A House on Fire John A. Jackson, 2004-11-15 If You Don't Know Me By Now, The Love I Lost, The Soul Train Theme, Then Came You, Ain't No Stoppin' Us Now--the distinctive music that became known as Philly Soul dominated the pop music charts in the 1970s. In *A House on Fire*, John A. Jackson takes us inside the musical empire created by Kenny Gamble, Leon Huff, and Thom Bell, the three men who put Philadelphia Soul on the map. Here is the eye-opening story of three of the most influential and successful music producers of the seventies. Jackson shows how Gamble, Huff, and Bell developed a black recording empire second only to Berry Gordy's Motown, pumping out a string of chart-toppers from Harold Melvin & the Blue Notes, the Spinners, the O'Jays, the Stylistics, and many others. The author underscores the endemic racism of the music business at that time, revealing how the three men were blocked from the major record companies and outlets in Philadelphia because they were black, forcing them to create their own label, sign their own artists, and create their own sound. The sound they created--a sophisticated and glossy form of rhythm and blues, characterized by crisp, melodious harmonies backed by lush, string-laden orchestration and a hard-driving rhythm section--was a glorious success, producing at least twenty-eight gold or platinum albums and thirty-one gold or platinum singles. But after their meteoric rise and years of unstoppable success, their production company finally failed, brought down by payola, competition, a tough economy, and changing popular tastes. Funky, groovy, soulful--Philly Soul was the classic seventies sound. *A House on Fire* tells the inside story of this remarkable musical phenomenon.

Giordano Bruno and the Kabbalah Karen Silvia DeLeón-Jones, 2004-01-01 Giordano Bruno (1548?1600), a defrocked Dominican monk, was convicted of heresy by the Roman Catholic Inquisition and burned at the stake in Rome. He had spent fifteen years wandering throughout Europe on the run from Counter-Reformation intelligence and eight years in prison under interrogation. The author of more than sixty works on mathematics, science, ethics, philosophy, metaphysics, the art of memory and esoteric mysticism, Bruno had a profound impact on Western thought. Until now his involvement with Jewish mysticism has never been fully explored. Karen Silvia de León-Jones presents an engaging and illuminating discussion of his mystical understanding and use of Jewish and Christian Kabbalah, theology, and philosophy, including the famous *Hermetica*, and especially his exploration and use of magic to reveal the mysteries of the universe and the divine.

Buster Keaton's Crew Lisle Foote, 2014-11-19 Buster Keaton told an interviewer in 1965, "When I'm working alone, the cameraman, the prop man, the electrician, these are my eyes out there.... They knew what they were talking about." Drawn from film trade magazines, newspapers, interviews and public records, this book tells the previously unpublished stories of the behind-the-scenes crew who worked on Keaton's silent films—like Elgin Lessley, who went

from department store clerk to chief cameraman, and Fred Gabourie, who served as an army private in the Spanish American War before he became Keaton's technical director. "I'd ask, 'Did that work the way I wanted it to?' and they'd say yes or no," Keaton said of his crew. He couldn't have made his films without them.

"The Concept of the 'Master' in Art Education in Britain and Ireland, 1770 to the Present " Matthew C. Potter, 2017-07-05 A novel investigation into art pedagogy and constructions of national identities in Britain and Ireland, this collection explores the student-master relationship in case studies ranging chronologically from 1770 to 2013, and geographically over the national art schools of England, Ireland, Scotland and Wales. Essays explore the manner in which the Old Masters were deployed in education; fuelled the individual creativity of art teachers and students; were used as a rhetorical tool for promoting cultural projects in the core and periphery of the British Isles; and united as well as divided opinions in response to changing expectations in discourse on art and education. Case studies examined in this book include the sophisticated tradition of 'academic' inquiry of establishment figures, like Joshua Reynolds and Frederic Leighton, as well as examples of radical reform undertaken by key individuals in the history of art education, such as Edward Poynter and William Coldstream. The role of 'Modern Masters' (like William Orpen, Augustus John, Gwen John and Jeff Wall) is also discussed along with the need for students and teachers to master the realm of art theory in their studio-based learning environments, and the ultimate pedagogical repercussions of postmodern assaults on the academic bastions of the Old Masters.

