**Maximum Performance** Jim Schild,2017-10-10 Since the early days of racing, Chrysler, Dodge, and Plymouth have dominated drag strips and race tracks. During 1955 alone, Chrysler 300s won 37 major stock car races and clinched both the NASCAR and AAA stock car championships. Although the impressive engine options of 1950s consistently out-performed the competition, they were a mere opening act for the extremes of performance that would be unleashed throughout the 1960s--the golden era of drag racing and factory super-performance cars. **Maximum Performance: Super Stock Drag Racing 1962-1969** details Chrysler's amazing dominance in this era. Its drivers were among drag racing's first paid professional racers, and this book covers the complete story of Mopar drag racing accompanied by historical imagery as well as contemporary photos. This is the real story behind Super Stock and Factory Experimental drag racing as told the people who lived it!--Publisher's description.

**Super Stock** Larry Davis,2010 Super Stock takes a look at what was the most popular class of drag racing - factory Super Stock. It traces the evolution of the cars, the engines, the rules, the personalities, and many of the teams, from its beginnings in the mid-1950s through to the 1960s and the era of the Super Stock 409s, Ramchargers, 421 Pontiacs, and 406 Fords. This was a time when Ford, Chrysler, and General Motors competed on a weekly basis at local drag strips throughout the country, and the saying ...win on Sunday, sell on Monday... had real significance in the marketplace. This is also the period that saw emergence of the term musclecar and the production of a whole class of American automobiles - which are now the most sought after by collectors, restorers, and performance enthusiasts.

**Total Performers** Charles R. Morris,2005 The 1960s was arguably the most important decade for drag racing. It had exciting cars, thrilling races, and most importantly, factory participation. Among the best high-performance cars and engines were those coming from Dearborn, Michigan. Ford Motor Company's Total Performance Years saw a breakthrough as drag racing helped the younger, performance- and style-conscious consumer to begin receiving some recognition. Factory participation in drag racing pushed the envelope for high performance developments. Ford's FE-series engine, Police Interceptor, GT 390, Single Overhead Cam, Cobra Jet, and Boss 429 are all covered in detail. See the cars and the drivers that made them famous - Dick Brannan's Goldfinger, Bill Lawton's Mystery Mustang, Dyno Don Nicholson's Eliminator Comet, Gas Ronda's stretched Mustang, Al Joenic's Batcar, and more. Accomplished journalist and life-long Ford aficionado Charles Morris takes you back to the Total Performance Years through first-hand accounts as well as over 400 rare photographs. A drag racer since 1966, Morris has run cars in both Stock and Super Stock classes. He is currently the owner of the original Norristown Ford 1963 lightweight Galaxie and races the car in Nostalgia Super Stock as part of the 422 Motorsports Drag Racing Team. This book is a must read for all drag racing fans, not just Ford enthusiasts.

**The Fall Line: America's Rise to Ski Racing's Summit** Nathaniel Vinton,2015-02-02 "Great sports writing. . . [Vinton] is taking us inside a world few ever visit."—James Hill, Washington Post Harnessing nature's most powerful forces, elite downhillers descend icy, rugged slopes at speeds cresting 90 miles per hour. For decades, American skiers struggled to match their European counterparts, and until this century the US Ski Team could not claim a lasting foothold on the roof of the Alps, where the sport's legends are born. Then came a fledgling class of American racers that disrupted the Alpine racing world order. Led by Bode Miller and Lindsey Vonn, Julia Mancuso and Ted Ligety, this band of iconoclasts made a place for their country on some of the world's most prestigious race courses. Even as new technology amplified the sport's inherent danger, the US Ski Team learned how to win, and they changed downhill racing forever. The Fall Line is the story of how it all came together, a deeply reported reconstruction of ski racing's most dramatic season. Drawing on more than a decade of research and candid interviews with some of the sport's most elusive figures, award-winning journalist Nathaniel Vinton reveals the untold story of how skiers like Vonn and Miller, and their peers and rivals, fought for supremacy at the Olympic Winter Games. Here is an authoritative portrait of a group of men and women taking mortal risks in a bid for sporting glory. A white-knuckled tour through skiing's deep traditions and least-accessible locales, The Fall Line opens up the sexy, high-stakes world of downhill skiing—its career-ending crashes, million-dollar sponsorship deals, international intrigue, and showdowns with nature itself. With views from the starting gate, the finish line, and treacherous turns in between, The Fall Line delivers the adrenaline of one of the world's most beautiful and perilous sports alongside a panoramic view of skiing's past, present, and future.

*Super Boss* Tyrone Malone,1981-01-01

**Collecting Drag Racing Model Kits** Tom Boyd, 2020-08-15 Relive the golden age of drag racing through this exhaustive volume covering the best drag racing model kits of the era. Model expert Tim Boyd, author of *Collecting Muscle Car Model Kits*, turned his attention to the fantastic drag racing model kits available from the late 1950s through today. Some racing model kits were actually 3-in-1 kits, where the builder assembled the drag-race version of the car in lieu of the street or custom version. Boyd starts by covering the options, collectability, variety, availability, and value of these wonderful kits, and then concentrates on the highly detailed drag racing-only kits that became available starting in the mid-1960s through today. He also shows the differences between original kits, older reproduction kits, and new reproduction kits that many enthusiasts find at swap meets and online sources today. Many of these great kits were from the 1960s, an era when building model kits was a widely popular, serious hobby, similar to video games today. Not only was it fun to build the kits but it was also a great way to learn about all the different race classes and categories because there wasn't regular TV or online coverage during that era. The artwork on those kits was fantastic, and many collectors today seek original kits largely because of it. The classes of racing covered are Gassers, Rail Dragsters, Stocks and Super Stocks, Funny Cars, Pro Stocks, Exhibition Racers, and more. Drag racing cars designed by model companies that never actually existed are also covered. Nostalgia drags are some of the most popular events around the country today. People can't get enough of these old race cars that were built in an era when variety, innovation and home building ruled the day. This book is great for modelers in general, model-kit collectors, and drag-racing fans young and old alike.

This title will offer a wealth of tuning, maintenance, and driving technique information and will include chapters on snap-together raceways and building cars from kits. It will also have performance tests of new products and plans for creating NASCAR replica cars and tracks.

**Super Sport Trucks** Jay H. Smith, 1995 Introduces different types of trucks which have been used for customizing or modification and some of the shows and races in which they participate.
