Warhol-isms Andy Warhol,2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well.I went to [a psychiatrist] once, and he never called me back.They always say that time changes things, but you actually have to change them yourself.I've never

met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

Syrian Arabic Voices Matthew Aldrich, 2020-01-02 In Syrian Arabic Voices, you will meet Amani, Umran, Nada,

Fares, Bayan, and Rami, all Syrians in diaspora, who share their personal stories of war and emigration, along with more lighthearted topics such as self-introductions, hobbies, and fond memories. Syrian Arabic Voices is designed to provide intermediate and advanced students of Arabic with an opportunity to hear and study authentic Levantine Arabic as it is spoken by native speakers today. Unlike the scripted materials read by voice actors used in many course books, Syrian Arabic Voices offers dozens of audio essays spoken naturally and off-the-cuff by individuals from around Syria. Each of the six native speakers has contributed audio essays that have then been transcribed (as vowelized Arabic text) and translated for study. Each segment (audio essay chapter) contains: 1) accompanying audio tracks available for free download at www.lingualism.com/sav. 2) vocabulary and comprehension exercises to sharpen your listening skills and increase how much you can understand 3) in-chapter answers to the exercises (no having to flip back and forth to the back of the book) 4) verbatim transcripts of the audio with side-by-side English translations. 5) lined sections for taking notes and recording new vocabulary.

Multilingual Text-to-Speech Synthesis Richard Sproat, 1997-10-31 Multilingual Text-to-Speech Synthesis: The Bell Labs Approach is the first monograph-length description of the Bell Labs work on multilingual text-to-speech synthesis. Every important aspect of the system is described, including text analysis, segmental timing, intonation and synthesis. There is also a discussion of evaluation methodologies, as well as a chapter outlining some future areas of research. While the book focuses on the Bell Labs approach to the various problems of converting from text into speech, other approaches are discussed and compared. Thus, this book serves both the function of providing a single reference to an important

strand of research in multilingual synthesis, while at the same time providing a source of information on current trends in the field. Chapters in this work were contributed by Richard Sproat, Jan van Santen, Bernd Möbius, Chilin Shih, Joseph Olive, Evelyn Tzoukermann, all of Bell Labs, and Kazuaki Maeda of the University of Pennsylvania.