Bahá'í Ethics in Light of Scripture: Virtues and divine commandments Udo Schaefer, 2007 There is a fundamental discrepancy between man as he is and man as he could be, if only he recognized his true being and purpose. Ethics is the discipline by which man can understand how he can pass from the first condition to the second. Udo Schaefer's Baha'i Ethics in Light of Scripture is an attempt to analyse the underlying structures and detect the interior architecture of the Baha'i moral system and is a step towards developing a Baha'i moral theology. Doctrinal Fundamentals, the first of two volumes, provides a historical overview of the Baha'i Faith, a systematic survey of its doctrines and an overview of the origin and derivation of moral values. It considers the metaphysical nature of human beings and human responsibilities, looks at reason and conscience, and explores liberty and its limits. Schaefer's second volume deals with concrete values - the virtues, divine commandments and principles of social ethics from a Baha'i perspective.

The Oxford Handbook of Catholic Theology Lewis Ayres, Medi Ann Volpe, 2019-03-28 The Oxford Handbook of Catholic Theology provides a one-volume introduction to all the major aspects of Catholic theology. Part One considers the nature of theological thinking, and the major topics of Catholic teaching, including the Triune God, the Creation, and the mission of the Incarnate Word. It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching. The treatments in the first part of the Handbook offer personal syntheses of Catholic teaching, but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation. Part Two focuses on the historical development of Catholic Theology. An initial section offers essays on some of Catholic theology's most important sources between 200 and 1870, and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870. This comprehensive volume features fifty-six original contributions by some of the best-known names in current Catholic theology from the Americas, Europe, Asia, and Africa. The chapters are written in an engaging and easily comprehensible style functioning both as a scholarly reference and as a survey of the field. There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts.

Dangerous Virtues John Koessler, 2020-09-01 Has the World Confused Evil with Righteousness? When sin is disguised as virtue, the path to cultivating righteousness becomes impossible. Such is the challenge Christians face in the modern age. Not long ago, most people would agree that the seven deadly sins

are in fact deadly. But ask them today, and you'll hear a different answer. Today, "anger" is often considered an admirable emotion, "lust" the only expression of love, and "greed" the unassailable right to "get what's yours." The world can rebrand sin all it wants and declare the death of truth, but it has no power against the truth of the Scripture. What God calls sin is sin—no matter what the world says. And sin always has the same destination—death and destruction. *Dangerous Virtues* examines how to recognize these seven deadly sins as they are subtly disguised in today's culture. Dr. John Koessler provides a theology of sin and why the Christian must develop a prayerful heart and discerning eye to identify where sin exists in a world where good is called evil and evil called good.

The Bourgeois Virtues Deirdre Nansen McCloskey, 2010-03-15 For a century and a half, the artists and intellectuals of Europe have scorned the bourgeoisie. And for a millennium and a half, the philosophers and theologians of Europe have scorned the marketplace. The bourgeois life, capitalism, Mencken's "booboisie" and David Brooks's "bobos"—all have been, and still are, framed as being responsible for everything from financial to moral poverty, world wars, and spiritual desuetude. Countering these centuries of assumptions and unexamined thinking is Deirdre McCloskey's *The Bourgeois Virtues*, a magnum opus that offers a radical view: capitalism is good for us. McCloskey's sweeping, charming, and even humorous survey of ethical thought and economic realities—from Plato to Barbara Ehrenreich—overturns every assumption we have about being bourgeois. Can you be virtuous and bourgeois? Do markets improve ethics? Has capitalism made us better as well as richer? Yes, yes, and yes, argues McCloskey, who takes on centuries of capitalism's critics with her erudition and sheer scope of knowledge. Applying a new tradition of "virtue ethics" to our lives in modern economies, she affirms American capitalism without ignoring its faults and celebrates the bourgeois lives we actually live, without supposing that they must be lives without ethical foundations. High Noon, Kant, Bill Murray, the modern novel, van Gogh, and of course economics and the economy all come into play in a book that can only be described as a monumental project and a life's work. *The Bourgeois Virtues* is nothing less than a dazzling reinterpretation of Western intellectual history, a dead-serious reply to the critics of capitalism—and a surprising page-turner.

