Proceedings of the Sixth International Conference on Language, Literature, Culture, and Education (ICOLLITE 2022) Nuria Haristiani,Yulianeta Yulianeta,Yanty Wirza,Wawan Gunawan,Ari Arifin Danuwijaya,Eri Kurniawan,Dante Darmawangsa,Suharno Suharno,Nia Nafisah,Ernie Dyah Imperiani,2023-01-14 This is an open access book. The rapid advancement of technology has created new civilization in this digital era which affects almost all aspects of life including language, literature, culture, and education. The digital era brings opportunities as well as challenges that people have to deal with. Thus, some adjustments need to be done in order to keep up with those changes. Studies on language, literature, culture, and education need to be continuously conducted and developed to revitalize those aspects in facing the dynamic changes of the digital era. In relation to this, Faculty of Language and Literature Education, Universitas Pendidikan Indonesia (FPBS UPI) hosts this year's International Conference on Language, Literature and Culture (ICOLLITE) with the theme "Revitalization of Language, Literature, Culture, and Education in the Digital Era" as a forum for experts and professionals to share their research, ideas, and experiences on this issue. Presenters and participants are welcome to discuss and disseminate current issues and offer solutions to the challenges of our time. Discussions on current trends in digital literacies are expected to pave way to learn from each other for betterment as one big society of humankind, regardless of their social, economic, and cultural backgrounds.

Pro Android Python with SL4A Paul Ferrill,2011-08-21 Pro Android Python with SL4A is for programmers and hobbyists who want to write apps for Android devices without having to learn Java first. Paul Ferrill leads you from installing the Scripting Layer for Android (SL4A) to writing small scripts, to more complicated and interesting projects, and finally to uploading and packaging your programs to an Android device. Android runs scripts in many scripting languages, but Python, Lua, and Beanshell are particularly popular. Most programmers know more than one programming language, so that they have the best tool for whatever task they want to accomplish. Pro Android Python with SL4A explores the world of Android scripting by introducing you to the most important open-source programming languages that are available on Android-based hardware. Pro Android Python with SL4A starts by exploring the Android software development kit and then shows you how to set up an Eclipse-based Android development environment. You then approach the world of Android programming by using Beanshell, which runs on the Dalvik, and learning how to write small programs to administer an Android device. Next, discover how Lua, a lightweight language perfectly suited for scripting on smaller devices, can work with Android. Lua can be used for small but important tasks, like SMS encryption and synchronizing photos with flickr. Last, but certainly not least, you will discover the world of Python scripting for SL4A, and the power contained within the full range of Python modules that can combine with the Android SDK. You'll learn to write small location-aware apps to get you started, but by the end of this book, you'll find yourself writing fully GUI-fied applications running on the Android desktop! Pro Android Python with SL4A is rounded out with a chapter on distributing and packaging scripts, a skill that you'll find very useful as you reach out to a wider audience with your programs.

Crowdsourcing for Speech Processing Maxine Eskenazi,Gina-Anne Levow,Helen Meng,Gabriel Parent,David Suendermann,2013-02-15 Provides an insightful and practical introduction to crowdsourcing as a means of rapidly processing speech data. Intended for those who want to get started in the domain and learn how to set up a task, what interfaces are available, how to assess the work, etc. as well as for those who already have used crowdsourcing and want to create better tasks and obtain better assessments of the work of the crowd. It will include screenshots to show examples of good and poor interfaces; examples of case studies in speech processing tasks, going through the task creation process, reviewing options in the interface, in the choice of medium (MTurk or other) and explaining choices, etc. Provides an insightful and practical introduction to crowdsourcing as a means of rapidly processing speech data. Addresses important aspects of this new technique that should be mastered before attempting a crowdsourcing application. Offers speech researchers the hope that they can spend much less time dealing with the data gathering/annotation bottleneck, leaving them to focus on the scientific issues. Readers will directly benefit from the book's successful examples of how crowd-sourcing was implemented for speech processing, discussions of interface and processing choices that worked and choices that didn't, and guidelines on how to play and record speech over the internet, how to design tasks, and how to assess workers. Essential reading for researchers and practitioners in speech research groups involved in speech processing

