**Serving Library Users from Asia** John Hickok, 2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US. This book is a comprehensive guide to serving library users from 24 specific Asian countries. It begins with a broad overview of how libraries can better serve Asian communities and then devotes a chapter to each country, providing wealth of valuable resources.

*Recipes for Immortality* Richard S Weiss, 2009-02-19 Despite the global spread of Western medical practice, traditional doctors still thrive in the modern world. In *Recipes for Immortality*, Richard Weiss illuminates their continued success by examining the ways in which siddha medical practitioners in Tamil South India win the trust and patronage of patients. While biomedicine might alleviate a patient's physical distress, siddha doctors offer their clientele much more: affiliation to a timeless and pure community, the fantasy of a Tamil utopia, and even the prospect of immortality. They speak of a golden age of Tamil civilization and of traditional medicine, drawing on broader revivalist formulations of a pure and ancient Tamil community. Weiss analyzes the success of siddha doctors, focusing on how they have successfully garnered authority and credibility. While shedding light on their lives, vocations, and aspirations, Weiss also documents the challenges that siddha doctors face in the modern world, both from a biomedical system that claims universal efficacy, and also from the rival traditional medicine, ayurveda, which is promoted as the national medicine of an autonomous Indian state. Drawing on ethnographic data; premodern Tamil texts on medicine, alchemy, and yoga; government archival resources; college textbooks; and popular literature on siddha medicine and on the siddhar yogis, he presents an in-depth study of this traditional system of knowledge, which serves the medical needs of millions of Indians. Weiss concludes with a look at traditional medicine at large, and demonstrates that siddha doctors, despite recent trends toward globalization and biomedicine, reflect the wider political and religious dimensions of medical discourse in our modern world. *Recipes for Immortality* proves that medical authority is based not only on physical effectiveness, but also on imaginative processes that relate to personal and social identities, conceptions of history, secrecy, loss, and utopian promise.

*Passions of the Tongue* Sumathi Ramaswamy, 2023-09-01 Why would love for their language lead several men in southern India to burn themselves alive in its name? *Passions of the Tongue* analyzes the discourses of love, labor, and life that transformed Tamil into an object of such passionate attachment, producing in the process one of modern India's most intense movements for linguistic revival and separatism. Sumathi Ramaswamy suggests that these discourses cannot be contained within a singular metanarrative of linguistic nationalism and instead proposes a new analytic, language devotion. She uses this concept to track the many ways in which Tamil was imagined by its speakers and connects these multiple imaginings to their experience of colonial and post-colonial modernity. Focusing in particular on the transformation of the language into a goddess, mother, and maiden, Ramaswamy explores the pious, filial, and erotic aspects of Tamil devotion. She considers why, as its speakers sought political and social empowerment, metaphors of motherhood eventually came to dominate representations of the language.

**Lesser-Known Languages of South Asia** Anju Saxena,Lars Borin,2006-01-01 The increasing globalization and centralization in the world is threatening the existence of a large number of smaller languages. In South Asia some locally dominant languages (e.g., Hindi, Urdu, Nepali) are gaining ground beside English at the expense of the lesser-known languages. Despite a long history of stable multilingualism, language death is not uncommon in the South Asian context. We do not know how the language situation in South Asia will be affected by modern information and communication technologies: Will cultural and linguistic diversity be strengthened or weakened as they become increasingly prevalent in all walks of life? This volume brings together areas of research that so far do not interact to any significant extent: traditional South Asian descriptive linguistics and sociolinguistics, documentary linguistics, issues of intellectual and cultural property and fieldwork ethics, and language technology. Researchers working in the areas of documentary linguistics and language technology have become aware of each other in the last few years, and of how work in the other area could be potentially useful in furthering their own aims. Similarly, the insights of documentary linguistics are making their way into descriptive linguistics and sociolinguistics. However, the potential for synergy among these areas of research is almost limitless. This volume

provides the reader, not so much with a do-it-yourself recipe for applying modern technology to the problem of language shift in South Asia today, but rather with some basic knowledge about the problems involved and some directions from which solutions could be forthcoming, a toolbox rather than a blueprint, for helping to shape the linguistic future of South Asia.

**The Cambridge Companion to Film Music** Mervyn Cooke,Fiona Ford,2016-12-08 This wide-ranging and thought-provoking collection of specially-commissioned essays provides a uniquely comprehensive overview of the many and various ways in which music functions in film soundtracks. Citing examples from a variety of historical periods, genres and film industries - including those of the USA, UK, France, Italy, India and Japan - the book's contributors are all leading scholars and practitioners in the field. They engage, sometimes provocatively, with numerous stimulating aspects of the history, theory and practice of film music in a series of lively discussions which will appeal as much to newcomers to this fascinating subject as to seasoned film music aficionados. Innovative research and fresh interpretative perspectives are offered alongside practice-based accounts of the film composer's distinctive art, with examples cited from genres as contrasting as animation, the screen musical, film noir, Hollywood melodrama, the pop music and jazz film, documentary, period drama, horror, science fiction and the Western.
