The Ethics of Surveillance Kevin Macnish,2017-07-28 The Ethics of Surveillance: An Introduction systematically and comprehensively examines the ethical issues surrounding the concept of surveillance. Addressing important questions such as: Is it ever acceptable to spy on one's allies? To what degree should the state be able to intrude into its citizens' private lives in the name of security? Can corporate espionage ever be justified? What are the ethical issues surrounding big data? How far should a journalist go in pursuing information? Is it reasonable to expect a degree of privacy in public? Is it ever justifiable for a parent to read a child's diary? Featuring case studies throughout, this textbook provides a philosophical introduction to an incredibly topical issue studied by students within the fields of applied ethics, ethics of technology, privacy, security studies, politics, journalism and human geography.

Startup Asia Rebecca A. Fannin,2011-09-26 Find out where the new innovation hot spots are, what the next consumer waves will be, and where to catch them Asia's innovation hot spots are fast emerging as first-choice destinations for bright, young entrepreneurs. From Taiwan to Singapore, technology center hubs are forming to rival the original Silicon Valley. Startup Asia gives you a close-up view into the key growth trends shaping entrepreneurship in China and India, plus the new frontier market of Vietnam. Showing how entrepreneurs and investors can start up in Asia and go global, the book provides a first-hand, on-the-ground tour of the new technology centers that are gaining momentum all over Asia. Interviews with the most successful venture capitalists and entrepreneurs reveal their winning strategies and show how a new generation of entrepreneurs in China and India are no longer looking to the West for their cues—but are instead crafting their own local business models and success strategies. Shows entrepreneurs and investors how they can pursue their dreams of launching successful start-ups in Asia Reveals that many of the same venture investors that first funded young businesses in Silicon Valley moved into China, then India, and are now finding their way to Vietnam Addresses the risks of doing business in Asia's developing markets, including lack of intellectual property protection, political and regulatory shifts, bribery, and corruption From high-profile Forbes contributor Rebecca Fannin, Startup Asia is the essential guide for anyone looking to trek into this new frontier.

Global Trends 2030 National Intelligence Council,2018-02-07 This important report, Global Trends 2030-Alternative Worlds, released in 2012 by the U.S. National Intelligence Council, describes megatrends and potential game changers for the next decades. Among the megatrends, it analyzes: - increased individual empowerment - the diffusion of power among states and the ascent of a networked multi-polar world - a world's population growing to 8.3 billion people, of which sixty percent will live in urbanized areas, and surging cross-border migration - expanding demand for food, water, and energy It furthermore describes potential game changers, including: - a global economy that could thrive or collapse - increased global insecurity due to regional instability in the Middle East and South Asia - new technologies that could solve the problems caused by the megatrends - the possibility, but by no means the certainty, that the U.S. with new partners will reinvent the international system Students of trends, forward-looking entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades will find this essential reading.

The Making of an Economic Superpower Yi Wen,2016-05-13 The rise of China is no doubt one of the most important events in world economic history since the Industrial Revolution. Mainstream economics, especially the institutional theory of economic development based on a dichotomy of extractive vs. inclusive political institutions, is highly inadequate in explaining China's rise. This book argues that only a radical reinterpretation of the history of the Industrial Revolution and the rise of the West (as incorrectly portrayed by the institutional theory) can fully explain China's growth miracle and why the determined rise of China is unstoppable despite its current backward financial system and political institutions. Conversely, China's spectacular and rapid transformation from an impoverished agrarian society to a formidable industrial superpower sheds considerable light on the fundamental shortcomings of the institutional theory and mainstream blackboard economic models, and provides more-accurate reevaluations of historical episodes such as Africa's enduring poverty trap despite radical political and economic reforms, Latin America's lost decades and frequent debt crises, 19th century Europe's great escape from the Malthusian trap, and the Industrial Revolution itself. Contents: IntroductionKey Steps Taken by China to Set Off an Industrial RevolutionShedding Light on the Nature and Cause of the Industrial RevolutionWhy is China's Rise Unstoppable?What's Wrong with the Washington Consensus and the Institutional Theories?Case Study of Yong Lian: A Poor Village's Path to Becoming a Modern Steel TownConclusion: A New Stage Theory of Economic Development Readership: Academics, undergraduate and graduates students, journalists and professionals interested in economic development, the history of the Industrial Revolution, and especially China's economic transformation and industrial growth, as well as the political economy of governance.

