Christine Dugan

The WetSand WaveCast Guide to Surf Forecasting Nathan Todd Cool,2003 Shows how you can make surf forecasts with simple calculations and free, publicly available data.

Surfer Magazine's Guide to Southern California Surf Spots The Editors of Surfer Magazine,2006-05-04 Surfer Magazine offers the ultimate guide to catching the best waves from the pristine points of Santa Barbara to the sunny beaches of San Diego. For more than 250 spots, this sturdy manual sporting a water-resistant cover delivers a clear assessment of wave quality, prime wave conditions, and local hazards (both natural and manmade). Informative text answers the burning questions that surfers often pose: What tide? What wind? What swell? How are the locals? Are they worse than the sharks or the traffic? With helpful maps, photos, and directions, this Surfer's Guide is sure to become the gold standard for anyone looking to score the perfect wave.

Surf Report Annie Weisman,2012 Judith, faced with a demanding surfer-turned-venture-capitalist boss, an underachieving husband and a wanna-be artist daughter, swims against the tide as her upwardly mobile ambitions clash with her family's needs. Surf Report captures the Southern California coastal vibe in this funny and poignant play that examines the sacrifices we make--or avoid--for our family.--From publisher's description.

Surf Log Jannell ZARBA,2022-12-12 If you're anything like the surfers I know (myself included), you don't just surf, you are obsessed with surfing. Daily wave checks, scheduling life around swell forecasts, dawn patrols & sunsets on the ocean. Life is just better when you are surfing.Until you surf, it's hard to understand the passion, and once you do, you just always

want to keep that stoke going. With that in mind, I created this surf log. It includes a place to tally the days you surf throughout the year (with a bonus page to track days spend on other types of adventures). Next is a monthly spread to record the day to day ocean activity (swell height, period, & direction, along with wind speed and direction). The opposite page is a place to record the waves heights the conditions produced- helping not just track the wave height on the days your surfed, but honing your forecast knowledge of your favorite break and understanding the types of waves different conditions serve up. The next section is a place to record notes of all your favorite sessions in the water. Track deets like time of day, water & air temp, board & gear used, 3 things you took away from the session, a notes area for any memorable moments and a stoke meter so you can always look back on how much fun your session was. Lastly, there are a few blank pages for anything else you want to jot down, surf related. I hope this surf log helps you have the best year of surfing yet!Interior includes:* Equipment stats page to list all your gear, along with purchase date (and warranty notes).* A year surf log page- color in the days you get water time, and watch as your surf sessions tally up!* A bonus tracker page- for the bikes, hikes, climbs, photo shoots, and adventure days.* Surf etiquette & surf forecast basics overview, to keep you stoked in and out of the water.* A two page spread for each month to record daily swell conditions, and the waves they delivered to your break.* 60 pages of surf session logs * 14 lined pages for random notes

California Surf Stories Tony Gibson, 2022-11-25 This book is a description of 99 (+/-) California surf spots based on my memories of them. It is part memoir, part descriptive listing of surf spots, part rambling musings. Perhaps in time as both humans and nature alter the coastline it will also

become a historical document. The timeline spans roughly from 1977 to 1997. The distance spans over 700 miles from the Tijuana River at the Mexican border to the coastal redwoods of Humboldt County. Although surfing and surf spots are the core, it's also to be enjoyed by anyone with interest in the beauty of the ocean and wilderness on earth regardless of whether one ever puts a foot on a surfboard or even in the ocean. The descriptions are written largely free of any surf lingo that would prevent a novice ocean enthusiast from understanding but also detailed enough to be of interest and value to the traveling surfer in search of something new. We all start from the same point on land. Some may just try the sport a few times and others will become obsessed to a degree shared by only the most committed. Regardless of the time spent or a level of proficiency, there's a common experience and feeling shared at the coast and much of that is the core of these stories. Excerpts: He said to go, that it would be worth the hour and a half drive, 45 minute walk and the 800 yard paddle to and from the spot. I had checked the setup before and knew that he was not exaggerating the distance of the walk, but I could not imagine paddling 800 yards to reach the lineup. It was not an exaggeration. If I were going to be stuck on an imaginary island and could only take one spot with me it would be Black's I don't know how legal it was. I set up my tent on a little bluff just west of Highway 1, but to get there I had to climb through a gap in a fence. looking at the surrounding hills and mountains... I felt at such peace and in love with the earth that only experience can convey the feeling. I am sure that others who have been there, especially in the evening as the sunlight is glowing on the mountains, feel the same as I. When I came back out onto the street, I walked into a near hurricane force wind. Sand and trash were flying everywhere. Soon the power

