Subversion and Conformity of Literary Collage Magda Dragu, 2024-04-30
Subversion and Conformity of Literary Collage: Between Cut and Glue fills a gap in the current scholarship on literary collage, by addressing how different the interpretations of the concept are, depending on the author who uses the concept and the material and writers surveyed. The book studies writers who employed literary collage during the twentieth and twenty-first centuries, some whose works have been intensely analyzed from this perspective (William S. Burroughs and Walter Benjamin), but also some whose collage-writing style has recently been investigated by writers, being usually placed under the umbrella term of artist books (Stelio Maria Martini).

The Greatest Album Covers of All Time Barry Miles, Grant Scott, Johnny Morgan, 2016-10-01 With the resurgence of vinyl going from strength to strength, album cover art is as important as it's ever been. This sumptuous book brings together 250 of the greatest album covers of all time and is arranged chronologically, beginning in 1956. Our judging panel, drawn from the great and the good of the music industry, has selected the final 275 entries, giving their reasons for selection to accompany the illustrations. From rock 'n' roll to pop, R&B to jazz, blues and even folk, some of the album covers included are obvious classics, while others will surprise readers and jog memories. The chosen entries might not necessarily be of a best-selling release, but they are important artistically, stylistically or culturally. This fascinating book forms a wonderful visual record of this popular art form, and is an essential read for music fans the world over.

DADA, Surrealism, and the Cinematic Effect R. Bruce Elder, 2015-10-15 This book deals with the early intellectual reception of the cinema and the manner

in which art theorists, philosophers, cultural theorists, and especially artists of the first decades of the twentieth century responded to its advent. While the idea persists that early writers on film were troubled by the cinema's lowly form, this work proposes that there was another, largely unrecognized, strain in the reception of it. Far from anxious about film's provenance in popular entertainment, some writers and artists proclaimed that the cinema was the most important art for the moderns, as it exemplified the vibrancy of contemporary life. This view of the cinema was especially common among those whose commitments were to advanced artistic practices. Their notions about how to recast the art media (or the forms forged from those media's materials) and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century. This book, a companion to the author's previous, *Harmony & Dissent*, examines the Dada and Surrealist movements as responses to the advent of the cinema.
