Better Days Press

Speaking Pictures Virginia Mason Vaughan, Fernando Cioni, Jacquelyn Bessell, 2010 *Speaking Pictures* explores the complex negotiations between seeing and hearing essential to the audiences' experience in any dramatic performance. Ranging chronologically from the Middle Ages to the present, the essays consider a variety of methods that help us recuperate the visual impact of theatrical spectacle before the age of video archives. The anthology takes its discussion of performance beyond the physical space of the theater to examine texts that were meant to be spoken but not literally performed, such as medieval pageantry and closet dramas of the nineteenth century. Many essays focus on the Early Modern English stage, particularly the challenges of recapturing the totality of the original audience's experience in London's open air theaters by the examination of stage directions, text, and archival evidence. The collection concludes with a discussion of the contemporary actor's challenge in physicalizing the language of Early Modern plays, especially Shakespeare's

**PlantYou** Carleigh Bodrug, 2022 Tacos, pizza, wings, pasta, hearty soups, and crave-worthy greens-for some folks looking for a healthier way of eating, these dishes might all seem, well, off the table. Carleigh Bodrug has shown hundreds of thousands of people that that just isn't true. Like so many of us, Carleigh thought that eating healthy meant preparing the same chicken

breast and broccoli dinner every night. Her skin and belly never felt great, but she thought she was eating well--until a family health scare forced her to take a hard look at her diet and start cooking and sharing recipes. Fast forward, and her @plantyou brand continues to grow and grow, reaching +470k followers in just a few short years. Her secret? Easy, accessible recipes that don't require any special ingredients, tools, or know-how; what really makes her recipes stand out are the helpful infographics that accompany them, which made it easy for readers to measure ingredients, determine portion size, and become comfortable enough to personalize recipes to their tastes. Now in her debut cookbook, Carleigh redefines what it means to enjoy a plant-based lifestyle with delicious, everyday recipes that anyone can make and enjoy. With mouthwatering dishes like Bewitchin' Breakfast Cookies, Rainbow Summer Rolls, Irish Stew, and Tahini Chocolate Chip Cookies, this cookbook fits all tastes and budgets. PlantYou is perfect for beginner cooks, those wishing to experiment with a plant-based lifestyle, and the legions of flexitarians who just want to be healthy and enjoy their meals--

**From Brain to Mind** James E. Zull, 2023-07-03 Finalist for Foreword Magazine's 2011 Book of the Year With his knack for making science intelligible for the layman, and his ability to illuminate scientific concepts through analogy and reference to personal experience, James Zull offers the reader an engrossing and coherent introduction to what neuroscience can tell us about cognitive development through experience, and its implications for education. Stating that educational change is underway and that the time is ripe to recognize that "the primary objective of education is to understand human learning" and that "all other objectives depend on achieving this understanding", James Zull challenges the reader to focus on this purpose, first for her or himself, and then for those for whose learning they are responsible. The book is addressed to all learners and educators – to the reader as self-educator embarked on the journey of lifelong learning, to the reader as parent, and to readers who are educators in schools or university settings, as well as mentors and trainers in the workplace. In this work, James Zull presents cognitive development as a journey taken by the brain, from an organ of organized cells, blood vessels, and chemicals at birth, through its shaping by experience and environment into potentially to the most powerful and exquisite force in the universe, the human mind. Zull begins his journey with sensory-motor learning, and how that leads to discovery, and discovery to emotion. He then describes how deeper learning develops, how symbolic systems such as language and numbers emerge as tools for thought, how memory builds a knowledge base, and how memory is then used to create ideas and solve problems. Along the way he prompts us to think of new ways to shape educational experiences from early in life through adulthood, informed by the insight that metacognition lies at the root of all learning. At a time when we can expect to change jobs and careers frequently during our lifetime, when technology is changing society at break-neck speed, and we have instant access to almost infinite information and opinion, he argues that self-knowledge, awareness of how and why we think as we do, and the ability to adapt and learn, are critical to our survival as individuals; and that the transformation of education, in the light of all this and what neuroscience can tell us, is a key element in future development of healthy and productive societies.

geography, government, people, cultural life, and history of Liberia.

**Global Youth in Digital Trajectories** Michalis Kontopodis,Christos Varvantakis,Christoph Wulf,2017-03-27 Global Youth in Digital Trajectories explores the most recent developments regarding youth and media in a global perspective. Representing an innovative contribution to virtual research methods, this book presents research carried out in areas as diverse as Greece, the Netherlands, Germany, Brazil, Russia, and India. The volume examines which new anthropological, and cultural-historical conditions and changes arise in connection with the widespread presence of digital media in the lives of the networked teens. Indeed, it is highlighted that the differentiation between an offline world and an online world is inapplicable to the lives of most young people. Exploring youth's imaginary productions, personal sense-making processes and cross-media dialogues in today's multimedia worlds, Global Youth in Digital Trajectories will be of particular interest to undergraduates and postgraduates in the fields of sociology, anthropology, education studies, media research and cultural studies. It may also appeal to practitioners in social work and schools. URL for circulation: [www.routledge.com/9781138236035](http://www.routledge.com/9781138236035)

*Religious Education 1* Christine Moorcroft,2004-05 The Accessing...series brings a new concept to teaching and learning about RE in primary schools. Each book is a close match to the QCA Scheme of Work for RE, and the series follows a one-book-per-year approach - finding and selecting the right unit in each book is easy to do, making the resources simple to pick up and use. Accessing...is the new visual-learning approach with resources for a wide range of abilities.

**Screen-Smart Parenting** Jodi Gold,2014-03-11 As a practicing child psychiatrist and mother of three, Jodi Gold has a unique understanding of both the mind-boggling benefits and the serious downsides of technology. Dr. Gold weaves together scientific knowledge and everyday practical advice to help you foster your child's healthy relationship to technology, from birth to the teen years. You'll learn: \*How much screen time is too much at different ages. \*What your kids and teens are actually doing in all those hours online. \*How technology affects social, emotional, and cognitive development. \*Which apps and games build smarts and let creativity shine. \*How your own media habits influence your children. \*What you need to know about privacy concerns, cyberbullying, and other dangers. \*Ways to set limits that the whole family can live with.

A Catalogue of the Pictures, Drawings, Etchings, &c. in the British Fine Art Collections deposited in the New Gallery at South Kensington. Being for the most part the gift of J. Sheepshanks. With an introduction by R. Redgrave
