Information Computing and Applications Rongbo Zhu,Yanchun Zhang,Baoxiang Liu,Chunfeng Liu,2010-10-12 The ICICA 2010 conference provided a forum for engineers and scientists in academia, industry, and government to address the most innovative research and development including technical challenges and social, legal, political, and economic issues, and to present and discuss their ideas, results, work in progress and experience on all aspects of information computing and applications.

Strategies and Trends in Organizational and Project Management Pavel V. Trifonov,Marina V. Charaeva,2022-02-02 This book includes the papers presented at the II International Applied Research Conference "Operations and Project Management: Strategies and Trends" and the International Research Conference "Management in Financial Economy" held in Rostov-on-Don on May 19–20, 2021 within the framework of the South Russia Business Education Forum. The articles included in the book present a comprehensive analysis of the problems of adaptation of traditional and new methods of operational and project management, development of technologies for business process and supply chain management, development trends in financial economy discussed both on a global scale and in the context of sustainable socio-economic development at the meso-level of regions and industries, which not only reveals the nature of the ongoing processes, but also demonstrates their specifics in industry, agriculture, service industry in Russia, CIS countries, Europe, and China. Particular attention is paid to business education in the new economic realities. The polemical focus of the above-mentioned issues in conjunction with the accuracy of the presented analytics makes it possible to come to unconventional, though practically realizable solutions.

The Routledge Handbook of Media and Technology Domestication Maren Hartmann,2023-06-28 This Handbook offers a comprehensive overview of media domestication – the process of appropriating new media and technology – and delves into the theoretical, conceptual and social implications of the field's advancement. Combining the work of the long-established experts in the field with that of emerging scholars, the chapters explore both the domestication concept itself and domestication processes in a wide range of fields, from smartphones used to monitor drug use to the question of time in the domestication of energy buildings. The international team of authors provide an accessible and thorough assessment of key issues, themes and problems with and within domestication research, and showcase the most important developments over the years. This truly interdisciplinary collection will be an important resource for advanced undergraduates, postgraduates and academic scholars in media, communication and cultural studies, sociology, anthropology, cultural geography, design studies and social studies of technology. Chapter 3 of this book is freely available as a downloadable Open Access PDF at http://www.taylorfrancis.com under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

Business Studies David Floyd,2006-07 This volume covers the 2006 subject specifications for all exam boards. The text is laid out in 'sound bite' boxes to aid recollection, with clearly labelled diagrams to add visual clarity and further demonstrate the subject matter.
