Understanding Library Service, 1962

Ask, Listen, Empower Mary Davis Fournier, Sarah Ostman, 2020-08-24 Sharing numerous examples of successful change, dialogue and deliberation, and collaborative efforts, this book offers a comprehensive look at community engagement work that can help all libraries reinforce their roles as champions of lifelong learning.

Raising the Tech Bar at Your Library Nick D. Taylor, 2017-05-11 This book explains how librarians can capitalize on the growing interest and need of patrons for help with technology by expanding their library's tech services to build community engagement and support. Keeping up with technology is more critical and difficult than ever. This challenge exists not only for library staff but for their patrons as well. Today's librarians are often barraged with increasingly complex questions from their patrons about technology—from loading eBooks onto their readers to helping resurrect dead laptops. Why not capitalize on this opportunity and transform your library into a first-stop, go-to resource for your community's tech needs? *Raising the Tech Bar at Your Library: Improving Services to Meet User Needs* demonstrates a variety of ways to expand library services to better serve your community, including how to establish tech bars and tech centers, provide tech training and one-on-one tech help, host drop-in demos, and create a coding dojo. The book covers after-school programs, makerspaces, and embedded librarianship as well. The authors draw on their personal experience to offer a practical blueprint for launching your tech initiative, starting with the preliminary steps of evaluating community needs and getting administrative and public

buy-in to obtaining funding, training non-tech staff, setting up and launching your program, and evaluating the services you've established. The book ends with a look to the future that supplies provocative and exciting ideas of how libraries with innovative, tech-focused leadership can push the edge even further. This book serves a wide audience—all public librarians as well as library administrators, those who work in IT departments as well as adult or youth services, and reference librarians who are interested in expanding into this important and exciting area.

Promoting Individual and Community Health at the Library Mary Grace Flaherty, 2018-11-30 Though today's consumers have unprecedented access to health information, its quality and veracity varies widely. Public libraries can play an important role in supporting library users in their health information seeking efforts. In this book Flaherty shows how to guide library users to high quality health information by relying on up to date, authoritative sources. She also demonstrates why taking the initiative to offer health promotion programming can be a valuable form of community outreach, serving community needs while increasing visibility. Library directors, programming staff, reference librarians, and health educators will all benefit from this book's patron-centered stance, which features a historic overview of the consumer health movement and how it intersects with public libraries; guidance on finding and evaluating the best print, electronic, and app-based health information sources, with advice on keeping up to date; an in-depth look at collaborative efforts to provide and sponsor simple health-related activities in public libraries, spotlighting programs in action at libraries across the county; instructions on creating, planning, preparing, marketing, and evaluating a public library health program; discussions of important issues surrounding health

information provision efforts, including patron privacy and liability concerns; and guidelines for public libraries' role in public health efforts, including disaster preparedness. Armed with this book's expert advice and plentiful examples of successful initiatives, public libraries will feel empowered to make a difference in community members' health and well-being.

Community Library Programs That Work Beth Christina Maddigan, Susan C. Bloos, 2013-11-20 A collection of versatile best practices for promoting literacy development by utilizing local community connections in school and public libraries. Modern libraries are recreating themselves as idea centers for today's Internet-savvy, digitally driven clientele. This book provides a fresh approach to learning as well as guidelines for creating dynamic and relevant library programs for children, teens, and families. Organized thematically, each chapter includes relevant topical research and three to eight community-focused approaches. Programs range from small, single-library initiatives in rural communities to multi-site, cross-border initiatives. This essential reference includes collaborative and locally inspired programs, many of which can be scaled to the budget of any library, school, or community organization.

Foundations of Library Services Hali R. Keeler, 2021-03-12 Trained library support staff play a critical role in assisting the user in locating and interpreting the resources available in libraries. To do so requires the knowledge and practice of library missions and roles in different types of libraries and the delivery of that information to an increasingly diverse clientele. The plethora of resources available today requires that support staff understand and implement the basic principles of information services as well as the responsibility and relationships among library departments and functional areas. *Foundations of Library*

Services is both a text for professors who teach in library support staff programs and an introductory reference manual for support staff who work in libraries. As part of the Library Support Staff Series, this updated edition will guide the LSS to be able to: Understand the mission and role of the library in its community Be familiar with the ethics and values of the profession, including those of the Library Bill of Rights, the ALA Code of Ethics, freedom of information, confidentiality of library records and privacy issues Know the responsibility and relationships among library departments Practice the basic principles of circulation, including interlibrary loan; current cataloging and classification systems; and acquisitions and collection development policies. Understand how libraries are governed and funded within their organizations or government structures Realize the value of cooperation to enhance services Practice quality customer service Communicate and promote the library's values and services Recognize and respond to diversity in user needs

