Handbook of Orthopaedic Trauma Implantology Arindam Banerjee,Peter Biberthaler,Saseendar Shanmugasundaram,2023-10-31 This reference work comprehensively covers essential orthopedic trauma implants and their application in both upper and lower limbs. It offers insights into the invention, advantages, and disadvantages of various implants, along with the rationale behind their current designs, biomechanics, and materials. Additionally, the book addresses fracture fixation and general considerations when comparing different subgroups of implants, such as nails versus plates or ORIF versus external fixation. The book is divided into several sections, such as upper and lower limbs, spine, and pelvis. It also includes unique sections dedicated to pediatric implants, implant removal, metallurgy and bone grafts. It is written and edited by experienced surgeons from around the world. This book fills the gap as currently, there are no specific reference books on this topic but only operative manuals and inventory lists of various commercial companies detailing their own products. This highly informative and meticulously presented book serves as both a practical and a theoretical guide for practicing orthopedic surgeons, scientists/researchers, academicians, students as well as orthopedic technicians and nurses.

Medical Presentations Terry Irwin,Julie Terberg,Echo Swinford,2024-03-06 "A comprehensive guide to planning, constructing, and delivering presentations. This is the missing manual that every doctor needs". Rowan Parks, Professor of Surgical Sciences and Honorary Consultant Surgeon, University of Edinburgh; President of Royal College of Surgeons of Edinburgh "A fantastic, fool proof guide to presenting like a pro!" Alice Roberts, Professor of Public Engagement in Science, University of Birmingham; Broadcaster and Author This book will teach healthcare professionals how to craft more effective and engaging PowerPoint® presentations, taking readers through the preparation of a presentation from concept to delivery. The book is based on decades of the authors' personal experiences teaching PowerPoint® and slide design. The text is based on a sound understanding of educational theory. Readers will learn how to present interesting and visually appealing slides. In particular, the focus will be on designing professional-looking slides that convey a clear and memorable message. The book will be valuable to any healthcare professional required to put together presentations, whether a high-flying academic doctor or nurse presenting their research at international conferences, a trainee giving a talk at an in-house educational session, or a student preparing a presentation as part of their course work.
