**Crashed** Adam Tooze,2019-08-27 WINNER OF THE

LIONEL GELBER PRIZE A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST'S BOOKS OF THE YEAR A NEW YORK TIMES CRITICS' TOP BOOK An intelligent explanation of the mechanisms that produced the crisis and the response to it...One of the great strengths of Tooze's book is to demonstrate the deeply intertwined nature of the European and American financial systems.--The New York Times Book Review From the prizewinning economic historian and author of Shutdown and The Deluge, an eye-opening reinterpretation of the 2008 economic crisis (and its ten-year aftermath) as a global event that directly led to the shockwaves being felt around the world today. We live in a world where dramatic shifts in the domestic and global economy command the headlines, from rollbacks in US banking regulations to tariffs that may ignite international trade wars. But current events have deep roots, and the key to navigating today's roiling policies lies in the events that started it all—the 2008 economic crisis and its aftermath. Despite initial attempts to downplay the crisis as a local incident, what happened on Wall Street beginning in 2008 was, in fact, a dramatic caesura of global significance that spiraled around the world, from the financial markets of the UK and Europe to the factories and dockyards of Asia, the Middle East, and Latin America, forcing a rearrangement of global governance. With a historian's eye for detail, connection, and consequence, Adam Tooze brings the story right up to today's negotiations, actions, and threats—a much-needed perspective on a global catastrophe and its long-term consequences.

**Bleaker House** Nell Stevens, 2017-03-14 When she was twenty-seven, Nell Stevens—a lifelong aspiring novelist—won an all-expenses-paid fellowship to go anywhere in the world to write. Would she choose a glittering metropolis, a romantic village, an exotic paradise? Not exactly. Nell picked Bleaker Island, a snowy, windswept pile of rock in the Falklands. Other than sheep, penguins, paranoia, and the weather, there aren't many distractions, but as Nell soon discovers, total isolation and 1,085 calories a day are far from ideal conditions for literary production. With deft humor, this memoir traces her island days and slowly reveals

the life and people she has left behind in pursuit of her writing. It seems that there is nowhere she can run—an island or the pages of her notebook—to escape the big questions of love, art, and, ambition.

*World Wildlife Crime Report 2020* United Nations Publications, 2021-03-31 The report presents the latest assessment of global trends in wildlife crime. It includes discussions on illicit rosewood, ivory, rhino horn, pangolin scales, live reptiles, tigers and other big cats, and European eel. The COVID-19 (coronavirus) pandemic has highlighted that wildlife crime is a threat not only to the environment and biodiversity, but also to human health, economic development and security. Zoonotic diseases - those caused by pathogens that spread from animals to humans - represent up to 75% of all emerging infectious diseases. Trafficked wild species and the resulting products offered for human consumption, by definition, escape any hygiene or sanitary control, and therefore pose even greater risks of infection.