Growing Community Health Literacy through Libraries Prudence W. Dalrymple, Brian Galvin, 2020-08-24 The capacity to understand and communicate health information is a major international health concern. Sponsored by the Health and Biosciences Section of International Federation of Library Associations, this book highlights the contribution that librarians are making to improving health literacy and enabling citizens to be active participants in the management of their own health. Knowledge is power and the World Health Organization recognizes that health literacy, involving effective access to and understanding of health information, is essential to health and well-being in society by empowering and enabling citizens to participate in their own healthcare. The book presents inspiring studies from an

international group of authors showing how libraries and librarians are partnering with diverse sectors of society including universities, hospitals, public health clinics, community-based organisations, voluntary bodies and government agencies, to help citizens understand and manage their health. It provides guidance by example to suggest how libraries can help citizens participate in their healthcare and their communities by collaborating with others to increase health literacy in society.

Open Forum on Recommendations of the White House Conference on Library and Information Services, March 10, 1992 United States. National Commission on Libraries and Information Science, 1992
This report is the official record of an open forum on recommendations from the 1991 White House Conference on Library and Information Services sponsored by the U.S. National Commission on Libraries and Information Science (NCLIS), a federal agency charged with advising the President and the Congress on library and information policies and plans. The forum was planned to help participants and the NCLIS become familiar with the range of concerns and possibilities pursuant to the Conference and to assist NCLIS Commissioners in deciding priorities for future work. Twenty-seven representatives of libraries, information services, education, and public and human services spoke at the forum and another 32 submitted written statements. Most of the participants represented national organizations, and they commented on Conference recommendations of special interest to their organizations and what they intend to do regarding those recommendations. Access to information, libraries' participation in the National Research and Education Network, intellectual property law, preservation, education reform, and libraries as educational institutions received much attention at the forum. Other priorities included

recommendations that address family literacy, the Literacy Initiative to Aid the Disadvantaged, meeting the needs of a diverse population, multicultural/multilingual programs, and the focus on children and youth through the Omnibus Children and Youth Initiative. This report contains press releases describing the conference; White House Conference Recommendations as reprinted from the Conference Summary Report; and an index of the 38 organizations whose comments are included. Online Community Information Joan Coachman Durrance, Karen E. Pettigrew, 2002-02-28 Presents the highlights of a 1998-2000 IMLS National Leadership Grant, 'Help-seeking in an electronic world: the role of the public library in helping citizens obtain community information over the Internet' -- p. ii.

Embedded Business Librarianship for the Public Librarian Barbara A. Alvarez, 2016-07-28 Loaded with recommended practices for increasing engagement and developing courses and programs for business owners, professionals, and job seekers in the community, this book points the way towards making the library an integral part of the business community in ways that are realistic and sustainable.

Community Technology Projects: Making Them Work Margaret Heller, 2019-07-03 As a newly minted librarian, Heller volunteered at a grassroots independent library founded to bring together the work of disparate art communities of Chicago. Since then she has participated in many library technology communities with stints on boards, working groups, conference planning committees, and social media-based outreach. Grounded in her research of dozens of community tech projects, Heller presents a guide exploring how they work, how to get involved, and how to make them better. Library technology managers, grantmakers, scholars, and project managers will all benefit from Heller's incisive discussion of

such topics as a historical overview, including the humble beginnings of OCLC and early library computerized cataloging projects, that offers lessons for today; how to find community needs that match your motivation; using personas to learn about community members; choosing a name and legal structure for a new community; five in-depth case studies, including Project Bamboo, Hathi Trust, and the Digital Public Library of America; techniques for project management, documentation, and discussion; forging a path from small, grant-funded projects to a sustained collective good; reconciling hacker ideology and geek culture with inclusive communities; proven methods for supporting tasks and emotions in library tech communities; and successes and challenges of vendor user groups. For readers who want to get started with community technology projects, as well as those who are already engaged in collaborations, the techniques and best practices in Heller's guide will provide the tools and inspiration to make better library technology communities.

