary display, the distribution of saints across cities, the use of reliquaries to draw attention to the attributes, and the virtues or miracle-working character of particular saints. Individual essays range from case studies on Verona, Hildesheim, Trondheim and Limoges, the mausoleum of Lazarus at Autun, and the patronage of Mathilda of Canossa, to reflections on local pilgrimage, the deployment of saints as physical protectors, the use of imagery where possession of a saint was disputed, island sanctuaries, and the role of Templars and Hospitallers in the promotion of relics from the Holy Land. This book will serve historians and archaeologists studying the Romanesque period, and those interested in material culture and religious practice in Latin Europe and the Mediterranean c.1000–c.1220.

**Saints on Sunday** Gail Ramshaw,2018-07-02 How might Ambrose of Milan, Hildegard of Bingen, and Catherine of Siena inspire us to improve Sunday worship? What about Lawrence, John of Damascus, Thomas Cranmer, Johannes Kepler, Margaret Fell, and Dorothy Day? Even Amy Carmichael can point our assemblies toward more profound worship. In *Saints on Sunday*, Lutheran laywoman Gail Ramshaw, listening to twenty-four sainted voices, proposes how our past might enliven our future. Characterized by rigorous scholarship and no-nonsense honesty, her essays suggest ways to enrich the gathering, word, meal, and sending of our assemblies on Sunday.

**Promoting the Saints** Ottó Gecser,József Laszlovszky,Balázs Nagy,Marcell Sebők,Katalin Szende,2010-07-01 The studies in this volume concentrate on a complex set of socio-cultural phenomena, the cult of saints, in a variety of regions from Egypt to Poland, with a focus on Italy and Central Europe. The subjects of the contributions range in time from the fourth until the eighteenth century. The diversity of approaches adopted by the contributors—from literary analysis and historical anthropology to archaeology and art history—represents that open and multidisciplinary historical research that characterizes the work of Gábor Klaniczay to whom these essays are dedicated.

**Microsoft Windows Communication Foundation** Craig McMurtry,Marc Mercuri,Nigel Watling,2006 Windows Communication Foundation (WCF--formerly codename Indigo) ties together previously separate Microsoft connectivity technologies (Web Services, MSMQ, COM+, .NET Remoting, etc.) into a single programming model. WCF is part of the WinFX platform that is essentially the Windows Programming SDK that will ship with Windows Vista. This title addresses an unmet need in the marketplace as there are no books, or much documentation at all, of the post-Beta 1 WCF programming model and therefore brings developers the information they need to be prepared to work with this technology upon its release. The reader will gain a comprehensive understanding of how to apply the Windows Communication Foundation to almost any distributed computing problem, from enterprise scale to peer-to-peer. Most importantly, after reading the book and working through the examples, they will actually have considerable experience using WCF, because the book and accompanying CD take the reader through the steps of actually building Windows Communication Foundation solutions.

**John the Evangelist: a Message to the Saints** Cres Smith,2005-04-14 John the Evangelist: A message to the Saints John took the time to write his gospel long after the other gospels had been written and before the critical challenges to the Christian Church came after the first century. John was unique in his relationship to Christ. As a young man, he knew Jesus from the time he was baptized. He must have even known him before the baptism since his mother and Jesus mother, Mary, were sisters. Jesus was near thirty years old when John was yet a teen age boy. Had John known Jesus he undoubtedly would have been impressed with his older cousin and would have known of Jesus life before he started his mission. Johns presence at the wedding in Cana is a good example of that relationship. At the later of Johns life, he saw the fruits of Jesus ministry as the gospel was spread throughout the world. John saw the threats to the infant church and prepared a gospel that would keep the doctrine pure. Johns Gospel served as a stalwart testimony in defending the beliefs of the Christian Church. He knew what the needs of the Saints would be down through the centuries and prepared us for the doctrinal threats. Because of the uniqueness of his writing it is analyzed as a nearly independent message, in an attempt to understand Johns message clearly. No particular secular doctrine of Christian Church philosophy is to be proven or purposefully supported. An attempt is made to understand John, as he intended, by analyzing the verses he has written one by one, just as one would read the scriptures in a study class. At times the study looks forward or back for support of his writing, but few references are made to other scriptures outside Johns writing and the investigation is limited to what John wrote. External references are used to clarify the translation and historical accuracy. Obviously, this work can only be accomplished with the support of the Holy Ghost, and this book is a simple attempt to use the spiritual power available to us to understand and learn. Many may say that this is a fool hearty attempt since they have had unreliable experiences in working with the spirit. On the other hand, if the writings are spiritual then the spirit can best interpret them for us. Great insight has been obtained by this approach and is available to the reader to strengthen him as John intended. First and foremost Johns writing is a testimony of Jesus the Christ as the Savior of the World. John was with Jesus from the beginning of his ministry and through the final persecution. To be with Christ, as John was, is to look at the Savior through his eyes. We can see as John saw all that took place with Jesus. We are well aware that Jesus was of a earthly mother and a Godly Father. The impact of this dichotomy is seldom discussed as John brings it forth. Just how human was Jesus? Did he really see and feel as another human might? Johns gospel takes us through Jesus life and experiences as we learn just how human he was. He obeyed his mother at Cana even thought he would have preferred not to. Jesus wept for Lazarus although he had the power to avoid the grief. Jesus human traits and how they changed through his experiences are discussed. Knowing that he was human, and suffered as a human, brings the Savior so much closer to us and removes any ambiguity that Jesus is the Christ. John was at Jesus baptism. He saw the Baptist take Jesus into the water and when he emerged he saw the sign of the dove as an indication of the Holy Ghost and the voice of the Father as he spoke. John was a young man and he wrote as he witnessed. With the signs that were displayed came the realization by the Baptist that this was indeed the Savior that he had prepared his whole life to baptize. How important it was that Jesus be baptized and that the Baptist was there to perform it. No one on earth had the power or authority to baptize the Savior. One can only imagine the happiness of t

