The Moderns Steven Heller,Greg D'Onofrio,2017-09-19 In *The Moderns*, we meet the men and women who invented and shaped Midcentury Modern graphic design in America. The book is made up of generously illustrated profiles, many based on interviews, of more than 60 designers whose magazine, book, and record covers; advertisements and package designs; posters; and other projects created the visual aesthetics of postwar modernity. Some were émigrés from Europe; others were homegrown—all were intoxicated by elemental typography, primary colors, photography, and geometric or biomorphic forms. Some are well-known, others are honored in this volume for the first time, and together they comprised a movement that changed our design world.

The Splendid Century W. H. Lewis,2016-08-09 “The Splendid Century,” penned by the brother of famous author C. S. Lewis (“Alice in Wonderland”), is a depiction of various aspects of life in France during the reign of Louis XIV, gleaned through the author’s thorough research of records, correspondence, and journals of the time. Using anecdotal evidence, the book probes in detail various facets of life in France during this time, including the lives of nobles (particularly those at court) as well as commoners, religious institutions and conflicts, the organization of the French army and its restructuring, rural life and city life, what life was like on galley ships and passenger sailing ships, how doctors were trained, and the state of women’s education. The author also discusses the background behind Louis XIV’s policies, illustrating their impact on French civilization, both during this time and for generations to come. A must-read for anyone interested in French history.

Dictionary of British Arms D. H. B. Chesshyre,Hubert Chesshyre,Thomas Woodcock,1992 This is the first of a four-volume collection of British heraldic arms, arranged alphabetically according to their designs and covering the period before 1530. Listed in this volume are entries from Anchor to Bend. This book will help readers to identify the arms that were widely displayed in the Middle Ages and which can now be found not only on tombs, monuments and seals, but also on textiles, manuscripts, metalwork, glass, wall paintings, and other medieval artefacts. The index allows even those without any specialist knowledge of the subject to discover the blazons of arms recorded for particular surnames in the medieval period. Produced specifically to enable readers to identify individual coats of arms, it is an invaluable reference for historians, antiquaries, archaeologists, genealogists and those dealing in and collecting medieval objects.

The Report: Papua New Guinea 2015 Oxford Business Group,2016-09-17 In Papua New Guinea hopes are high that real change is on its way; the country’s political, administrative, financial and technical leaders now have to find a way to ensure the most productive distribution and use of financial resources. Many international actors are watching closely to see how this young country negotiates its path. Papua New Guinea became a major exporter of gas in 2014 when the \$19bn PNG liquefied natural gas (LNG) project was completed ahead of schedule and within budget, significantly increasing the size and strength of the economy. The year ahead is likely to see PNG benefit from the further development of its hydrocarbons sector, fuelling the growth of its economy as a whole. The LNG influx also poses challenges, however, in terms of ensuring inclusive growth and productive use of the new revenues. PNG takes pride in being a final frontier of natural and cultural development, but the task ahead is to protect the country’s heritage while becoming part of the global economy.

Education and Cultural Pluralism Maurice Craft,2017-04-28 This collection of essays, first published in 1984, on multicultural education seeks to introduce teachers, teacher educators, educational administrators, policymakers and others to several of the most significant dimensions of the field. But it also brings out the complexity of the issues and the dangers of over-simplification, the inadequacies of much of the available data, and the need for better long-term strategies.

Barriers to Asset Recovery ,2011-06-20 It is estimated that the proceeds of crime, corruption and tax evasion represent between \$1 trillion and \$1.6 trillion per year, with half coming from developing countries. Proceeds are typically transferred abroad and hidden in foreign jurisdictions, thus requiring international cooperation. Various international conventions and agreements require international cooperation on this issue, in particular the United Nations Convention against Corruption; however, only \$5 billion in stolen assets have been repatriated over the last 15 years. This enormous gap reveals that significant barriers continue to impede asset recovery despite the commitments taken by governments, civil society and the private sector. Drawing on the experience of practitioners with hands-on experience, the Stolen Asset Recovery (StAR) Initiative launched this study to identify the barriers to stolen asset recovery internationally, provide brief analysis of the impact of these barriers, and propose recommendations for overcoming these obstacles. This volume is intended to guide policy makers in their efforts to ensure necessary resources and the development of a plan, policy or strategy aimed at eradicating the barriers to asset recovery. In addition, this study proposes actions to be taken by the G20, international organizations, financial institutions, developmental agencies and civil society.

A Catalogue of English Mediaeval Rolls of Arms Anthony Wagner,2009 The editing is done with great skill . . . this is a masterly treatment of the subject. ENGLISH HISTORICAL REVIEW Aspilogia' means materials of heraldry, and this first volume in the series on heraldry published by the Society of Antiquaries is a comprehensive listing of the known medieval rolls of arms of English origin.
