Sarcoidosis Francesco Bonella,Daniel A. Culver,Dominique Israël-Biet,2022-03-01 Recent reports indicate that the prevalence of sarcoidosis is rising and mortality in chronic sarcoidosis patients is increasing. With myriad clinical manifestations, and multi-system involvement, there is a need for all clinicians to have a working knowledge of the condition. This Monograph provides a comprehensive overview of the most recent advances in sarcoidosis. Opening with chapters on history, epidemiology and pathobiology, it goes on to provide in-depth coverage of: specific organ manifestations and general diagnostic pathways; traditional as well as innovative treatment strategies; and, importantly, patient quality-of-life assessment. This book will be useful to clinicians around the world.

Family Expenditures for Automobile and Other Transportation Day Monroe,1941 The genus Hylastes Erichson occurs throughout the continent of North America from Alaska and Central America and from the Atlantic coast to the Pacific coast. This publication is concerned with the forms found north of Mexico. Coniferous forests in every region of the United States contain one or several species of Hylastes. Most of the species of the genus favor the pines as hosts, but some spruces are also attacked, as well as Douglas fir and to a less extent the true firs.

Beyond Being Koelies and Kantráki Margriet Fokken,2018 This book traces the self-positioning of Hindostani people in the face of British and Dutch colonial practices. Originally from India and shipped to the Dutch colony of Suriname after the abolition of slavery, the Hindostani served as contract labourers to keep the plantation system afloat from 1873. Central to the book is the perspective of the Hindostani themselves. We travel alongside the Hindostani from the moment they were recruited and their movement through the depots awaiting shipment, their travel experiences, their arrival in Suriname, relocation to plantations, and their dispersal following the end of their contracts, either as city workers, or farmers. All along, the book poses the question of identification: how did Hindostani make sense of themselves, their fellow Hindostani, and Surinamese society? Stereotyped images make way for insight in lived experience of lower and higher caste, Hindus and Muslims, men and women.