Pivoting during the Pandemic Kathleen Hughes, Jamie Santoro, 2020-12-17 When the pandemic suddenly forced many public libraries to close their doors or limit patron access, library staff redoubled their efforts to serve their communities in every way possible. Demonstrating their resilience by quickly pivoting to new modes of service, public libraries are continuing to offer innovative yet practical ways to connect patrons to the information and services they need and enjoy. Offering real-life examples of what it means to be a 24/7 library, this collection from the Public Library Association (PLA) and ALA Editions shares how several libraries transitioned to virtual and socially-distanced services. No matter your library's current situation or outlook for the future, you'll be inspired to adapt their ideas to suit the needs of your

own organization. Among the initiatives and topics explored are homebound delivery; citizen science programs; virtual reference advice; services to small businesses; remote readers' advisory and book chats; early literacy storytimes; health services outreach; tech guidance for patrons; wifi hotspot lending; and tips for social media and marketing.

Small Libraries, Big Impact Yunfei Du, 2016-06-13 This valuable book shows how to get your community behind your library by making it an essential part of community life and demonstrating its benefit to all members of the community. Evolving technologies and the changing social landscape have put pressure on public libraries to shift their service values and methods in order to maintain funding opportunities. The challenge is substantial: library managers today must adopt a new mindset in order to perform a broad spectrum of activities and attract new users who are not traditional library patrons. *Small Libraries, Big Impact: How to Better Serve Your Community in the Digital Age* helps readers to meet the challenge of serving diverse users via a community-centered library. Based on an intensive review of literature on serving library users in smaller libraries as well as the author's own research findings gained from interviewing 55 library directors, this book provides conceptual and practical tools for serving 21st-century users, gaining wider community support, programming dynamic events, and planning rewarding technology learning. Beyond supplying actionable advice, the book will also review relevant concepts and theoretical frameworks, such as community outreach and partnership, social justice and social inclusion, technology and social transition, cultural diversity and the digital divide, entrepreneurship, outreach, best practices for marketing libraries, and library space design.

Joint-Use Libraries Rita Pellen, William Miller, 2014-06-11 In today's economic climate, many libraries are work cooperatively and sharing facilities, staffs, and resources. This book gives you practical examples of how to make joint use a POSITIVE reality! The first book of its kind, Joint-Use Libraries presents nine examples of situations in which libraries of different types share a building. In some cases one library takes the lead and staffs the operation. In other cases, two or more staffs inhabit the same building and divide the work. This essential book illustrates the variety of ways that public libraries, community college libraries, and college/university libraries have found to stretch their resources and better serve their users. This book explores team-based strategies for joint-use libraries and shows how various libraries have addressed questions such as, "Which library's online catalog will be used?" "How will costs for maintenance and utilities be shared?" and "Will there be one integrated staff, or separate staffs inhabiting the same building?" The libraries described range from a very small library shared by Front Range Community College and the City of Fort Collins, Colorado, to a mammoth new joint library now being built in San Jose, California. In Joint-Use Libraries, you'll encounter fascinating case studies of successful joint use that examine: school libraries that double as public library facilities a county-wide public library system in South Florida that has created partnerships with university, community college, public, and private school libraries a joint library located on a Florida community college campus but also serving a major university another joint library on a Washington state campus that is shared by both a university and a community college—with the

university acting as primary provider of library services by contract with the community college a three-way library in which a community college, a university, and a public library provide their own staffing, collections, and other resources to offer services in a small community where none of them alone could afford a first-rate facility a complex situation in which St. Petersburg College and the City of Seminole, Florida are building a joint-use facility which will serve not only the city and the college, but will also serve the students of 14 other institutions of higher education a joint-use library where one institution is clearly the senior partner, but a largely new, integrated staff has been hired to minimize resistance to the new joint mission and to serve all users equally and more!

A Place at the Table Kathleen de la Pena McCook, 2000-06 While libraries deliver a vital public service within diverse communities, they are often invisible in the community development process initiated by civic planners, activists, and local government officials. Award-winning librarian, educator, author, and activist, Kathleen de la Pena McCook challenges librarians everywhere to get involved early by demanding a place at the community planning and development table. Describing the experiences and insights of librarians who have blazed trails of community involvement and development around the

country, McCook outlines practical ways to: Become involved in policy making early and build a grassroots campaign; Connect with powerful partners in the community visioning process; Promote the tangible strengths and assets of the library.

Inside, Outside, and Online Chrystie Hill, 2009-01-01 Whatever your role, and whatever size or type of library, the principles outlined here can support anyone working to build a strong community of engaged, interested, and satisfied library users.