Today Hong Kong, Tomorrow the World Mark L. Clifford,2022-02-01 A gripping history of China's deteriorating relationship with Hong Kong, and its implications for the rest of the world. For 150 years as a British colony, Hong Kong was a beacon of prosperity where people, money, and technology flowed freely, and residents enjoyed many civil liberties. In preparation for handing the territory over to China in 1997, Deng Xiaoping promised that it would remain highly autonomous for fifty years. An international treaty established a Special Administrative Region (SAR) with a far freer political system than that of Communist China—one with its own currency and government administration, a common-law legal system, and freedoms of press, speech, and religion. But as the halfway mark of the SAR's lifespan approaches in 2022, it is clear that China has not kept its word. Universal suffrage and free elections have not been instituted, harassment and brutality have become normalized, and activists are being jailed en masse. To make matters worse, a national security law that further crimps Hong Kong's freedoms has recently been decreed in Beijing. This tragic backslide has dire worldwide implications—as China continues to expand its global influence, Hong Kong serves as a chilling preview of how dissenters could be treated in regions that fall under the emerging superpower's control. Today Hong Kong, Tomorrow the World tells the complete story of how a city once famed for protests so peaceful that toddlers joined grandparents in millions-strong rallies became a place where police have fired more than 10,000 rounds of tear gas, rubber bullets and even live ammunition at their neighbors, while pro-government hooligans attack demonstrators in the streets. A Hong Kong resident from 1992 to 2021, author Mark L. Clifford has witnessed this transformation firsthand. As a celebrated publisher and journalist, he has unrivaled access to the full range

of the city's society, from student protestors and political prisoners to aristocrats and senior government officials. A powerful and dramatic mix of history and on-the-ground reporting, this book is the definitive account of one of the most important geopolitical standoffs of our time.

Open Source Intelligence Tools and Resources Handbook i-intelligence,2019-08-17 2018 version of the OSINT Tools and Resources Handbook. This version is almost three times the size of the last public release in 2016. Blockchain Chicken Farm Xiaowei Wang,2020-10-13 A New York Times Book Review Editors' Choice A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of *How to Do Nothing* From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In *Blockchain Chicken Farm*, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, *Blockchain Chicken Farm* is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry's many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

Global Trends 2030 National Intelligence Council (U.S.),2012 This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous *Global Trends* reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of *Global Trends 2030*. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

Handbook on Wildlife Law Enforcement in India Samir Sinha,2010 This is an illustrated book that points out wildlife crimes conducted in India -- it shows how poachers work, their mechanisms and how officials can control and curb wildlife crime -- which accounts for a shockingly large percentage of illegal trade and crime in the world.

The Chinese Navy Institute for National Strategic Studies,2011-12-27 Tells the story of the growing Chinese Navy - The People's Liberation Army Navy (PLAN) - and its expanding capabilities, evolving roles and military implications for the USA. Divided into four thematic sections, this special collection of essays surveys and analyzes the most important aspects of China's navel modernization.

Preventing Crime Brandon C. Welsh,David P. Farrington,2007-08-09 This book examines evidence-based crime prevention through the use of the rigorous methodology of systematic reviews. It brings together the leading scientific evidence on what works best for a wide range of interventions organized around four important domains in criminology: at-risk children, offenders, victims, and places. It is an indispensable guide to the leading scientific evidence on what works best to prevent crime.

The Googlization of Everything Siva Vaidhyanathan,2012-03-13 In the beginning, the World Wide Web was exciting and open to the point of anarchy, a vast and intimidating repository of unindexed confusion. Into this creative chaos came Google with its dazzling mission--To organize the world's information and make it universally accessible--and its much-quoted motto, Don't be evil. In this provocative book, Siva Vaidhyanathan examines the ways we have used and embraced Google--and the growing resistance to its expansion across the globe. He exposes the dark side of our Google fantasies, raising red flags about issues of intellectual property and the much-touted Google Book Search. He assesses Google's global impact, particularly in China, and explains the insidious effect of Googlization on the way we think. Finally, Vaidhyanathan proposes the construction of an Internet ecosystem designed to benefit the whole world and keep one brilliant and powerful company from falling into the evil it pledged to avoid.

World Wildlife Crime Report 2020 United Nations Publications,2021-03-31 The report presents the latest assessment of global trends in wildlife crime. It includes discussions on illicit rosewood, ivory, rhino horn, pangolin scales, live reptiles, tigers and other big cats, and European eel. The COVID-19 (coronavirus) pandemic has highlighted that wildlife crime is a threat not only to the environment and biodiversity, but also to human health, economic development and security. Zoonotic diseases - those caused by pathogens that spread from animals to humans - represent up to 75% of all emerging infectious diseases. Trafficked wild species and the resulting products offered for human consumption, by definition, escape any hygiene or sanitary control, and therefore pose even greater risks of infection.
