The Reverse Swing Ashok Tandon,2023-10-11 The book showcases New India's (Naya Bharat) march to glory leaving behind the unfortunate and painful memories of the foreign subjugation spanning several centuries. The Europeans were attracted to do trade with India in the 17th Century not because it was a land of snake charmers as perceived by many in the West, but because India was a fabulous gold mine full of enormous reserves of natural resources and a producer of rare commodities including spices, tea, silk, and precious stones ready to be plundered by the invaders and colonial powers to fill their coffers. The author has penned down the historical events and the transformations in the Indo-UK relations since independence not with a view to reopen the wounds of colonial rule but to enlighten the present generations, particularly the large Indian Diaspora, with what India had to undergo prior to independence in 1947 and how it has excelled in various sectors to become world's fifth largest economy and earned a pride of place in the comity of nations. The Indo-UK cooperation in economic, diplomatic, defence production and cultural fields is one of the hallmarks of the book, especially India and Britain concluding a 'fair and balanced' Free Trade agreement (FTA) based on equality, mutual wig and commonality of interests.

INTEGRATIVE HOLISTIC HEALTH, HEALING, AND TRANSFORMATION Penny Lewis,2002-01-01 The goal of this book is to begin to present the fundamental body of knowledge which informs current approaches in complimentary and alternative medicine and to explore the role of the new professions of integrative holistic health practitioner, consultant and administrator. This book is designed to compliment, enhance, deepen and broaden the reader's existing expertise through an integrative approach which will improve his/her ability to consult, design programs and work in a variety of settings with various populations including those with medical and psychological conditions as well as those who wish to support their health and well-being. The book provides the necessary conceptual foundational frameworks for exploring how practitioners in a field of alternative medicine/holistic health know what they know in support of their work. These core ways of knowing gives them a foundation for evaluating their work, new advances in the field and affords them interrelated frames of knowledge for their continued research, expansion and integrative work in the field. Trained holistic health practitioners who may have applied one or more of these paradigms may now be able to expand their foundational and conceptual base thereby broadening their theory and techniques that are appropriate to their professional arenas. Section I is designed to explore general ways of knowing and meaning making in holistic health. Section II is designed to offer the reader/practitioner methodology regarding the creation and implementation of holistic health centers, programs and integrated consultation practices. Finally, Section III offers examples of integrative holistic health clinicians who combine and synthesize a variety of holistic health approaches and paradigms into their practices as practitioners, healers, therapists and consultants.

Dirk Gently's Holistic Detective Agency Douglas Adams,2014-10-07 From Douglas Adams, the legendary author of one of the most beloved science fiction novels of all time, *The Hitchhiker's Guide to the Galaxy*, comes a wildly inventive novel—in trade paperback for the first time—of ghosts, time travel, and one detective's mission to save humanity from extinction. Quirky and bumbling private investigator Dirk Gently stumbles upon a ghost, millions of years old, wandering the earth and disturbing its people.

Dirk soon discovers this phantom yearns for more than a good haunting: it is desperately trying to go back in time to prevent its own death. But this ghost was no ordinary person, and helping it save itself just might change the modern world as we know it. And not in a good way... Endlessly entertaining, Dirk Gently's Holistic Detective Agency proves that, indeed, "few writers have had such an infectious prose style as Adams" (The Observer). As Dirk Gently tries to solve the mysteries of the universe and the human soul, readers will have their own mystery to solve: Where did the time go?

Dirk Gently's Holistic Detective Agency Box Set Douglas Adams, 2016-10-04 Discover the hilarious and beloved Dirk Gently novels from legendary science fiction author Douglas Adams—now the basis for the all-new TV series on BBC America! Dirk Gently's Holistic Detective Agency Douglas Adams, the "master of wacky words and even wackier tales" (Entertainment Weekly), once again boggles the mind with a completely unbelievable story of ghosts, time travel, eccentric computer geniuses, Samuel Taylor Coleridge, the end of the world, and—of course—missing cats. The Long Dark Tea-Time of the Soul When a check-in desk at London's Heathrow Airport disappears in a ball of orange flame, the event is said to be an act of God. But which god, wonders holistic detective Dirk Gently. And how is this connected to Dirk's battle with his cleaning lady over his filthy refrigerator...or to the murder of his latest client? Or are these events just another stretch of coincidences in the life of the world's most off-kilter private investigator?

Spiritualities of Life Paul Heelas, 2009-01-21 This insightful and provocative journey through spiritual landscapes explores the ways in which spiritualities of life have been experienced and understood in Western society, and argues that today's myriad forms of holistic spirituality are helping us to find balance in face of the stifling demands of twenty-first century living. An enlightening book which explores the ways in which spirituality has been experienced and valued in Western society Traces the development of modern spirituality, from the origins of Romanticism in the eighteenth century, through to the counter-cultural sixties and on to the wellbeing culture of today Explores the belief that modern spirituality is merely an extension of capitalism in which people consume spirituality without giving anything back Contends that much of the wide range of popular mind-body-spirit practices are really an ethically charged force for the 'good life', helping us to find balance in the demands of twenty-first century living Written by an acknowledged world-leader working in the field Completes a trilogy of books including *The Spiritual Revolution* (2005, with Linda Woodhead) and *The New Age Movement* (1996), charting the rise and influence of spirituality today.

The Hidden Genius of Emotion Carol Magai, Jeannette Haviland-Jones, 2002-09-26 This thoughtful and beautifully written book demonstrates compellingly that emotions are central to personality development across the lifespan. Carol Magai and Jeannette Haviland-Jones draw on a wealth of textual and film material to forge an original empirical and theoretical analysis of the dynamics of emotion in human development. For its content, the work examines the lives of three mid-century psychologists, Carl Rogers, Albert Ellis, and Fritz Perls. Each man adopted a unique stance on the question of emotion in personality and in therapeutic interventions and, tellingly, the therapeutic methods they developed necessarily reflected their own emotional dynamics. Drawing on the most important research in clinical, social, and personality psychology, the authors reveal the pervasive influence of emotional organization in the lives of these individuals. Having presented a new approach to personology, autobiography, narrative studies, psychotherapy and the theory of emotions on its publication in 2002, this book is essential reading.
