The Wealth Choice Dennis Kimbro,2013-02-19 It's no secret that these hard times have been even harder for the Black community. Approximately 35 percent of African Americans had no measurable assets in 2009, and 24 percent of these same households had only a motor vehicle. Dennis Kimbro, observing how the weight of the continuing housing and credit crises disproportionately impacts the African-American community, takes a sharp look at a carefully cultivated group of individuals who've scaled the heights of success and how others can emulate them. Based on a seven year study of 1,000 of the wealthiest African Americans, The Wealth Choice offers a trove of sound and surprising advice about climbing the economic ladder, even when the odds seem stacked against you. Readers will learn about how business leaders, entrepreneurs, and celebrities like Bob Johnson, Spike Lee, L. A. Reid, Herman Cain, T. D. Jakes and Tyrese Gibson found their paths to wealth; what they did or didn't learn about money early on; what they had to sacrifice to get to the top; and the role of discipline in managing their success. Through these stories, which include men and women at every stage of life and in every industry, Dennis Kimbro shows readers how to:

- Develop a wealth-generating mindset and habits
- Commit to lifelong learning
- Craft goals that match your passion
- Make short-term sacrifices for long-term gain
- Take calculated risks when opportunity presents itself

A Rich Man's Secret Ken Roberts, 1995 It's the key to wealth and wisdom. It's an intriguing mystery. It's a novel that will fascinate and educate. It's A Rich Man's Secret by Ken Roberts. Ken Roberts spent years studying self-help guides, moving from job to job, and worrying about how to achieve personal and professional success. He thought he knew the answer, but his schemes fizzled. Then he discovered the inner principle that you will learn in A Rich Man's Secret. This book is unique, with no recycled and fruitless adages. Does it work? Ken Roberts is more than just an American everyman who found success. Today, his philosophical and financial guidance has reached over 200,000 subscribers in eighty-six countries. His guides to prosperity have grossed over forty million dollars and have international acclaim. Rather than simply tell you the spiritual and financial truths (which could be ignored or overlooked for their simplicity), A Rich Man's Secret is an exciting novel that will touch your heart and instill you with his elegant and clear presentation of ancient tenets leading to success. The story is about Victor Truman, a person who represents many people. He spends his days scanning the want ads, going to get-rich-quick seminars and listening to talk radio. But his every effort leaves him impoverished in spirit . . . and in his wallet. One day, while retrieving an errant golf ball, he stumbles upon a forgotten woodland cemetery and a tombstone engraved with a strange message. Take the first step-no more, no less-and the next will be revealed. Puzzled, Victor Truman starts out to find out what this means. Is the tombstone really that of a wealthy industrialist? What are the next steps? Why do the clues seem to be left specifically for him? Crackling with the suspense of a detective story, yet soothing in its homespun wisdom and common sense, A Rich Man's Secret delivers scene upon scene of the quiet trials and tribulations we all experience during life. The conclusion will have you nodding in agreement at the way success can be had in all aspects of life: spiritual, emotional, and financial. Get A Rich Man's Secret for a better future.

Secrets of the Millionaire Mind T. Harv Eker, 2009-10-13 #1 New York Times, Wall Street Journal, and USA Today Bestseller! Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: Give me five minutes, and I can predict your financial future for the rest of your life! Eker does this by identifying your money and success blueprint. We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money-and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and revise it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen Wealth Files, which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

Wealthy Secrets John Gibson, 2010-03 People often search for get rich quick schemes or magic investments that will catapult them into success. In preparing for this book I examined my success as well as the success of many people I know. I found success had less to do with the What and more to do with the Who. Let me explain. People often search for what will cause them to be successful. If you look at successful people you will find there is no magic investment. I know millionaires who became successful through real estate; others who became successful through the web; others through starting their own business. The list can go on forever and ever. I did not see a common element in What they did but I did see a common element in Who they were. I realized success had more to do with the qualities they possessed and exhibited than what they did to become successful. This discovery is what motivated me to write this book.
