Black squares may not lie horizontally or vertically adjacent to another black square. The white squares must all remain connected to each other, and no unbroken line of white cells may extend into more than two rooms. Fans of sudoku and other puzzles will discover many exciting strategies that make solving heyawake a uniquely satisfying experience.

Shade the grid so that it contains a connected river of black squares. Each number in the grid is part of a different island, and the number indicates how many white squares that island contains.
