**Cause Related Marketing: A Substitute for Direct Donations?** Sebastian Siebert,2014-03-19 Despite the vast research on Cause-Related Marketing, little is known about the instrument's potential to substitute direct donations. A company engages in Cause-Related Marketing when it teams up with a cause supporting charity organisation. The similarity with direct donations suggests that cause-marketed products bear the potential to tap the donation market. The present investigation extends prior research by identifying key drivers for purchasing cause-marketed products and its potential to gain access to the market of direct donations (Hypothesis 1). Second, the work tries to assess the geographic implications of a Cause-Related Marketing campaign (Hypothesis 2).The results of Hypothesis 1 indicate that cause-marketed products bear a potential to substitute direct donations. Findings of Hypothesis 2 show that the geographical context of a CRM campaign has implications on the cause supported by a nongovernmental organisation.

*Dangerous Donations* Eric Anderson,Alfred A. Moss,1999 *Dangerous Donations* explores the important limitations on the power of these foundations and their agents. The northern philanthropies had to move cautiously and conservatively, seeking the cooperation of southern whites whenever possible. They believed African Americans could not be excluded from education and must be prepared for productive participation in the South -- whatever its social system -- for the safety of the region and the nation as a whole. **The Tap** Frank McKinney,2009-02-13 Discover a profound spiritual practice leading to success in the business of life. The Tap is about accepting the inherent responsibility and gaining the confidence in your ability to handle more, whether it's more wealth, health, happiness, or relationships. This book is for those who don't feel they're succeeding at the level they desire in the business we're all in: the business of life. Whether you're seeking greater financial rewards or some other kind of uplift, this book reveals there's one solution: Learning to feel The Tap and then acting on it. It primes you to start thinking that the rewards of success aren't meant for you alone, regardless of whether those rewards are already in hand or coming soon. But the rewards will come with astonishing speed and size to those who act on the greater responsibility that comes with greater blessings. Inspired by the biblical passage, 'from those to whom much is entrusted, much will be expected,' The Tap promises readers that as they attune themselves to this enduring truth, they'll feel God's tap and experience breakthroughs beyond comprehension. In The Tap, renowned real-estate rock czar Frank McKinney reveals the most important spiritual principle and practice of his astronomical success. He reveals how God has tapped him (and taps everyone) many times in life, answering prayers and presenting life-changing opportunities. Why, then, haven't you always recognized your own Tap Moments? The author explains this common oversight and leads you to find how you, too, have been blessed with the special ability to succeed at some level, yet the rewards of your success aren't meant for you alone. The author isn't a preacher or man of the cloth; he's a businessman who's discovered that faithful stewardship is a prerequisite to receiving greater resources. This inspiring yet practical guide is for those who want to succeed at a higher level with the business we're all in: the business of life. In The Tap, McKinney shows how you, too, can enrich your life beyond what you might ever have imagined for yourself--if you learn how to listen and respond to The Tap. The Tap: Feel it, follow it, and find your highest calling. Sensitize yourself to God's call and be prepared for the times when you're most likely to experience Tap Moments. Have confidence to handle the rapid rate of ascent that usually accompanies The Tap. Realize why you can't really understand or apply such popular ideas as the law of attraction and 'the secret' until you've been tapped. Combine compassionate capitalism and spiritual stewardship for progressive business models and practices.

The Gift of Water Sebastian Zug,2014 Pierre Bourdieu conceptualizes the social as an economy. With an empirical example of free water transfers between 'water rich' and 'water poor' neighbours, this book demonstrates the relevance of moral considerations in habitualized everyday practice. Using Luc Boltanski's work on Justifications, the analysis introduces economic imperfection into Bourdieu's 'perfect' Economy of Symbolic Goods. By presenting a Political Ecology of the neighbourly waterscape from the perspective of water consumers, this book is a scientific plea for a holistic analysis of water beyond the scale of policy making--Publisher's description.