Virtues, Morals and Markets Rojhat Avsar, 2024-03-05 Being oblivious to the motivational nuances behind human behavior could lead one to overlook the distinction that a good action does not always indicate a good character. Conversely, this book argues that such nuances are paramount. Focusing on character over consequences is vital because motivational differences have fundamental implications for the welfare of the individual and society. Drawing on Aristotelian virtue ethics, the book argues that the utilitarian economic rhetoric, the rise of identity politics, and the growing commodification have allowed an illusion that moral and economic lives can be detached to take root in our culture. The book provides a robust philosophical argument articulating the inadequacy of the modern conception of morality (as a set of universal rules) that underlies economics and many modern-day institutions and aims to create a greater awareness of the connection between virtuous character and leading fulfilled lives. Integrating contemporary empirical findings with theoretical/philosophical insights, the book develops a coherent and convincing framework that could help transform the welfare ideology that underlies economic policies and modern institutions. This book is essential for anyone interested in questions of ethics in economics and related fields, including welfare economics, microeconomics, political economy, institutional economics, evolutionary economics, social economics, and behavioral economics.

Sharing in Christ's Virtues Livio Melina, 2001 The encyclical *Veritatis splendor* (The Splendor of Truth) represents the first document of the magisterium

devoted to the foundations of the Catholic moral life. Though it was intended to confront a genuine crisis of moral disintegration and to offer positive directions for carrying out the work of renewing moral theology, it was fiercely criticized by theologians who regarded it as a simplistic and repressive document. Now, several years after the publication of the encyclical, Livio Melina offers an original contribution not only to the study of Veritatis splendor and the controversy surrounding it, but also to the field of moral theology as a whole. In *Sharing in Christ's Virtues*, Melina proposes a blueprint for organizing moral theology, one that is in harmony with the directions given in *Veritatis splendor* and one that likewise respects the requirements of both the theological and the scientific character of the discipline. He describes it as a Christocentrism of the virtues, which understands the moral life of Christians as a participation in the virtues of Christ by means of the grace of one's ecclesial incorporation in Christ. Melina argues that the renewal of moral theology should result in, first, a search for a more integral and dynamic understanding of human action, and second, a theological re-dimensioning of morality to better comprehend the synergy between human action and God's action. The contents of the book are: Part One: Toward a Christocentrism of the Virtues: Lines of Renewal 1. Between Crisis and Renewal: The Cultural and Theological Context of Morality Today 2. An Ethics of the Good Life and of Virtue 3. An Ethics Founded on the Truth About the Good of the Person 4. A Morality of Faith: The Salvific Relevance of Moral Action 5. A Christocentric Ethics of the Virtues Part Two: Ecclesial Sense and Moral Life: Perspectives and Developments 6. Ecclesial Dimensions of Moral Theology 7. The Call to Holiness in the Catechism of the Catholic Church: The Morality and Spirituality of Life in Christ 8. Moral Conscience and Communio: Toward a Response to the Challenge of Ethical Pluralism Livio Melina is professor of moral theology at the John Paul II Institute for Studies on Marriage and Family at the Lateran University in Rome. In addition to numerous articles, he has written and coauthored several books, including *La conoscenza morale. Linee di riflessione sul Commento di san Tommaso all'Etica Nicomachea*; *Morale: tra crisi e rinnovamento*; *Corso di bioetica. Il Vangelo della vita*; *Amor conjugal y vocacion a la santidad*; *Domanda sul bene e domanda su Dio*; and *Quale dimora per l'agire? Dimensioni ecclesilogiche della morale*. Melina's thought-provoking and powerful presentation of key themes in moral theology will be welcomed by English readers.... One comes away with an understanding and appreciation of the basis of Christian morality for the twenty-first century. The excellent bibliography lists authors from Aristotle to John Paul II, many not well known in the English literature on moral theology. . . . Melina's work is timely.--