**Text, Image, Message** Leslie D. Ross,1994-05-30 Ross provides a broad survey of pictures and texts concerning saints, from the Early Christian through the late Gothic period. Both Western and Byzantine material is included. Beginning with the earliest pictures of and stories about saints, the book traces the evolution of hagiographic imagery primarily in manuscript contexts. Because of its cross-disciplinary nature, it will be of interest to audiences interested in Early Christian, Byzantine, and Western medieval culture: religion, society, politics, and art. No other book to date is organized similarly in providing detailed descriptions for the identification of medieval manuscripts with hagiographic texts and illustrations.

**Saints and Signs** Massimo Leone,2010-08-31 *Saints and Signs* analyzes a corpus of hagiographies, paintings, and other materials related to four of the most prominent saints of early modern Catholicism: Ignatius of Loyola, Philip Neri, Francis Xavier, and Therese of Avila. Verbal and visual documents – produced between the end of the Council of Trent (1563) and the beginning of the pontificate of Urban VIII (1623) – are placed in their historical context and analyzed through semiotics – the discipline that studies signification and communication – in order to answer the following questions: How did these four saints become signs of the renewal of Catholic spirituality after the Reformation? How did their verbal and visual representations promote new Catholic models of religious conversion? How did this huge effort of spiritual propaganda change the modern idea of communication? The book is divided into four sections, focusing on the four saints and on the particular topics related to their hagiologic identity: early modern theological debates on grace (Ignatius of Loyola); cultural contaminations between Catholic internal and external missions (Philip Neri); the Christian identity in relation to non-Christian territories (Francis Xavier); the status of women in early modern Catholicism (Therese of Avila).

*The Papacy and Communication in the Central Middle Ages* Iben Fonnesberg-Schmidt, William Kynan-Wilson, Gesine Oppitz-Trotman, Emil Lauge Christensen, 2021-05-13 This volume explores papal communication and its reception in the period c.1100–1300; it presents a range of interdisciplinary approaches and original insights into the construction of papal authority and local perceptions of papal power in the central Middle Ages. Some of the chapters in this book focus on the visual, ritual and spatial communication that visitors encountered when they met the peripatetic papal curia in Rome or elsewhere, and how this informed their experience of papal self-representation. The essays analyse papal clothing as well as the iconography, architecture and use of space in papal palaces and the titular churches of Rome. Other chapters explore communication over long distances and analyse the role of gifts and texts such as letters, sermons and historical writings in relation to papal communication. Importantly, this book emphasises the plurality of responses to papal communication by engaging with the reception of papal messages by different audiences, both secular and ecclesiastical, and in relation to several geographic regions including England, France, Ireland, Italy and Switzerland. The chapters in this book were originally published as a special issue of the Journal of Medieval History.

