Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

*Buddhist Goddesses of India* Miranda Shaw,2015-08-25 The Indian Buddhist world abounds with goddesses--voluptuous tree spirits, maternal nurturers, potent healers and protectors, transcendent wisdom figures, cosmic mothers of liberation, and dancing female Buddhas. Despite their importance in Buddhist thought and practice, these female deities have received relatively little scholarly attention, and no comprehensive study of the female pantheon has been available. *Buddhist Goddesses of India* is the essential and definitive guide to divinities that, as Miranda Shaw writes, operate from transcendent planes of bliss and awareness for as long as their presence may benefit living beings. Beautifully illustrated, the book chronicles the histories, legends, and artistic portrayals of nineteen goddesses and several related human figures and texts. Drawing on a sweeping range of material, from devotional poetry and meditation manuals to rituals and artistic images, Shaw reveals the character, powers, and practice traditions of the female divinities. Interpretations of intriguing traits such as body color, stance, hairstyle, clothing, jewelry, hand gestures, and handheld objects lend deep insight into the symbolism and roles of each goddess. In addition to being a comprehensive reference, this book traces the fascinating history of these goddesses as they evolved through the early, Mahayana, and Tantric movements in India and found a place in the pantheons of Tibet and Nepal.--Publisher's website.

Space-Age Acronyms Reta C. Moser,2012-12-06 Acronym agglomeration is an affliction of the age, and there are acronym addicts who, in their weakness, find it impossible to resist them. More than once in recent months my peers have cautioned me about my apparent readiness to use not only acronyms, but abbreviations, foreign isms, codes, and other cryptic symbols rather than common, ordinary American words. Many among us, though, either have not received or have chosen to ignore such

advice. As a consequence, what we write and speak is full of mystery and confusion. It is then for the reader and listener and for the writer and speaker that Reta C. Moser has compiled this guide. Its effective application to the art of communication is urged. Such use should help avoid many of the misunderstandings involving terminology which occur daily. Although such misunderstandings are certainly crucial in humanistic and social situations, they are often of immediate import and the trigger to disaster in scientific, technical, and political situations. Some 15,000 acronyms and 25,000 definitions are provided (a 50- and 47 -percent increase over the 1964 edition!), with due credit to Miss Moser's diligence in making the compilation and with the acknowledgment that the acronymical phenomenon is very much with us. This edition, like the first, is certain to be of value to writers, librarians, editors, and others who must identify and deal with acronyms.

**The Potter's Freedom** James R. White, 2000 What is Dr. Geisler warning the Christian community about in his book, *Chosen But Free? A new cult? Secularism? False prophecy scenarios?* No. Dr. Geisler is sounding the alarm about a system of beliefs commonly called Calvinism. He insists that this belief system is theologically inconsistent, philosophically insufficient, and morally repugnant. This book is written as a reply to Dr. Geisler, but it is much more: it is a defense of the very principles upon which the Protestant Reformation was founded. Indeed, it is a defense of the very gospel itself! In a style that both scholars and laymen can appreciate, James White masterfully counters the evidence against so-called extreme Calvinism, defines what the Reformed Faith actually is, and concludes that the gospel preached by the Reformers is the very one taught in the pages of Scripture. - Back cover

Masters Theses in the Pure and Applied Sciences W. H. Shafer, 1982-02-01 Masters Theses in the Pure and Applied Sciences was first conceived, published, and disseminated by the Center for Information and Numerical Data Analysis and Synthesis (CINDAS) \* at Purdue University in 1957, starting its coverage of theses with the academic year 1955. Beginning with Volume 13, the printing and dissemination phases of the activity were transferred to University Microfilms/Xerox of Ann Arbor, Michigan, with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community. After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volume were handled by an international publishing house to assure improved service and broader dissemination. Hence, starting with Volume 18, Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York, and in the same year the coverage was broadened to include Canadian universities. All back issues can also be ordered from Plenum. We have reported in Volume 25 (thesis year 1980) a total of 10,308 theses titles from 27 Canadian and 214 United States universities. We are sure that this broader base for theses titles reported will greatly enhance the value of this important annual reference work. While Volume 25 reports theses submitted in 1980, on occasion, certain universities do report theses submitted in previous years but not reported at the time.
