Buddhist Monuments And Temples Of Myanmar And Thailand W. Vivian De Thabrew,2014-03-11 This is a mainly pictorial work, featuring recent color photographs taken by the author of the many different styles and features of Buddhist images, stupas, or pagodas found in two of the most prominent Buddhist countries in Asia. Accompanying the photographs is the text describing the magnificent architectural heritage of Buddhism and also explaining the origin and development of the images and stupas. The photographs attempt to exhibit the physical expression of one of the world's major religions, which now has many adherents in the West as well as in the East. These Buddhist sites now attract many thousands of visitors, both pilgrims and tourists, all year round. This book showcases the most prominent sites for both the visitor and the armchair traveler. This is the second in the author's series of books on Buddhist architecture and iconography. He is, at present, working on a third volume, Buddhist Monuments and Temples of Cambodia and Laos.

State and Society in Modern Rangoon Donald M. Seekins,2014-06-17 While most of Asia’s major cities are increasingly homogenized by rapid economic growth and cultural globalization, Rangoon, which is Burma’s former capital and largest city, still bears the imprint of a unique and often turbulent history. It is the site of the Shwedagon Pagoda, a focus of Buddhist pilgrimage and devotion since the early second millennium C.E. that continues to play a major role in national life. In 1852, the British occupied Rangoon and made it their colonial capital, building a modern port and administrative center based on western designs. It became the capital of independent Burma in 1948, but in 2005 the State Peace and Development Council military junta established a new, heavily fortified capital at Naypyidaw, 320 kilometers north of the old capital. A major motive for the capital relocation was the regime’s desire to put distance between itself and Rangoon’s historically restive population. Reacting to the huge anti-government demonstrations of Democracy Summer in 1988, the new military regime used massive violence to pacify the city and sought to transform it in line with its supreme goal of state security. However, the Saffron Revolution of September 2007 showed that Rangoon’s traditions of resistance reaching back to the colonial era are still very much alive.

The Report: Myanmar 2018 ,2018 Although recent GDP growth has moderated from the double-digit highs of the early 2000s, it has remained above 5% for more than 25 years, supported by robust natural resource exports, steady foreign direct investment (FDI), rising incomes and private consumption, and rapid expansion of the industrial and services sectors. External headwinds and internal conflict have dampened the near-term outlook; however, the country’s long-term economic outlook remains positive, with rising investment in transport and power infrastructure expected to drive GDP and industrial growth, supported by a sharp increase in personal incomes and consumer spending.

Religion and Urbanism Yamini Narayanan,2015-11-19 Conceptions of 'sustainable cities' in the pluralistic and multireligious urban settlements of developing nations need to develop out of local cultural, religious and historical contexts to be inclusive and accurately respond to the needs of the poor, ethnic and religious minorities, and women. Religion and Urbanism contributes to an expanded understanding of 'sustainable cities' in South Asia by demonstrating the multiple, and often conflicting ways in which religion enables or challenges socially equitable and ecologically sustainable urbanisation in the region. In particular, this collection focuses on two aspects that must inform the sustainable cities discourse in South Asia: the intersections of religion and urban heritage, and religion and various aspects of informality. This book makes a much-needed contribution to the nexus between religion and urban planning for researchers, postgraduate students and policy makers in Sustainable Development, Development Studies, Urban Studies, Religious Studies, Asian Studies, Heritage Studies and Urban and Religious Geography.

What Next? C P Sharma,2021-02-01 This book is about an entrepreneur and a philanthropist, who worked his way up through life, chasing his dreams. It is about taking risks, challenges, innovation, employing an entrepreneur and freedom of doing something that gives satisfaction. The book covers the author’s early childhood, schooling and his impressions about the National Defence Academy, the Indian Navy and Merchant Navy as also the learning experience with an international crew in the oilfields. The author has travelled to over seventy countries, across all continents savouring the uniqueness of each country. The book is more of a travelogue and covers his personal travel experiences, adventures, beautiful places and peoples and quaint cultures; yet within this bewildering diversity, he could sense the essential unity. The author made friends with people while walking on the roadside, in a bus, cycling, sailing in yachts and boats and cruise ships both on rivers and on the sea, on flights, and while visiting small quaint villages as also the usual touristic places. It is about some places that people would have on their travel wish-list and the book should motivate them further. Some not so popular places are also covered. However, all places could not be covered in this volume. The author plans to cover these in a second volume. The narration is supplemented by a photo-section, a bonus for the reader.