Applied Cognitive Behavioral Therapy in Schools Diana Joyce-Beaulieu,Brian A. Zaboski,2021-06-01 Cognitive behavioral therapy (CBT) is an evidence-based psychosocial intervention appropriate for a plethora of problems including anxiety, depression, and emotion dysregulation. School-based practitioners can alleviate some of these concerns in young people by applying CBT in school settings, but to do so successfully, CBT must be modified to accommodate busy academic schedules, to include both parents and teachers, and to align with academic or other accommodations. Applied Cognitive Behavioral Therapy in Schools is a textbook for students and guide for practitioners looking to apply CBT in school settings. In this text, the assembled authors unpack CBT's theoretical development and provide an overview of its research support and applications for children and adolescents. Essentials for all CBT practitioners, such as behavioral activation, cognitive restructuring, and exposure and response prevention are covered in detail. The book also highlights relevant laws and ethics codes and walks readers through basic therapy micro skills. Special attention is paid to culturally responsive mental health services and key skills like psychoeducation, relaxation training, and mindfulness. The book concludes with tips for incorporating technology to supplement therapy and enhance client engagement. Printable handouts for children and families, as well as therapist worksheets are included in addition to school-based case studies that illustrate CBT's flexibility. Applied Cognitive Behavioral Therapy in Schools is the go-to resource for students learning CBT, early career school-based practitioners and more seasoned professionals looking to draw more proactively on CBT skills in practice.

Things Fall Apart Chinua Achebe,1994-09-01 “A true classic of world literature . . . A masterpiece that has inspired generations of writers in Nigeria, across Africa, and around the world.” —Barack Obama “African literature is incomplete and unthinkable without the works of Chinua Achebe.” —Toni Morrison Nominated as one of America’s best-loved novels by PBS’s The Great American Read Things Fall Apart is the first of three novels in Chinua Achebe's critically acclaimed African Trilogy. It is a classic narrative about Africa's cataclysmic encounter with Europe as it establishes a colonial presence on the continent. Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, Things Fall Apart explores one man's futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, Things Fall Apart provides one of the most illuminating and permanent monuments to African experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities.

CALL and professionalisation: short papers from EUROCALL 2021 Naouel Zoghalmi,Cédric Bruderemann,Cédric Sarré,Muriel Grosbois,Linda Bradley,Sylvie Thouësny,2021-12-13 The 2021 EUROCALL conference engaged just under 250 speakers from 40 different countries. Cnam Paris and Sorbonne Université joined forces to host and organise the event despite the challenging context due to the Covid-19 pandemic. Originally programmed to be held on site in the heart of Paris, France, the EUROCALL organising team and executive committee agreed to opt for a blended and then for a fully online conference. The theme of the 2021 EUROCALL conference was “CALL & Professionalisation”. This volume, a selection of 54 short papers by some of the EUROCALL 2021 presenters, offers a combination of research studies as well as practical examples fairly representative of the theme of the conference.

Se presentan intervenciones didácticas innovadoras a partir del uso de repositorios multimedia, de dispositivos móviles o de vídeos educativos. La inteligencia artificial también se suma en la enseñanza y se investiga cómo las herramientas automatiza­ [BIC];das pueden ser utilizadas para la producción y corrección de textos. El paso a la docencia virtual, la adaptación de la evaluación a distancia o el papel de docentes y familias en la era COVID se abordan como cuestiones esenciales en este nuevo escenario.

ICT-Based Assessment, Methods, and Programs in Tertiary Education Meri Yilan, Serpil,Koruyan, Kasim,2020-04-17 The use of information and communication technologies (ICTs) in education has revolutionized learning. Shifting beyond traditional mode of education, the integration of ICTs has become an advantage for students at tertiary education when used for the right purpose to enhance learning. The use of technology brings forth a flexible and accessible mode of education and bridges the gap of learning across borders. This enables students at tertiary level to have access to other universities and academic resource materials globally, thereby expanding their knowledge. Thus, it is crucial to consider the development of technology in education as part of a comprehensive pedagogical framework and take into account new developments in ICTs. ICT-Based Assessment, Methods, and Programs in Tertiary Education is an essential research publication that provides relevant theoretical frameworks and recent empirical research findings on integrating ICTs in tertiary education to enhance learning and allow students to take more control of their learning. Highlighting topics such as assessment, language learning, and e-learning, this book is ideal for teachers, professionals, academicians, researchers, administrators, curriculum designers, instructional designers, and students.

Ghost Boys Jewell Parker Rhodes,2018-04-17 A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only

the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

Health Professions Education Institute of Medicine,Board on Health Care Services,Committee on the Health Professions Education Summit,2003-07-01 The Institute of Medicine study Crossing the Quality Chasm (2001) recommended that an interdisciplinary summit be held to further reform of health professions education in order to enhance quality and patient safety. Health Professions Education: A Bridge to Quality is the follow up to that summit, held in June 2002, where 150 participants across disciplines and occupations developed ideas about how to integrate a core set of competencies into health professions education. These core competencies include patient-centered care, interdisciplinary teams, evidence-based practice, quality improvement, and informatics. This book recommends a mix of approaches to health education improvement, including those related to oversight processes, the training environment, research, public reporting, and leadership. Educators, administrators, and health professionals can use this book to help achieve an approach to education that better prepares clinicians to meet both the needs of patients and the requirements of a changing health care system.
