We Need to Talk Celeste Headlee, 2017-09-19 "WE NEED TO TALK." In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication "We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother." (Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone's communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. HIDE YOUR PHONE. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter.

Beethoven for a Later Age Edward Dusing, 2016 Using the history of the composition of Beethoven's string quartets as the backbone to his story, Edward Dusing - leader of the Takacs Quartet - recounts the life of the Quartet from its inception in Hungary, through emigration to the US and its present-day life of world renown. He also describes what it was like for him, as a young man fresh out of Juilliard, to join the quartet as its (non-Hungarian) leader - a challenging task. *Beethoven for a Later Age* takes the reader inside the life of a quartet, vividly showing how four people make music together over a long period of time without becoming stale, or falling out. The key, the author argues, is in continual change and experiment - and these are at the heart of Beethoven's remarkable compositions for quartet.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled *The Last Lecture*. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—*Really Achieving Your Childhood Dreams*—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Pick Me Up Adam J. Kurtz, 2016-10-04 A quirky, creative companion that offers a pick-me-up on every page On the heels of his internationally successful first book, *1 Page at a Time*, graphic designer and illustrator Adam J. Kurtz delivers another intimate and engaging journal for anyone who

loves to explore ideas, record thoughts and feelings, and capture those fleeting but amazing moments of everyday life. Unlike a linear journal, this book can be opened up to any page, encouraging and engaging readers time and time again through continued use. Rather than simply complete tasks and turn pages, users are encouraged to leave their mark, and if they land on the same page days or weeks later, they can review, reflect, and revise their previous response. Feeling lonely? Pensive? Peeved? Questioning? This deceptively simple book offers perspective, hope, and a twist of existential metaphor – and is perfect to pick up again and again.

Eat Now; Talk Later James Vescovi, 2014-01-07 Prepare yourself for a feast consumed in delicious bites. This collection of stories can be read before bed, on a lunch hour, or waiting in line. They can even be shared with friends who complain they have enough to read. Together they ask the question, How do you make modern life run smoothly for parents or grandparents who grew up in an era when oxen were used for plowing, children left school after third grade to tend chickens, and meat was eaten only twice a year? When Tony and Desolina Vescovi arrived in America, they collided with the 20th century. Born around 1900, they were stumped by telephones, banks, fast food, TV wrestling, and supermarkets. It was up to their only child, a son, to serve as their shepherd, and it wasn't easy. For example, how to explain that his job was taking him and his family 700 miles away when, in their day, sons stayed put to work the family farm? Or that it wasn't wise to hide \$10,000 in the bedroom? Or that the ice cream they just tried and enjoyed is called 'Chubby Hubby'? This collection of 52 bite-size stories offers a twist on the American immigrant tale and is a testament to love, loyalty, and frequent half-truths.

How Stella Learned to Talk Christina Hunger, 2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade.

Neither did Richard realise the fire in him that Susan would ignite, nor the dangers that he and Bob would face, as their investigation takes them to the coastal areas of Suffolk, agricultural Norfolk and across the North Sea to the Netherlands and Germany. From horse race fixing, illegal immigrant workers and under aged trafficking, Richard and Bob investigate, whilst their working partnership goes from Strength to Strength.