went out and when I got back to my car I had to reevaluate just how safe my portable hotel was in this location. More than one large tree had already fallen, bringing down power lines across the street. I looked around and saw several other trees that could potentially fall onto my car, so I set out for a new, safer spot to spend the night. I was a bit sore from the previous session and sleeping in the car with two surfboards, a cooler, clothes and a wet wetsuit but I was completely fired up to surf this miraculous place again. I camped on the beach here several times until one night around 2:00 a.m., while I was sleeping in my car, I was awakened by a sheriff who told me camping/sleeping overnight there was illegal and that he did not care where I camped as long as it was not in his county. It is such a wonderful arena of sights, sounds, and sensations. The length of the waves combined with the constant energy flow and flawless form are often as baffling as anything I have experienced. Things like the Alps are certainly wondrous in their own right, but the temporary and constant evolution of waves gives them a certain precious quality of their own. It is things like barely making the most vertical off-the-lip with toes barely in contact with the board on the way down, then falling into twenty yard barrel with a deep blue wall and a silver curtain that is followed by a hard cutback into another barrel and coming out of that and hitting another two or three off-the-lips that must be experienced to be truly understood. Surfing is really the only place I have yet to experience such overpowering feelings.

Surfing in San Diego John C. Elwell, Jane Schmauss, California Surf Museum, 2007-07-04 San Diego County has nearly 75 miles of picturesque coastline on the mighty Pacific Ocean, and for decades, San Diego has boasted of producing some of the world's finest surfers. But here surfing is more

than a sport—it is a Southern California lifestyle—and as such has heavily influenced the beach towns throughout the county. Much research points to surfing having come to Southern California in 1907, and it may have taken hold in San Diego as early as 1910. Join with us in this wonderful pictorial journey through San Diego's little-known surfing past.

Surfing Guide to Southern California David Stern, 2015-02-12 Surfing, unlike many sports, requires no teams, rules, regulations, scores, or stadiums full of spectators. Surfing instead encapsulates personal triumph, in which the individual measures the growth and limits of his or her own capabilities while riding the face of a wave. Initially published in 1963, this first ever guidebook to California surfing remains a classic that embodies the essence of SoCal surfing during the Golden Years. In addition to understanding the anatomy of the coastline, get the skinny on private vs. public beaches,

weather and wind conditions, water temperature, swell classifications, sea life, and the history of surfing. Accented with over 100 aerial photos, action shots, and maps, Stern and Cleary's witty guide provides precise descriptions of the entire southern coast and essentially everything you need to know before hitting the waves. Although the surfing scene has changed, *Surfing Guide to Southern California* remains highly relevant for surfers of today and provides a dose of nostalgia for surfers of yesterday.

The Rough Guide to California Rough Guides (Firm), 2003 An illustrated guide that covers urban hotspots such as San Francisco and LA to the natural beauty of the Yosemite National Park and the Lake Tahoe area. Camping and hiking information in Sequoia, Death Valley and the other great National Parks is included as well as the highlights of the east - Las Vegas and the Grand Canyon. Hotel and restaurant details are given to suit all budgets together with the lowdown on the coolest (or, failing that, the most interesting) clubs and bars. Comprehensive contexts sections featuring the best books and movies on California, as well as extracts from two best-selling authors are also included.

Surfing Newport Beach Claudine Burnett, Paul Burnett, 2013-07-16 Corona del Mar was once California's premier surfing spot, holding the sport's first Pacific Coast competition in 1928. Attempts to tame Corona and to make the Newport Beach harbor mouth safe for watercraft drastically altered board riding, destroying the great wave-making machine of Corona and creating the surf giant of today known as the Wedge. Read about Newport before World War II: experience the Great Rescue of 1925 by Duke Kahanamoku and others, the rum runners of Balboa and the evolution of Newport Bay. Pioneering surfers such as George Freeth, Tom Blake, the Vultee brothers and Pete Peterson helped make a name for the city in surf culture. Authors Claudine Burnett and her surfer husband, Paul, have delved deeply into the past, sharing stories that will give readers never-before-revealed facts not only about surfing but Newport Beach and Corona del Mar history as well.

Parallel Computing Works! Geoffrey C. Fox, Roy D. Williams, Guiseppe C. Messina, 2014-06-28 A clear illustration of how parallel computers can be successfully applied to large-scale scientific computations. This book demonstrates how a variety of applications in physics, biology, mathematics and other sciences were implemented on real parallel computers to produce new scientific results. It investigates issues of fine-grained parallelism relevant for future supercomputers with particular emphasis on hypercube architecture. The authors describe how they used an experimental approach to configure different massively parallel machines, design and implement basic system software, and develop algorithms for frequently used mathematical computations. They also devise performance models, measure the performance characteristics of several computers, and create a high-performance computing facility based exclusively on parallel computers. By addressing all issues involved in scientific problem solving, *Parallel Computing Works!* provides valuable insight into computational science for large-scale parallel architectures. For those in the sciences, the findings reveal the usefulness of an important experimental tool. Anyone in supercomputing and related computational fields will gain a new perspective on the potential contributions of parallelism. Includes over 30 full-color illustrations.