*Symbolic Identity and the Cultural Memory of Saints* Anu Mänd, Nils Holger Petersen, Sebastián Salvadó, 2018-07-27 This volume examines the relationship between medieval cults of saints and regional and national identity formation in Europe both during and, to some extent, beyond the Middle Ages. It studies how collective identities have been expressed through saints' cults and their appropriations in texts, visual representations, and music. Attention is given to various aspects of the role of medieval saints' cults in European identity formation, as saints were used in the service of both religious and political agendas. Focusing on a range of European regions, this volume uses cults of medieval saints and their religious, cultural and political appropriations over time as a vehicle for studying changing cultural and social values. The articles here report research carried out under the European Science Foundation's collaborative EuroCORECODE project: Symbols that Bind and Break Communities: Saints' Cults as Stimuli and Expressions of Local, Regional, National and Universalist Identities (2010–2013/14), an international, interdisciplinary research venture funded by the National Research Councils of five countries: Austria, Denmark, Estonia, Hungary, and Norway.

**The Religious Figural Imagery of Byzantine Lead Seals II** John A. Cotsonis, 2020-03-19 The articles republished in this volume are ground-breaking studies that employ a large body of religious figural imagery of Byzantine lead seals ranging from the 6th to the 15th century. A number of the studies present tables, charts and graphs in their analysis of iconographic trends and changing popularity of saintly figures over time. And since many of the seals bear inscriptions that include the names, titles or offices of their owners, information often not given for the patrons of sacred images in other media, these diminutive objects permit an investigation into the social use of sacred imagery through the various sectors of Byzantine culture: the civil, ecclesiastical and military administrations. The religious figural imagery of the lead seals, accompanied by their owners' identifying inscriptions, offers a means of investigating both the broader visual piety of the Byzantine world and the intimate realm of their owners' personal devotions. Other studies in the volume are devoted to rare or previously unknown sacred images that demonstrate the value of the iconography of Byzantine lead seals for Byzantine studies in general. This volume includes various articles focusing on sphragistic images of saints and on the religious imagery of Byzantine seals as a means of investigating the personal piety of seal owners, as well as the wider realm of the visual piety and religious devotions of Byzantine culture at all levels. A companion volume includes studies dedicated to the image of Christ, primarily found on imperial seals, various images of the Virgin, and narrative or Christological scenes. (CS1086).

*The Political Lives of Saints* Angie Heo, 2018-11-08 Since the Arab Spring in 2011 and ISIS's rise in 2014, Egypt's Copts have attracted attention worldwide as the collateral damage of revolution and as victims of sectarian strife. Countering the din of persecution rhetoric and Islamophobia, *The Political Lives of Saints* journeys into the quieter corners of divine intercession to consider what martyrs, miracles, and mysteries have to do with the more routine challenges faced by Christians and Muslims living together under the modern nation-state. Drawing on years of extensive fieldwork, Angie Heo argues for understanding popular saints as material media that organize social relations between Christians and Muslims in Egypt toward varying political ends. With an ethnographer's eye for traces of antiquity, she deciphers how long-cherished imaginaries of holiness broker bonds of revolutionary sacrifice, reconfigure national sites of sacred territory, and pose sectarian threats to security and order. A study of tradition and nationhood at their limits, *The Political Lives of Saints* shows that Coptic Orthodoxy is a core domain of minoritarian regulation and authoritarian rule, powerfully reversing the recurrent thesis of its impending extinction in the Arab Muslim world--Provided by publisher.

*New Saints in Late-Mediaeval Venice, 1200–1500* Karen E. McCluskey, 2019-10-08 This book focuses on the comparatively unknown cults of new saints in late-mediaeval Venice. These new saints were near-contemporary citizens who were venerated by their compatriots without official sanction from the papacy. In doing so, the book uncovers a sub-culture of religious expression that has been overlooked in previous scholarship. The study highlights a myriad of hagiographical materials, both visual and textual, created to honour these new saints by members of four different Venetian communities: The Republican government; the monastic orders, mostly Benedictine; the mendicant orders; and local parishes. By scrutinising the hagiographic portraits described in painted vita panels, written vitae, passiones, votive images, sermons and sepulchre monuments, as well as archival and historical resources, the book identifies a specifically Venetian typology of sanctity tied to the idiosyncrasies of the city's site and history. By focusing explicitly on local typological traits, the book produces an intimate and complex portrait of Venetian society and offers a framework for exploring the lived religious experience of late-mediaeval societies beyond the lagoon. As a result, it will be of keen interest to scholars of Venice, lived religion, hagiography, mediaeval history and visual culture.
